Dem Haoles Brian M. Gilpin, 2021-07-27 Dem Haoles is an innovative and entertaining study of white privilege Set

against the backdrop of Hawaii Dem Haoles explores how white people or haoles are portrayed and why The exploration is guided by the concept of images or archetypes employed to classify and dissect haole representation Dem Haoles mines normally mundane entertainment vehicles like romantic comedies and action hero dramas and reveals that these artifacts of popular culture are more than mindless entertainment They are in fact well camouflaged political messaging The focus on popular culture examined through image analysis makes Dem Haoles entertaining and informative The examination of popular media is detailed and thorough and will evoke deep nostalgic sentiments While the insightful analysis of images its mechanics and intent will provoke critical thinking Together this combination makes Dem Haoles a unique and rewarding experience that will both invalidate old perceptions about Hawaii and ruin the simple pleasure of mindless entertainment

Taking a Hard Look Amanda du Preez, 2009-05-27 It is the aim of this edited volume to take a hard look at gender and visual culture Gender and visual culture traverse in quite unique and often fascinating ways On the one hand gender functions as an interdisciplinary approach and critical tool to analyse and investigate several subject fields As such gender contributes to establishing a much needed theoretical and functional platform spanning across many fields of enquiry from where gender practices can effectively be critiqued and ideally changed On the other hand the growing popularity and ubiquity of visual culture in a global context create the increasing need to reflect on and interrogate this phenomenon in an academic manner Although Visual Culture Studies is an established subject at many Northern institutions it is fairly new and relatively under theorised in the South In response to the growing need to investigate issues dealing with gender and visual culture and particularly how they creatively intersect this selection of chapters first presented as papers at the Taking a Hard Look Gender and Visual Culture international conference 20-21 June 2007 Institute for Gender and Women's Studies University of Pretoria South Africa are collected here in the hope to make a purposeful contribution to the burgeoning discourse However by addressing the creative intersection between gender and visual culture this edited volume is no novelty In fact the topic of gender and visual culture has been addressed over the past decade in several edited volumes It is in this proud tradition that this book aims to take its place and to create a dialogue with international theory on gender and visual culture studies from a South perspective Key questions that are explored in the volume What type of gendered visual culture is being presented and created in the South particularly but not exclusively How is visual culture gendered Can one refer to a move beyond gender in terms of a trans gendered visual culture or are we still caught up in the same debilitating role models How does one address the ever increasing alienation between gender studies and the younger generation of students and scholars moving into higher education What is the role of gender as interdisciplinary tool in the academic analysis of visual culture as it spans across several subjects such as science social work technology psychology medicine philosophy sociology engineering communication economics religious studies business management anthropology geography historical studies cultural and media studies visual studies art history and literature studies
