Looking for Harlem Maria Balshaw, 2000-12-20 Taking the incredible flowering of African American literature in the 1920s as its starting point Looking for Harlem offers a cogent and persuasive new reading of a diverse range of twentieth century black American writing From the streets subways hotels and cabarets of New York's Harlem and Chicago's Southside Maria Balshaw moves beyond the canon to encompass often neglected writing by Rudolph Fisher Wallace Thurman and Claude McKay as well as the more familiar work of Richard Wright Ralph Ellison

Nella Larsen and Toni Morrison In a provocative revision of African American literary history Balshaw examines the creation of an urban aesthetic and explores the links between the engagement with the city and fictional reconstructions of racial identity and race writing Focusing on the material culture of the city the visual sense of the urban environment the class dynamics of urban culture and the crucial importance of consumerism this study presents a critically astute challenging and very welcome new approach to a much studied area of contemporary American fiction *Official Gazette of the United States Patent and Trademark Office* ,1990 Black Reconstruction in America W. E. B. Du Bois,2017-07-12 After four centuries of bondage the nineteenth century marked the long awaited release of millions of black slaves Subsequently these former slaves attempted to reconstruct the basis of American democracy W E B Du Bois one of the greatest intellectual leaders in United States history evaluates the twenty years of fateful history that followed the Civil War with special reference to the efforts and experiences of African Americans Du Bois s words best indicate the broader parameters of his work the attitude of any person toward this book will be distinctly influenced by his theories of the Negro race If he believes that the Negro in America and in general is an average and ordinary human being who under given environment develops like other human beings then he will read this story and judge it by the facts adduced The plight of the white working class throughout the world is directly traceable to American slavery on which modern commerce and industry was founded Du Bois argues Moreover the resulting color caste was adopted forwarded and approved by white labor and resulted in the subordination of colored labor throughout the world As a result the majority of the world s laborers became part of a system of industry that destroyed democracy and led to World War I and the Great Depression This book tells that story *White Prescriptions?* Terence D. Fitzgerald,2015-11-17 For all the debates about black males and their role in American society there has been little attention to a dangerous and growing trend the overprescription of Ritalin and other behavioral drugs This book reveals how and why black males are disproportionately targeted and controlled by American schools in ways that hamper and endanger their educational success Fitzgerald shows how the government medical practitioners and the pharmaceuticals industry have facilitated this oppressive trend setting it against a larger historical backdrop of racism in American education **Global Science Fiction** Gary Westfahl,2025-06-18 Science fiction represents a diverse community of writers and readers that spans the entire world This collection provides a global tour of the genre with essays about Latin American European African Arabic Indian Japanese and Chinese science fiction providing insights about how writers around the world have explored and reinvigorated the genre Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S Buckell Lourenco Mutarelli Stanislaw Lem Masande Ntshanga Tawfiq Al Hakim Anil Menon and Cixin Liu The contributing scholars examine how national experiences have shaped these narratives which often differ strikingly from Anglo American science fiction An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to

Anglophone readers An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world

Feminist Technical Communication Erin Clark, 2024-01-15 *Feminist Technical Communication* introduces readers to technical communication methodology demonstrating how rhetorical feminist approaches are vital to the future of technical communication Using an intersectional and transcultural approach Erin Clark fuses the well documented surge of work in feminist technical communication throughout the 1990s with the larger social justice turn in the discipline The first book to situate feminisms and technical communication in relationship as the focal point *Feminist Technical Communication* traces the thread of feminisms through technical communication s connection to social justice studies Clark theorizes slow crisis a concept made readable to technical communicators by apparent feminisms that can help technical communicators readily recognize and address social justice problems Clark then applies this framework to the Deepwater Horizon Disaster an extended crisis that has been publicly framed by a traditional view of efficiency that

privileges economic impact Through rich description of apparent feminist information gathering techniques and a layered analysis this study offers application far beyond this single disaster making available new crisis response possibilities that consider the economy without eliding ecological and human health concerns Feminist Technical Communication offers a methodological approach to the systematic interrogation of power structures that operate on hidden misogynies This book is useful to technical communicators scholars of technical communication and rhetoric and readers interested in gender studies and public health and is an ideal text for graduate level seminars focused on feminisms social justice and cultural studies
