GENERAL FEATURES OF ROMANTICISM

1. **Individualism** => experience things on your own
 - emphasis on the I and the ego => I experience things for myself
 - the individual experience is woven together with other experiences
 - a poem is not a mirror but a lamp => it comes from within the poet and filters reality
 - objective reality is based on spiritual and transcendental realms, subjective experience and inner truth
 - the goal is to show the infinite in the finite, the beauty that is hidden in daily life, habits, and elements.
 - Plato's idealism and German Romanticism influenced this Individualism
2. **Aspiration towards infinity** => ideas live forever, humans don't => therefore the experiences of humans can be infinite => Transcends the individual experience
 - desire to break the earthly limitations of the human being
 - encouragement to break those limitations so we are able to archive everything that limits us
 - the **GLORY OF IMPERFECTION** => experimentalising and being spontaneous
 - Neoclassical ideals are deterred
 - creativity is spontaneous, this being "an emotion recollected in tranquillity"

, **An Oxford Companion to the Romantic Age** ,1999 *Britain's Bloodless Revolutions* A. Jarrells,2005-08-17 Britain's Bloodless Revolutions explores the relationship of the emerging category of Literature to the emerging threat of popular violence between the Bloodless Revolution and the Romantic turn from revolution to reform The book argues that at a time when the political nature of the Bloodless Revolution became a subject of debate in the period defined by France's famously bloody revolution Literature emerged as a kind of political institution and constituted a bloodless revolution in its own right **The Age of Revolutions** Open University. Handbook of British Romanticism Ralf Haekel, 2017-09-11 The Handbook of British Romanticism is a state of the art investigation of Romantic literature and theory a field that probably changed more quickly and more fundamentally than any other traditional era in literary studies Since the early 1980s Romantic studies has widened its scope significantly The canon has been expanded hitherto ignored genres have been investigated and new topics of research explored After these profound changes intensified by the general crisis of literary theory since the turn of the millennium traditional concepts such as subjectivity imagination and the creative genius have lost their status as paradigms defining Romanticism The handbook will feature discussions of key concepts such as history class gender science and the use of media as well as a thorough account of the most central literary genres around the turn of the 19th century The focus of the book however will lie on a discussion of key literary texts in the light of the most recent theoretical developments Thus the Handbook of British Romanticism will provide students with an introduction to Romantic literature in general and literary scholars with a discussion of innovative and groundbreaking theoretical developments Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred

Engel, Bernard Dieterle, 2008 In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age seen from cross cultural and interdisciplinary perspectives The work treats the appearance of major themes in characteristically Romantic versions the power of Romantic discourse to reshape imaginative writing and a series of crucial reactions to the impact of Romanticism on cultural life down to the present both in Europe and in the New World Through its combination of chapters on thematic generic and discursive features Romantic Prose Fiction achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism but as data of cultural history that shed important light on an evolving civilization SPECIAL OFFER 30% discount for a complete set order 5 vols The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The

editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents Romantic Irony sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism s own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age

The Romantic Revolution in America, 1800-1860 Vernon Louis Parrington, 1927 CURRENTS IN AMERICAN THOUGHT AN INTERPRETATION OF AMERICAN LITERATURE FROM THE BEGINNINGS TO 1920

The Romantic Revolution in America: 1800-1860 Vernon Louis Parrington, 2017-07-12 The development of literature between 1800 and 1860 in the United States was heavily influenced by two wars The War of 1812 hastened the development of nineteenth century ideals and the Civil War uprooted certain growths of those vigorous years The half century between these dramatic episodes was a period of extravagant vigor the final outcome being the emergence of a new middle class Parrington argues that America was becoming a new world with undreamed potential This new era was no longer content with the ways of a founding generation The older America of colonial days had been static rationalistic inclined to pessimism and fearful of innovation During the years between the Peace of Paris 1763 and the end of the War of 1812 older America was dying The America that emerged which is the focal point of

this volume was a shifting restless world eager to better itself bent on finding easier roads to wealth than the plodding path of natural increase The culture of this period also changed Formal biographies written in this period often gave way to eulogy it was believed that a writer was under obligation to speak well of the dead Consequently scarcely a single commentary of the times can be trusted and the critic is reduced to patching together his account out of scanty odds and ends A new introduction by Bruce Brown highlights the life of Vernon Louis Parrington and explains the importance of this second volume in the Pulitzer Prize winning study **Late Romanticism and the End of Politics** John Havard,2023-04-13 In the late Romantic age demands for political change converged with thinking about the end of the world This book examines writings by Lord Byron Mary Shelley and their circle that imagined the end from poems by Byron that pictured fallen empires sinking islands and dying stars to the making and unmaking of populations in Frankenstein and The Last Man These works intersected with and enclosed reflections upon brewing political changes By imagining political dynasties slavery parliament and English law reaching an end writers challenged liberal visions of the political future that viewed the basis of governance as permanently settled The prospect of volcanic eruptions and biblical deluges meanwhile pointed towards new political worlds forged in the ruins of this one These visions of coming to an end acquire added resonance in our own time as political and planetary end times converge once again British Romantic Drama Terence Allan Hoagwood,Daniel P. Watkins,1998 The present volume attempts a systematic explanation of various dimensions of Romantic drama by foregrounding both the theoretical and practical questions bearing on Romantic drama in its historical situation In this effort the volume intentionally gravitates toward discussion of lesser known works of the period rather than such major dramas as Manfred or Prometheus Unbound This is because the poetic dramas by Byron and Shelley have already been the subject of many useful historicist investigations and also because lesser known works for instance the dramas of Scott Wordsworth s Borderers and the many revolutionary and counter revolutionary dramas of the period provide avenues into historical and ideological issues that cannot be adequately addressed by exclusive attention to dramas long recognized as canonical **Revolution & Romanticism** Howard Mumford Jones,1974
