Reagan And The Economy Nine Intimate Perspectives:

Reagan and the Economy Murray L. Weidenbaum, 1994 To find more information about Rowman Littlefield titles please visit us at www.rowmanlittlefield.com More Robert M. Collins, 2002-04-04 Robert Collins book explores the growth of America in terms of material prosperity Collins interweaves economic history and cultural analysis onto his examination of postwar growth politics The book contrasts the reasons for expansion and the way it has occurred in the past fifty years with the negative effects it has produced and the reactions against it He also looks at the attitudes and behaviors that have developed as Americans have become a people of more **Reagan** Iwan Morgan, 2020-06-11 Ronald Reagan is arguably the most successful post war American president A transformational leader he is broadly credited with renewing American prosperity after the stagflation hit 1970s laying the foundations for Cold War victory and bringing about the shift to the right in late twentieth century politics In this new biography Iwan Morgan shrewdly assesses Reagan's considerable achievements whilst also highlighting the shortcomings that were an indisputable part of his record Based on extensive research this book plots a chronological path through Reagan's life covering his upbringing his rise and fall as a Hollywood star his time as California governor and his pursuit of the presidency Morgan offers a detailed evaluation of the pragmatic conservatism that was the hallmark of Reagan's presidential leadership in domestic affairs In the international sphere he explains Reagan's metamorphosis from Cold War hawk to negotiator for nuclear arms reduction while also examining his role in the Iran Contra scandal This book ultimately shows that what made Reagan an American icon above all else was his optimism regarding his country and his ability to articulate its best values even if he himself did not always live up to these Today as the Republican Party grapples with its new direction and identity understanding the legacy of Ronald Reagan and Reaganism is more relevant than ever **The Rotten Fruits of Economic Controls and the Rise from the Ashes, 1965-1989** Thomas Emerson Hall, 2003 This book describes the policy bungling by Washington politicians and Federal Reserve officials that led to the high inflation and economic instability that plagued the United States from 1965-1982 It then discusses the reversal of these policies and how this resulted in the major economic expansion that followed Transforming America Robert M. Collins, 2009-08-22 Robert Collins examines the critical and controversial developments of the 1980s and the unmistakable influence of Ronald Reagan on their making Portraying the former president as a complex political figure who combined ideological conservatism with political pragmatism Collins demonstrates how Reagan's policies helped limit the scope of government control inflation reduce the threat of nuclear war and defeat communism In the 1980s other changes occurred as well including the advent of the personal computer a revolution in information technology a more globalized national economy and a restructuring of the American corporation In the realm of culture MTV self help gurus and postmodernism realized the cultural shifts of the postwar era creating a conflict that pitted cultural conservatism against a secular multicultural view of the world Entertaining and erudite Transforming America explores the events movements and ideas

that profoundly changed American culture and politics during an important decade **Presidential Transitions** John P. Burke, 2000 John P Burke provides a detailed and comprehensive account of the four US presidential transitions from Jimmy Carter to Bill Clinton exploring how each president elect prepared to take office and links those preparations to the performance and effectiveness of the new administration *The Miller Center Papers* Pat Dunn, 1998 *The Reagan Administration, the Cold War, and the Transition to Democracy Promotion* Robert Pee, William Michael Schmidli, 2018-11-28 This book posits that democracy promotion played a key role in the Reagan administration's Cold War foreign policy It analyzes the democracy initiatives launched under Reagan and the role of administration officials neoconservatives and non state actors such as the National Endowment for Democracy NED in shaping a new model of democracy promotion characterized by aid to foreign political movements and the spread of neoliberal economics The book discusses the ideological strategic and organizational aspects of U S democracy promotion in the 1980s then analyzes case studies of democracy promotion in the Soviet bloc and in U S allied dictatorships in Latin America and East Asia and finally reflects on the legacy of Reagan's democracy promotion and its influence on Clinton Bush and Obama Based on new research and archival documents this book shows that the development of democracy promotion under Reagan laid the foundations for US post Cold War foreign policy *America's Failing Economy and the Rise of Ronald Reagan* Eric R. Crouse, 2018-02-13 This book examines one of the most important economic outcomes in American history the breakdown of the Keynesian Revolution Drawing on economic literature the memoirs of economists and politicians and the popular press Eric Crouse examines how economic decline in the 1970s precipitated a political revolution Keynesian thought flourished through the presidencies of Lyndon B Johnson Richard Nixon and Gerald Ford until stagflation devastated American workers and Jimmy Carter's economic policies faltered setting the stage for the 1980 presidential campaign Tracking years of shifting public opinion and colorful debate between free market and Keynesian economists this book illuminates a neglected era of American economic history and shows how Ronald Reagan harnessed a vision of small government and personal freedom that transformed the American political landscape **American Book Publishing Record**, 1997 [The British National Bibliography](#) Arthur James Wells, 1998 [Out Of The Shadow](#) Christopher Maynard, 2008 As America watched the fall of the Berlin Wall with great enthusiasm President George H W Bush called the incident simply a good development He knew that the Cold War was far from over and that bringing it to an end would require not only symbolic gestures but also practical diplomacy During Bush's presidency 1989-93 the Berlin Wall fell the Warsaw Pact dissolved Germany was reunified and the Soviet Union ceased to exist Yet many people believe the Cold War ended under Reagan and that Bush's foreign policy achievements were merely an extension of Reagan's policies In this in depth look at the Bush administration's handling of the end of the Cold War author Christopher Maynard argues that Bush actually made a fundamental shift in foreign policy regarding the Soviet Union In part he believes historians have downplayed Bush's contribution because they have focused on

