Participation And Governance In Regional Development Global Trends In An Australian Context:

Participation and Governance in Regional Development Robyn Eversole, John Martin, 2005 Providing a clearly written cross disciplinary overview of changing understandings of regional development in Australia this volume focuses particularly on how the concept of participation is playing an increasingly important role in all aspects of regional development theory policy and practice It explores current trends toward increased citizen participation in development decision making and the establishment of governance structures to facilitate participation The book brings the Australian experience into the larger debate while seating Australian regional development experiences within their broader international context **Regional Development in Australia** Robyn Eversole, 2015-12-22 In Australia regions are not just geographic locations they are also cultural ideas Being regional means being located outside the nation s capital cities and in the periphery of its centres of power and influence Regional development in Australia is thus significantly different than its European or American counterparts However surprisingly little has been written about the unique dynamics of development in Australia s regions this book has been written to fill this gap In recent decades the Australian government has made repeated policy efforts to achieve sustainable development in its non metropolitan areas Over the same period those who live and work outside the nation s capital cities have come to identify as regional Australians This book takes an anthropological approach to understanding the particularities of regional development in Australia It draws upon rich on the ground observations of towns industries universities development organisations and communities across different settings to provide an in depth understanding of the subject This book will be of interest to researchers and practitioners concerned with regional development and policy **The Future of Australian Federalism** Gabrielle Appleby, Nicholas Aroney, Thomas John, 2012-03-08 This volume explains and evaluates Australia s federal system and the options for reform from various comparative and disciplinary perspectives **Contested Country** Cathy Robinson, Bruce Taylor, 2009-10-28 In Contested Country leading researchers in planning geography environmental studies and public policy critically review Australia s environmental management under the auspices of the Natural Heritage Trust over the past decade and identify the challenges that must be met in the national quest for sustainability It is the first comprehensive critical examination of the local and regional natural resources management undertaken in Australia using research sourced from all states as well as the Northern Territory It addresses questions such as How is accountability to be maintained Who is included and who is excluded in decentralised environmental governance Does the scale of bottom up management efforts match the scale of environmental problems How is scientific and technical fidelity in environmental management to be maintained when significant activities are devolved to and controlled by local communities The book challenges some of the accepted benefits assumptions and ideologies underpinning regional scaled environmental management and is a must read for anyone interested in this field **Federalism and Regionalism in Australia** A. J. Brown, Jennifer Bellamy, 2007-08-01 Sections

include Setting the scene old questions or new Drivers for change new approaches to federalism and regionalism and New institutions Approaching the challenge of reform **Rural Governance** Lynda Cheshire,Vaughan Higgins,Geoffrey Lawrence,2006-12-05 This book critically explores the social causes and consequences of emerging governance arrangements In particular the book moves beyond questions of empowerment in governance debates to consider how new kinds of power relations arise between the various actors involved *Endogenous Regional Development* Robert John Stimson,Roger Stough,Peter Nijkamp,2011 Increasingly endogenous factors and processes are being emphasized as drivers in regional economic development and growth This 15 chapter book is unique in that it commences by presenting five disciplinary takes on endogenous development from the perspectives of economics geography sociology planning and organizational management Several chapters demonstrate how researchers have developed operational models to investigate the roles played by endogenous factors in regional economic development including the role of entrepreneurial rents Further chapters provide empirical investigations of endogenous factors in regional development at various levels of spatial scale from the supraregion to the nation city and small town and in a variety of situational settings including the European Union Asia and Australia The book is an invaluable up to date resource for researchers and students in regional science and regional economic development and planning Governance and Planning of Mega-City Regions Jiang Xu,Anthony Yeh,2010-09-13 Provides a comparative treatment and examination of how new approaches in governance and planning are reshaping mega city regions around the world The contributors highlight how European mega city regions are evolving and strategic intervention redefined to enable the integration of urban qualities in a multi level governance environment how traditional federal countries in North America and Australia see the promise of major policies and development initiatives finally moving ahead to herald a more strategic intervention at national and regional scales and how transitional economies in China witness the rise of state strategies to control the articulation of scales and to reassert the functional importance of state in a growing diffused power context Agriculture and Resilience in Australia's North Keith Noble,Tania Dennis,Sarah Larkins,2019-08-05 This book examines the mechanisms and strategies farmers in North Australia adopt to manage the setbacks and challenges they face This social research is based on farmers experiences but also draws on the author s own experience after his tropical fruit farm was destroyed by two Category 5 cyclones in five years Through historical analysis the book compares historic and contemporary aspirations for northern development and discusses the influence of the built environment on individuals as well as access to health and other social services Exploring the implications of individual resilience strategies for policy development within the broader context of northern development and evolving environmental governance the book also highlights the fact that this is occurring in a new geological epoch the Anthropocene The book will provide a unique perspective and understanding to government individuals and industries interested in northern Australia and its relationship to the world **Regional Advantage and Innovation** Susan Kinnear,Kate Charters,Peter

