Harris,Lynn Meltzer,2015-07-06 Peer support and social relationships have a tremendous influence on development motivation and achievement for all students including struggling learners and those with disabilities This highly practical book is one of the few resources available to guide classroom teachers and special educators in the application of peer assisted instructional strategies in grades K 12 Expert contributors describe evidence based approaches for building students skills in reading writing math and other content areas as well as social competence and executive functioning Sample lessons and more than a dozen reproducible tools are provided Purchasers get access to a Web page where they can download and print the reproducible materials **Effective Peer Learning** Keith Topping,Céline Buchs,David Duran,Hilde van Keer,2017-03-31 Peer learning allows a positive use of differences between pupils turning them into learning opportunities Yet education professionals often remain unfamiliar with the principles necessary to guarantee its effectiveness The aim of this book is to help practitioners establish well structured and effective peer learning projects using a variety of methods It introduces and defines cooperative learning mutual peer interaction and peer tutoring directional peer interaction outlining general organisational principles that will help practitioners implement peer learning in either of these forms The authors consider how to prepare and train learners to undertake their roles effectively and how to organise and monitor the process of interaction as it is happening They then look at how these systems actually operate in the classroom exploring how the organisational principles work in practice and giving many practical examples Subsequently three successive chapters consider how to structure peer interactions in cooperative learning same age peer tutoring and cross age peer tutoring Finally the advantages and problems and the potential and challenges of peer learning are examined The book should be read in stages with each part being able to be read on its own thus providing time for reflection Within each part readers can choose to focus on cooperative learning or peer tutoring The successive focuses on definitions general principles of implementation and practical issues of implementation should help practitioners build their skills and confidence Many choices between methods are described and when teachers are confident in one method they may then consider trying a new method It is the authors hope that the book will become a model for peer learning by sharing with readers the skills of other practitioners and thereby helping all children to develop to their full potential [Peer-assisted Learning](#) Keith Topping,Stewart Ehly,1998-07-01 Peer Assisted Learning PAL involves children in school consciously assisting others to learn and in so doing learning more effectively themselves It encompasses peer tutoring peer modeling peer education peer

counseling peer monitoring and peer assessment which are differentiated from other more general co operative learning methods PAL is not diluted or surrogate teaching it complements and supplements but never replaces professional teaching capitalizing on the unique qualities and richness of peer interaction and helping students become empowered democratically to take more responsibility for their own learning In this book PAL is presented as a set of dynamic robust effective and flexible approaches to teaching and learning which can be used in a range of different settings The chapters provide descriptions of good practice blended with research findings on effectiveness They describe procedures that can be applied to all areas of the school curriculum and can be used with learners of all levels of ability including gifted students students with disabilities and second language learners Among the distinguished contributors many are from North America while others are from Europe and Australia The applicability of the methods they present is worldwide Peer Assisted Learning is designed to be accessible and useful to teachers and to those who employ train support consult with and evaluate them Many chapters will be helpful to teachers aiming to replicate in their own school environments the cost effective procedures described A practical resources guide is included This volume will also be of interest to faculty and researchers in the fields of education and psychology to community educators who want to learn about the implications of Peer Assisted Learning beyond school contexts and to employers and others involved in post school training *Peer Coaching* Les

Foltos,2013-08-06 Teachers are better together Nationally and internationally educators are excited about Les Foltos techniques for effective peer coaching The model for Peer Coaching outlined in his 2011 TED talk has been implemented in 40 countries and counting with powerful results Now you have it in this concise guide to effective coaching Train teachers to help each other refine their classroom strategies and tailor them to 21st Century needs Foltos insights include How peer coaching that makes a difference involves much more than just one teacher offering another advice How a coaching relationship is first built on trust and then on the willingness to take risks Why peer coaching should focus on adapting teaching methods to the technological future of education For schools to effect the changes the future demands teachers must learn how to collaborate effectively With this book Les Foltos shows the way Not only does Peer Coaching explain how to effectively support and leverage peer coaches it specifically addresses how these coaches can be a critical element in supporting 21st century education and the 4 C s It s a great contribution to the 21st century PD literature Ken Kay CEO of EdLeader21 *Peer Teaching* Neal A. Whitman,1988-05-14 Efforts in higher education to use students as teachers peer teaching thus providing them with the benefits traditionally enjoyed by professors are described Four sections focus on the following 1 peer teaching and the psychological basis for its benefits cognitive level affective level and peer learning 2 types of peer teaching used in higher education teaching assistants tutors counselors partnerships and work groups 3 strategies for academic planners public relations recruitment and selection training peer teaching manuals and systematic approaches and 4 how the classroom teacher can implement peer teaching peer teaching experiences and approaches to peer teaching

The importance of further study to know whether different peer groups can be used consciously to enhance the learner's commitment to academic work is noted. A review of the literature on the subject reveals a need to better study the role of the professor in peer teaching. The fact that evaluation of peer teaching is fairly primitive raises the points that faculty should proceed cautiously in starting new programs and there is a huge opportunity for evaluation studies. Recommendations from current literature include the following: learning may occur when students work cooperatively; both peer teachers and peer learners learn; and learning may increase with a blend of situations in which professors are present and are not present.

Peer Coaching to Enrich Professional Practice, School Culture, and Student Learning Pam Robbins, 2015-05-19 How can educators work together more effectively to improve professional practice in a way that enhances student performance? The answer says author Pam Robbins involves combining collaborative activities and peer coaching: teachers supporting teachers. This book describes how any school can implement these proven practices and experience positive changes in teaching, school culture, and learning. Robbins explains how to develop a collaborative learning-focused culture and build trust among colleagues; offers strategies for participating in difficult conversations that yield useful feedback; clarifies how to develop, sustain, and evaluate peer coaching efforts; and showcases exemplary peer coaching practices used in real schools. She also includes coaching tools, scenarios, process guidelines, and reflection questions that make it easier to transfer these ideas into a school setting. Peer coaching offers a job-embedded learning strategy; it's a valuable structure for supporting schoolwide and districtwide priorities such as analyzing data, improving instruction, integrating technology, and implementing standards. In short, it creates an effective way to support the growth of every teacher and enrich learning processes in any school. Pam Robbins is a former teacher, coach, director of professional development, and school leader. She consults with high-performing and low-performing districts and designs and conducts workshops on leadership, school culture, organizational change, mentoring, and peer coaching.

Picture--Peer Partner Learning Gwen Dueck, Horizon Consulting, Saskatchewan Teachers' Federation. Saskatchewan Professional Development Unit, University of Regina. Saskatchewan Instructional Development & Research Unit, 1993. The purpose of the documents in this series is to provide educators in Saskatchewan with practical and relevant guides to teaching and learning as a means of expanding or refining teaching repertoires. This booklet highlights peer practice, a strategy that allows students to become actively involved in the strengthening or broadening of their own learning by supporting the learning of peers. Students reflect upon previously taught material by helping peers to learn and at the same time develop and hone their social skills. Students work together as partners, one functioning as a doer and the other as a helper. The doer performs a task or answers questions; the helper observes and provides feedback and helping information. The doer is the student and the helper takes on the role of teacher. Later, the partners reverse roles. This guide explores the peer partner method and is organized into the following eight parts: 1. Background 2. Peer Partner Learning Is 3. Why Use Peer Partner Learning 4. Prepare for Peer Partner