the strong ideological rhetoric of Reagan and Gorbachev without looking at the day to day process of policymaking during the Cold War

Out of the Shadow incorporates a variety of important previously unused sources Its focused treatment of the topic will appeal to scholars interested in both the first Bush presidency and the Cold War

Making the Unipolar Moment Hal Brands, 2016-05-12 In the late 1970s the United States often seemed to be a superpower in decline Battered by crises and setbacks around the globe its post World War II international leadership appeared to be draining steadily away Yet just over a decade later by the early 1990s America s global primacy had been reasserted in dramatic fashion The Cold War had ended with Washington and its allies triumphant democracy and free markets were spreading like never before The United States was now enjoying its unipolar moment an era in which Washington faced no near term rivals for global power and influence and one in which the defining feature of international politics was American dominance How did this remarkable turnaround occur and what role did U S foreign policy play in causing it In this important book Hal Brands uses recently declassified archival materials to tell the story of American resurgence Brands weaves together the key threads of global change and U S policy from the late 1970s through the early 1990s examining the Cold War struggle with Moscow the rise of a more integrated and globalized world economy the rapid advance of human rights and democracy and the emergence of new global challenges like Islamic extremism and international terrorism Brands reveals how deep structural changes in the international system interacted with strategies pursued by Jimmy Carter Ronald Reagan and George H W Bush to usher in an era of reinvigorated and in many ways unprecedented American primacy Making the Unipolar Moment provides an indispensable account of how the post Cold War order that we still inhabit came to be

Agencies in Foreign Aid Goran Hyden, Rwekaza Mukandala, 1999-06-03 In contrast to the bulk of the literature on foreign aid which deals with it as an instrument of foreign policy or focuses on problems of implementation this book examines the role of the aid agencies themselves from a recipient s perspective and provides longitudinal as well as comparative analysis The principal aid agencies of China Sweden and the United States began their operations in Tanzania simultaneously in the early 1960s but from very different ideological premises Nonetheless they all fell into operational traps that have limited the effectiveness of their contributions to Tanzanian development The editors draw lessons about how foreign aid if it is going to continue needs to be reformed at the agency level

The Hollow Parties Daniel Schlozman, Sam Rosenfeld, 2025-10-28 A major history from the Founding to our embittered present that explains the void Politico at the center of America s political parties Featured on The Ezra Klein Show and The Weekly Show with Jon Stewart America s political parties are hollow shells of what they could be locked in a polarized struggle for power and unrooted as civic organizations The Hollow Parties takes readers from the rise of mass party politics in the Jacksonian era through the years of Barack Obama and Donald Trump Today s parties at once overbearing and ineffectual have emerged from the interplay of multiple party traditions that reach back to the Founding Daniel Schlozman and Sam Rosenfeld paint unforgettable portraits of figures such as Martin Van Buren whose

pioneering Democrats invented the machinery of the mass political party and Abraham Lincoln and other heroic Republicans of that party's first generation who stood up to the Slave Power And they show how today's fractious party politics arose from the ashes of the New Deal order in the 1970s Activists in the wake of the 1968 Democratic National Convention transformed presidential nominations but failed to lay the foundations for robust movement driven parties Instead modern American conservatism hollowed out the party system deeming it a mere instrument for power Party hollowness lies at the heart of our democratic discontents With historical sweep and political acuity *The Hollow Parties* offers powerful answers to pressing questions about how the nation's parties became so dysfunctional and how they might yet realize their promise Subject Guide to Books in Print ,1997 Faith and the Presidency From George Washington to George W. Bush Gary Scott Smith,2006-10-12 Publisher description **Whitaker's Books in Print** ,1998 What God Wants: a Content Analysis of American Presidential Civil Religion on the Man-nature Relationship, 1961-1989 Robert Earl Burns,1992 **Bulletin of Bibliography** ,1999