Vitartas,2012-12-04 Regional areas are key building blocks of society in many countries This compilation uses Australian case study examples to demonstrate how regional areas are uniquely well placed to contribute to national goals in innovation infrastructure provision water and food security environmental sustainability industry diversification healthy and liveable communities and natural disaster preparedness and response Each of these themes is examined in the context of using innovative approaches from regions to deliver outcomes that are nationally significant Authorship is drawn from a balance of leading practitioners and academics to provide stories that are both engaging and rigorous The case studies are contextualised by an analysis of regional advantage literature discussion on the regional policy implications and lessons and commentary around the key trends and drivers for innovation and regional advantage in Australia The book provides a convincing argument that focusing on regional innovation and development offers significant benefits to a nation as a whole

Sustainable Economic Development and the Influence of Information Technologies: Dynamics of Knowledge Society Transformation Karatas, Muhammed,Tunca, Mustafa Zihni,2010-02-28 This book provides relevant theoretical frameworks and the latest empirical research findings in the area of information technology as it relates to sustainable economic development and the development of knowledge societies Provided by publisher **Local Government in a Global World** Emmanuel Brunet-Jailly,John F. Martin,2010-01-01 Contributors provide insights into key themes impacting local governance in two federations with much in common historically culturally and politically Australia and Canada These essays examine changes in the Australian and Canadian systems through four thematic lenses citizen participation in government systems the restructuring and reform of local governments the use of performance measures and management systems in the administration of local governments and the relations of local governments within higher levels of governments **Beyond Consensus** Richard D. Margerum,2011-08-19 An examination of how to move from consensus to implementation using collaborative approaches to natural resource management urban planning and environmental policy Collaborative approaches are increasingly common across a range of governance and policy areas Single issue single organization solutions often prove ineffective for complex contentious and diffuse problems Collaborative efforts allow cross jurisdictional governance and policy involving groups that may operate on different decision making levels In Beyond Consensus Richard Margerum examines the full range of collaborative enterprises in natural resource management urban planning and environmental policy He explains the pros and cons of collaborative approaches develops methods to test their effectiveness and identifies ways to improve their implementation and results Drawing on extensive case studies of collaborations in the United States and Australia Margerum shows that collaboration is not just about developing a strategy but also about creating and sustaining arrangements that can support collaborative implementation Margerum outlines a typology of collaborative efforts and a typology of networks to support implementation He uses these typologies to explain the factors that are likely to make collaborations successful and examines the implications for participants The rich case

studies in *Beyond Consensus* which range from watershed management to transportation planning and include both successes and failures offer lessons in collaboration that make the book ideal for classroom use It is also designed to help practitioners evaluate and improve collaborative efforts at any phase The book's theoretical framework provides scholars with a means to assess the effectiveness of collaborations and explain their ability to achieve results **Citizen**

Participation at the Local Level in China and Canada Andrew Sancton, Chen Zhenming, 2014-11-13 What if anything is similar about citizen participation at the local level in Canada and China The answer of course is politically sensitive There are many in Canada who would claim that the question is absurd How can there be meaningful citizen participation in a country where there are significant restrictions on political activity including on the right to form organizations with political purposes Presenting the work of leading scholars *Citizen Participation at the Local Level in China and Canada* examines how citizens in each country participate at the local level The book examines the development of citizen participation in local governance in Canada and China respectively It then covers the characteristics of political culture and climate on local participation highlighting factors especially unique to urban poor class migration and aboriginal and immigrant populations The chapters also explore means of protest demonstration and articulation of preference by populations and issues where citizen participation has effected change such as land use housing urban development and resource sustainability The book includes case studies that compare Canadian and Chinese communities and extrapolate interesting policy level changes at the local level based on citizen behavior and involvement It underscores the similarities and differences in political participation in both countries and sets the stage for the steps in the citizen participation in both countries *Steering the Metropolis* Inter American Development Bank, United Nations Human Settlements Programme, Development Bank of Latin America, 2017-10-24 A distinctive feature of urbanization in the last 50 years is the expansion of urban populations and built development well beyond what was earlier conceived as the city limit resulting in metropolitan areas This is challenging the relevance of traditional municipal boundaries and by extension traditional governing structures and institutions *Steering the Metropolis* Metropolitan Governance for Sustainable Urban Development encompasses the reflections of thought and practice leaders on the underlying premises for governing metropolitan space sectoral adaptations of those premises and dynamic applications in a wide variety of contexts Those reflections are structured into three sections Section 1 discusses the conceptual underpinnings of metropolitan governance analyzing why political technical and administrative arrangements at this level of government are needed Section 2 deepens the discussion by addressing specific sectoral themes of mobility land use planning environmental management and economic production as well as crosscutting topics of metropolitan governance finance and monitoring and evaluation Section 3 tests the concepts and their sectoral adaptations against the practice with cases from Africa America Asia and Europe Promoting Conflict or Peace through Identity Nikki R.

