Rooted Against The Wind Personal Essays:

Rooted Against the Wind Gloria Jean Wade-Gayles, 1997-10-31 In these beautifully written essays Gloria Wade Gayles is at times painfully candid as she confronts such controversial subjects as rape homophobia interracial relationships and even looking and acting too young for her age Yet what emerges from each piece is a powerful connection to her community which serves as her well spring of strength sheltering her faith The Trouble Between Us Winifred Breines, 2006-04-06 Inspired by the idealism of the civil rights movement the women who launched the radical second wave of the feminist movement believed as a bedrock principle in universal sisterhood and color blind democracy Their hopes however were soon dashed To this day the failure to create an integrated movement remains a sensitive and contested issue In The Trouble Between Us Winifred Breines explores why a racially integrated women s liberation movement did not develop in the United States Drawing on flyers letters newspapers journals institutional records and oral histories Breines dissects how white and black women's participation in the movements of the 1960s led to the development of separate feminisms Herself a participant in these events Breines attempts to reconcile the explicit professions of anti-racism by white feminists with the accusations of mistreatment ignorance and neglect by African American feminists Many radical white women unable to see beyond their own experiences and idealism often behaved in unconsciously or abstractly racist ways despite their passionately anti racist stance and hard work to develop an interracial movement As Breines argues however white feminists racism is not the only reason for the absence of an interracial feminist movement Segregation black women's interest in the Black Power movement class differences and the development of identity politics with an emphasis on difference were all powerful factors that divided white and black women By the late 1970s and early 1980s white feminists began to understand black feminism's call to include race and class in gender analyses and black feminists began to give white feminists some credit for their political work Despite early setbacks white and black radical feminists eventually developed cross racial feminist political projects Their struggle to bridge the racial divide provides a model for all Americans in a multiracial society

Undaunted by the Fight Harry G. Lefever, 2005 Undaunted by the Fight is a study of small but dedicated group of Spelman College students and faculty who between 1957 and 1967 risked their lives compromised their grades and jeopardized their careers to make Atlanta and the South a more just and open society Lefever argues that the participation of Spelman's students and faculty in the Civil Rights Movement represented both a continuity and a break with the institution's earlier history On the one hand their actions were consistent with Spelman's long history of liberal arts and community service yet on the other hand as his research documents their actions represented a break with Spelman s traditional non political stance and challenged the assumption that social changes should occur only gradually and within established legal institutions For the first time in the eighty plus years of Spelman's existence the students and faculty who participated in the Movement took actions that directly challenged the injustices of the social and political status quo Too often in the past the Movement literature including the literature on the Atlanta Movement focused disproportionately on the males involved to the exclusion of the women who were equally involved and who in many instances initiated actions and provided leadership for the Movement Lefever concludes his study by saying that Spelman's activist students and faculty succeeded to the extent they did because they kept their eyes on the prize They endured the struggle he says and in so doing eventually won many prizes some personal others social Undaunted they liberated themselves but at the same time they liberated their school their city and thelarger society Women's Studies Linda Krikos, Cindy Ingold, 2004-08-30 This truly monumental work
