Sans doute les innovations techniques qui interpellent aujourd'hui les différents acteurs du champ audiovisuel étaient-elles déjà présentes ou en germe dès la fin de la dernière décennie précédente. Mais la volonté de l'Etat de faire de la communication audiovisuelle une des clés de voûte d'une nouvelle politique culturelle et économique n'a cessé d'entretenir une tension toute particulière dans un paysage qui n'avait que fort peu évolué de 1974 à 1982 si l'on excepte la dissolution de l'ORTF et la création simultanée de sept sociétés chacune spécialisée dans une des fonctions de la radio diffusion production programmation diffusion. Interactivity and the Online Media Sphere in Nigeria Joseph Wilson, 2019-01-15 In today's age of extraordinary technological development, the mass media industry must constantly innovate and adopt emerging concepts to keep up with the demand for online visibility and prominence. Interactivity is a distinguishing feature of the current online environment and is a necessity in maintaining relevance in the digital media sphere. The growing impact of new media technologies and the resulting pressure on mass media organizations to incorporate more audience involvement have made interactivity a particularly sought-after phenomenon throughout the industry. The prominence of online interactivity has resulted in anxiety throughout the mass media industry regarding the ways in which media organisations can engage with their audience and maintain a high level of traffic on their websites. Attaining these heights largely depends on the quality and nature of interactivity on a given site. This book provides insights into the interactivity basics of an ideal media website and highlights the nature of interactivity in the Nigerian online media sphere vis-à-vis the basics of interactivity.