Slocum-Bradley, 2016-04-15 Developing a solid basis for future research and training this illuminating volume facilitates

peace and mutual understanding between people by addressing a root cause of social conflicts identity constructions The volume encompasses eight revealing empirical case studies from regions throughout the world conducted by experts from diverse disciplinary backgrounds Each case study examines how identities are being constructed and used in the region how these identities are related to borders and in what ways identity constructions foment peace or conflict The volume summarizes insights gleaned from these studies and formulates an analytical framework for understanding the role of identity constructions in conflict or peace

The Political Economy of Energy in Sub-Saharan Africa Lucky E. Asuelime, Andrew Emmanuel Okem, 2017-09-29 A deepening ecological crisis is rearing its head in sub Saharan Africa as it faces a myriad of challenges in regards to the development of its energy sector The dirty now and clean up later approach to the environment has a strong appeal particularly because it is often thought of as the last place to try to edge in another priority especially if that priority is perceived by many to be an economic luxury Asuelime and Okem bring together a team of specialist contributors who investigate to what extent sub Saharan Africa has displayed foresight or politico economic integrity The book shows the state s ability to meet the demands of provision of energy in sub Saharan Africa has led to heavy investments in infrastructure transmission and distribution of energy to the citizens However the inefficiencies corruption and unhealthy bureaucratic challenges that accompany this have led urgent problems which will be thoroughly explored in this book The Political Economy of Energy in Sub Saharan Africa will be of interest to students and scholars of African Studies Development Studies political science and environment

Theorising Social Exclusion Ann Taket, Beth R. Crisp, Annemarie Nevill, Greer Lamaro, Melissa Graham, Sarah Barter-Godfrey, 2009-09-10 This book works from a multidisciplinary approach across health welfare and education linking practice and research in order to improve our understanding of the processes and principles that foster social exclusion and how to prevent it

Cycles, Crises, Innovation Jerry Courvisanos, 2012-05-01 Reflection on the history of opinion and its application to our contemporary world and controversies over technology and our environmental difficulties is the distinguishing feature of the thoughtful economist If the reader of this book is moved to reflect on the work of Schumpeter and Kalecki the author of this book will have succeeded Even more important than this if the reader of this book comes to a changed and deeper understanding of how technology changes in our faltering capitalist economies and of how the environment is affected by production and may be improved with better ways of satisfying our personal and productive needs then the author will have done an even greater service to his profession and humanity From the foreword by Jan Toporowski School of Oriental and African Studies University of London UK Jerry Courvisanos provides us with a timely analysis of the forces behind the crises of capitalism and the tendency towards ecologically unsustainable growth He draws on the work of two of most creative if not most recognized economists of the 20th Century Michal Kalecki and Joseph Schumpeter In place of mainstream analysis with its emphasis on marginal conditions for optimisation around well defined equilibrium we have a world of innovation structural change

creative destruction business cycles financial crises changing income distribution and many other inconvenient developments that plague modern economies From the foreword by Harry Bloch Curtin University Australia Cycles crises and innovation are the major economic forces that shape capitalist economies Using a critical realist political economy approach the analysis in this fine work is based on the works of Micha Kalecki and Joseph Schumpeter both of whom identify these three dynamic forces as plotting the path of economic development Jerry Courvisanos thought provoking book examines how the rise of capital through investment enshrines innovation in profit and power which in turn determines the course of cycles and crises The author concludes by arguing for strategic intervention by transformative eco innovation as a public policy path to ecologically sustainable development This interdisciplinary book will appeal to economists innovation and entrepreneurship based scholars postgraduate students studying the political economy of both innovation and entrepreneurship regional development planners and economic development policymakers Anyone with a general interest in economics politics and innovation or looking for a path out of the economic and ecological morass of current capitalism will also find much to interest them in this book

Social Economics and Entrepreneurship Patricia-Luciana Runcan, 2014-03-26 In the context of recent changes in the economic and social spheres one of the most important topics of interest for researchers is the analysis of the way in which social economics and entrepreneurship may be used as successful approaches in social work This type of approach has seen a remarkable increase in popularity and has implications for social economic and political organisations as well as for the design of governing policies and strategies at local regional national and even international levels Social Economics and Entrepreneurship deals with core topics such as social economics management human resources and the impact of economics on social development The book will appeal mainly to researchers involved in these fields though the 21 essays compiled here are also a useful starting point for a wider audience wishing to familiarise themselves with these subjects
