Room For Talk:

Locker Room Talk Melissa Ludtke, 2024-08-16 Melissa Ludtke offers a compelling account of her courtroom quest to do what her male sportswriter colleagues took for granted to talk with players in Major League Baseball's locker rooms. She reveals how as a 26-year-old woman she took MLB Commissioner Bowie Kuhn to federal court and won.

Locker Room Talk Gary McNair, 2017-09-28 Locker Room Talk is a provocative piece of event theatre inspired by Donald Trump's leaked sexually aggressive comments. The show is a confronting exploration of the phenomenon of the then presidential candidate later dismissed as locker room banter. But can this be true? Is this simply a loathsome individual or one who speaks to a silent majority? Gary McNair wants to think we are better than this and is having honest conversations with men about women to see if he is right or wrong. The words of these men are performed by a cast of women in this verbatim piece.

Dude, You're a Fag C. J. Pascoe, 2007 Eighteen months of fieldwork in a racially diverse working-class high school: this is an exploration of the dynamics of masculinity among boys.

How to Analyze Talk in Institutional Settings Alec McHoul, Mark Rapley, 2002-05-01 Three approaches to analyzing institutional talk are introduced by internationally recognized experts: Conversation Analysis, Discursive Psychology, and Critical Discourse Analysis. The main section of the book, Applications, illustrates these approaches by taking the reader through the process of analysis in such instances as how pilots talk in aircraft cockpits, how computer helpdesks work, and how political speeches are constructed. Finally, the book opens up some theoretical and methodological controversies that occupy practitioners today. In this way, readers are introduced to the most recent ways of seeing how talk is critical to making the modern world work.

Men & Warfare: Equipping Men In Spiritual Warfare Stephen Phinney, 2012-12-12 The Christian man is engaged in a spiritual battle even if he does not believe that he is Satan and his spiritual forces are on the battle line waiting for you each day. A man does not have a choice as to his engagement in this battle; it awaits him each day and there is no way getting around it. If you are saved and have received Jesus Christ as your Lord and Savior, you are in. Be alert and sober for your enemy. Satan roams around on the earth to seek whom he can devour. This study is to equip each man with the spiritual tools necessary to war against the world, his flesh, and the devil himself. This study can be used as a private devotional, completing one lesson per day, or at a pace that is most comfortable. A popular format is in a small group environment, finishing one lesson per week. This workbook contains many helpful tools to equip leaders in small group ministry.

The Discourse of Public Participation Media Joanna Thornborrow, 2014-11-20 The Discourse of Public Participation Media takes a fresh look at what ordinary people are doing on air, what they say and how, and where they get to say it. Using techniques of discourse analysis to explore the construction of

participant identities in a range of different public participation genres Joanna Thornborrow argues that the role of the ordinary person in these media environments is frequently anything but Tracing the development of discourses of public participation media the book focusses particularly on the 1990s onwards when broadcasting was expanding rapidly the rise of the TV talk show increasing formats for public participation in broadcast debate and discussion and the explosion of reality TV in the first decade of the 21st century During this period traditional broadcasting has also had to move with the times and incorporate mobile and web based communication technologies as new platforms for public access and participation text and email as well as the telephone and an audience that moves out of the studio and into the online spaces of chat rooms comment forums and the twitterverse This original study examines the shifting discourses of public engagement and participation resulting from these new forms of communication making it an ideal companion for students of communication media and cultural studies media discourse broadcast talk and social interaction **Exploring English Language**

literary practice to express marginalised dimensions of social experience in a range of historical contexts It then moves on to reflect on England's nineteenth century industrialization from an architectural topographical perspective challenging theories of space and architecture to examine the complex role of industrial cities in mediating social changes in the practice of everyday life By demonstrating how the authenticity of historical accounts rests on materially emplaced narratives Griffiths makes the case for the emancipatory possibilities of historical writing He calls for a re-evaluation of historical epistemology as a primarily socio-scientific or literary enquiry and instead proposes a specifically architectural time-space figuration of historical events to rethink and refresh the relationship of the urban past to its present and future Written for postgraduate students researchers and academics in architectural theory and urban studies Griffiths draws on the space syntax tradition of research to explore how contingencies of movement and encounter construct the historical imagination

An Ethnography of Global Landscapes and Corridors Loshini Naidoo, 2012-03-09 The chapters presented in this book draw on ethnography as a methodology in a variety of disciplines including education management design marketing ecology and scientific contexts illustrating the value of a qualitative approach to research design The chapters discuss the use of traditional ethnographic methods such as immersion observation and interview as well as innovative ethnographical methods which have been influenced by the new digital culture The latter challenges notions of identity field and traditional culture such that people are able to represent themselves in the research process rather than be represented New approaches to ethnography also examine the use and implication of images in representation as well as critically examining the role and impact of the researcher in the process
