Erotic Love in Sociology, Philosophy and Literature Finn Bowring, 2019-08-22 Why is love taken for granted as a part of human experience And why is sexual or romantic love in particular so important to us This book aims to find out tracing the intellectual history of sexual love from the ancient Greeks to the modern day Erotic Love in Sociology Philosophy and Literature shows how discourses of love have intersected with social and cultural trends as well as with personal events and experiences Beginning with the queering of love in Greek antiquity it looks at how sexual love has been sung about fictionalized and theorized as a cornerstone of the formation of Western culture From the courtly love of twelfth century troubadours and the rise of affective individualism in the eighteenth century to the way the novel helped catalyze and crystallize the hopes and contradictions of love and marriage these are decisive episodes in the history of romantic love Lastly the book deals with how sociologists and feminist theorists have made sense of the liberalization of sexuality over the last fifty years especially given the post romantic pragmatism of commercialized dating practices Arguing against the over rationalism of intimate life Erotic Love in Sociology Philosophy and Literature recognizes the need to liberate love from patriarchal racist and homophobic prejudices and highlights the value of literary and sociological traditions to emphasize how they dignify the rhapsodies and the sufferings of love

In Context Andrew Harrison,2018-11-15 This collection of original concise essays by leading international scholars draws closely on the Cambridge Edition of the Letters and Works of D H Lawrence to provide up to date insights into the key contexts to the author s life career and legacy It opens with an overview of Lawrence s life as it is explored in biographies and revealed in his letters and writing before reassessing his relationship to the contemporary literary marketplace and his response to and intervention in a range of literary cultural and social historical contexts It ends with sections on Lawrence s changing critical reception and his powerful legacy in the work of later authors and filmmakers The essays present a detailed and nuanced picture of Lawrence as an enterprising professional author with a truly cosmopolitan outlook who engaged deeply and strongly with his contemporary culture and with currents of thought across a range of disciplines **The British National Bibliography Cumulated Subject Catalogue** ,1955 *East Timor at the Crossroads* Peter Carey,G. Carter Bentley,1995-09-01 In a rapidly changing post Cost War world where many age old conflicts and injustices are at last being put to rights East Timor stands out as a still unresolved tragedy In the past twenty years 1975 95 this former Portuguese colony has been under Indonesian military occupation an occupation responsible for the death of over 200 000 of its inhabitants a third of its pre 1975 population and the destruction of much of its indigenous society Yet despite enormous odds the people of East Timor continue to fight for the independence which was denied them in the mid 1970s Twenty years on there is now a very real chance for a new beginning in East Timor This book which brings together contributions by both East Timorese and Western specialists of East Timor provides a compelling account of the process by which a once isolated and traditional society has been forged into a nation with a deep sense of its own identity rooted it its unique religious cultural linguistic and historical heritage Indonesia is at last beginning to realize the cost of Third World colonialism and its Western allies are becoming less tolerant of its security state methods The last section of this book considers the new diplomatic initiatives which are currently in train under the auspices of the UN to bring about a resolution to the Timor problem without jeopardizing the integrity of the Indonesian Republic An extensive bibliography of titles on East Timor published between 1970 and 1994 will prove especially useful for scholars Looking Ahead! An Exploration of a New Poetic Expression Beyond Dichotomy Shin'ichiro Ishikawa, 2004 This study attempts to re evaluate Lawrence s poetry which has often been read as a set of biographical documents or supplementary notes to his novels as fully independent literary work in the light of post modern critical theory The author carefully examines how Lawrence needed to misread his precursors the nineteenth century Romantics to establish himself as one of the modern poets What separates his poetry from his precursors is his self consciousness as a modern poet His search for radical freedom in language and his meta poetic exploration of a new poetic expression make him a true pioneer of the terra incognita in English poetry

Fiscal Policy Issues of the Coming Decade United States. Congress. Joint Economic Committee. Subcommittee on Fiscal Policy, 1965 Reviews principles of Federal taxation and expenditures together with their effect on employment price stability and economic expansion

A World for Us John Foster, 2008-04-24 A World for Us aims to refute physical realism and establish in its place a form of idealism Physical realism in the sense in which John Foster understands it takes the physical world to be something whose existence is both logically independent of the human mind and metaphysically fundamental Foster identifies a number of problems for this realist view but his main objection is that it does not accord the world the requisite empirical immanence The form of idealism that he tries to establish in its place rejects the realist view in both its aspects It takes the world to be something whose existence is ultimately constituted by facts about human sensory experience or by some richer complex of non physical facts in which such experiential facts centrally feature Foster calls this phenomenalist idealism He tries to establish a specific version of such phenomenalist idealism in which the experiential facts that centrally feature in the constitutive creation of the world are ones that concern the organization of human sensory experience The basic idea of this version is that in the context of certain other constitutively relevant factors this sensory organization creates the physical world by disposing things to appear systematically world wise at the human empirical viewpoint Chief among these other relevant factors is the role of God as the one who is responsible for the sensory organization and ordains the system of appearance it yields It is this that gives the idealistically created world its objectivity and allows it to qualify as a real world
