*Rommel* Kenneth Macksey, 1997-08-22 Although like Hannibal Napoleon and Robert E Lee German Field Marshal Erwin Rommel 1891 1944 met ultimately with defeat his daring tactical skill charismatic leadership and brilliant string of victories succeeded in placing him in the pantheon of great commanders By 1942 Rommel and his Afrika Korps had converted a side show of World War II into a major offensive for the Axis powers The British had been thrown back across the frontiers of Egypt until at El Alamein Rommel's army threatened Cairo Alexandria and the rich oil fields of the Middle East *Rommel Battles and Campaigns* provides a perceptive and incisive analysis of his entire military career from his fighting in Rumania Italy and France during World War I through his North African campaigns to his command in Normandy and his fatal though false implication in the July 20 bomb plot against Hitler Written by an expert in tank warfare and illustrated with nearly two hundred photos and maps this book presents a revealing critical portrait of one of the most celebrated soldiers of World War II

**Rommel's Desert Campaigns, February 1941-September 1942: A Study In Operational Level Weakness [Illustrated Edition]** Major Donald E. Kirkland, 2014-08-15 Includes the War in North Africa Illustration Pack 112 photos illustrations and 21 maps This study is a historical analysis to determine why Rommel's tactical success on the battlefield could not accomplish strategic objectives in North Africa Rommel's operations are reviewed from his arrival in North Africa in February 1941 through his last offensive to destroy the British Eighth Army at Alamein in August September 1942 The study compares his ability to conduct tactical operations with his apparent inability to plan and execute actions at the operational level of war Rommel's problems with operational planning are addressed within the scope of campaign planning principles set forth in FM 100-5 Operations Final Draft His planning is expressly judged on how he shaped his operational plans by using the concepts of aims resources constraints and restrictions to conform to strategic guidance Rommel's tactical execution is contrasted with his operational performance This comparison is based on the AirLand Battle tenets of agility initiative depth and synchronization The study concludes that Rommel's failure lies in planning operations that exceeded his resources and conducting needless operations that resulted in the loss of the initiative at the decisive point Rommel's plans exceeded the strategic objectives desired by the theater strategists His execution was ultimately defeated by his quest for tactical victories without regard to how they contributed to achieving campaign objectives Rommel's weakness at the operational level led to failure to sequence tactical victories to achieve campaign goals This failure illustrates the importance of understanding how operational art orchestrates tactical activities to achieve strategic objectives within a theater of operations

Great Warrior Leaders/thinkers ,1989      **Strategy for Victory** David Ian Hall,2007-12-30 Strategy for Victory The Development of British Tactical Air Power 1919 1943 examines the nature of the inter Service crisis between the British Army and the RAF over the provision of effective air support for the army in the Second World War Material for this book is drawn primarily from the rich collection of documents at the National Archives UK and other British archives The author makes a highly original point that Britain s independent RAF was in fact a disguised blessing for the Army and that the air force s independence was in part a key reason why a successful solution to the army s air support problems was found The analysis traces why the British army went to war in 1939 without adequate air support and how an effective system of support was organized by the RAF As such it is the first scholarly survey of the origins and development of British air support doctrine and practice during the early years of the Second World War The provision of direct air support was of central importance to the success enjoyed by Anglo American armies during the latter half of the Second World War First in North Africa and later in Italy and North West Europe American British and Empire armies fought most if not all of their battles with the knowledge that they enjoyed unassailable air superiority throughout the battle area This advantage however was the product of a long and bitter dispute between the British Army and the Royal Air Force that began at the end of the First World War and continued virtually unabated until it was resolved in late 1942 and early 1943 when the 2nd Tactical Air Force was created Battlefield experience and in particular success in North Africa combined with the hard work wisdom and perseverance of Air Marshals Sir Arthur Tedder and Arthur Coningham the active co operation of General Bernard Montgomery and the political authority of Prime Minister Winston Churchill produced a uniquely British system that afforded the most comprehensive effective and flexible air support provided by any air force during the war The book is divided into two equal parts of five chapters Part one surveys how the British Army went to war in 1939 without adequate air support and part two explains how an effective system of air support was organized by the middle years of the war The analysis traces Britain s earliest experience with aircraft in the Great War 1914 1918 the inter war period of doctrinal development and inter Service rivalry and the major campaigns in France and the Middle East during the first half of the Second World War when the weaknesses in Army RAF co operation were first exposed and eventually resolved As such it is the first scholarly survey of the origin and development of British air support doctrine and practice during the early years of the Second World War

The Art of War on Land, Illustrated by Campaigns and Battles of All Ages Alfred Higgins Burne, 1982      *The War in North Africa, 1940-1943* Colin F.
