Totem Poles Marjorie M. Halpin, 2011-01-01 The massive wood carvings unique to the Indian peoples of the Northwest Coast arouse a sense of wonder in all who see them This guide helps the reader to understand and enjoy the form and meaning of totem poles and other sculptures The author describes the origin and place of totem poles in Indian culture as ancestral emblems as expressions of wealth and power as ceremonial objects as mythological symbols and as magnificent artistic works of the people of the Pacific Northwest Halpin also suggests ways to interpret the motifs and symbols carved on the poles and shows how to recognize the special features which reveal not only the skill of the carver but also his tribal origin

LOOKING AT TOTEM POLES. FOREWORD BY NORMAN TAIT. Hilary Stewart, 1993

The Totem Pole Aldona Jonaitis, Aaron Glass, 2010 Writing a poem is like trying to describe a totemic column which passes right through and beyond the world We see it but its existence is elsewhere Stanley Diamond Totems The Northwest Coast totem pole captivates the imagination From the first descriptions of these tall carved monuments totem poles have become central icons of the Northwest Coast region and symbols of its Native inhabitants Although many of those who gaze at these carvings assume that they are ancient artifacts the so called totem pole is a relatively recent artistic development one that has become immensely important to Northwest Coast people and has simultaneously gained a common place in popular culture from fashion to the funny pages The Totem Pole reconstructs the intercultural history of the art form in its myriad manifestations from the eighteenth century to the present

Aldona Jonaitis and Aaron Glass analyze the totem pole's continual transformation since Europeans first arrived on the scene, investigate its various functions in different contexts, and address the significant influence of colonialism on the proliferation and distribution of carved poles. The authors also describe their theories on the development of the art form, its spread from the Northwest Coast to world's fairs and global theme parks, its integration with the history of tourism, and its transformation into a signifier of place. The role of governments, museums, and anthropologists in collecting and restoring poles, and the part that these carvings have continuously played in Native struggles for control of their cultures and their lands. Short essays by scholars and artists including Robert Davidson, Bill Holm, Richard Hunt, Nathan Jackson, Vickie Jensen, Andrea Laforet, Susan Point, Charlotte Townsend Gault, Lyle Wilson, and Robin Wright provide specific case studies of many of the topics discussed, directly illustrating the various relationships that people have with the totem pole. Aldona Jonaitis is director emerita of the University of Alaska Museum of the North and professor at the University of Alaska Fairbanks. An art historian who has published widely on Native American art, she is the author of *Art of the Northwest Coast* and *Looking North: Art from the University of Alaska Museum*, among other titles. Aaron Glass is an assistant professor at the Bard Graduate Center in New York City, where he teaches anthropology of art, museums, and material culture. He has published on visual art, media, and performance among First Nations on the Northwest Coast and has produced the documentary film *In Search of the Hamatsa: A Tale of Headhunting*.

Art of the Totem Marius Barbeau, 1984. Explores the history, development, and significance of the totem pole art of the Northwest Coast.

Totem Poles Pat Kramer, 2008. The First Peoples of the Pacific Coast recorded their history and preserved their legends and stories on spectacularly carved totem poles. This book guides readers to the many places in British Columbia, Washington, and Alaska where totem poles can be found and helps viewers understand the language of the poles. Learn about their origin and history, the symbols and ceremonies linked to them, types of figures, and how to identify them, and where to see authentic poles and pole collections. Pat Kramer spent many years researching the material in this book and worked closely with First Peoples to create a fresh and revealing look at these incredible artifacts. Filled with fascinating facts, legends, and photographs, *Totem Poles* is an excellent guide, reference, and souvenir. **BOOK**

JACKET **Totem Poles of the Pacific Northwest Coast** Edward Malin, 1986. Examines the creation of totem poles from the Tlingit settlements of Alaska to the Kwakiutl villages of Vancouver Island.

From the Land of the Totem Poles American Museum of Natural History, Aldona Jonaitis, 1991. In 1943, French anthropologist Claude Lévi-Strauss arrived in New York City along with countless refugees from the war in Europe. He became a frequent visitor to the North Pacific Hall at the American Museum of Natural History, where he could lose himself in what he affectionately called a magic place where the dreams of childhood hold a rendezvous, where century-old tree trunks sing and speak, where undefinable objects watch out for the visitor with the anxious stare of human faces, where animals of superhuman gentleness

join their little paws like hands in prayer Two and a half million people now visit the Museum each year to share in these enchantments The American Museum houses the most extensive collection of Northwest Coast Indian art in existence It includes material from virtually every Indian group that once lived along the west coast of British Columbia and Alaska In this book Dr Aldona Jonaitis traces the history of this magnificent collection beginning in the late nineteenth century before those coastal peoples had much contact with Europeans and their customs languages and art were still intact Shortly after the collections was formed between 1880 and 1910 Indian culture in this region went into a severe decline to be revived a half century later as another generation of North Americans discovered their heritage The story alternately captivates and distresses Populations were decimated by disease in the last years of the nineteenth century art objects left their makers hands bound for museums all over the world traditional rituals were outlawed and governments exerted strong pressures on the Indians to become assimilated On the other side of the story are the individuals like Franz Boas under whose direction much of the Museum collection was assembled Lt George Thornton Emmons who immersed himself in the native cultures George Hunt prized Kwakiutl informant for Boas and other researchers and Charles Edenshaw master Haida carver and painter whose colorful lives intersect the Age of Museum Collecting Artifacts in the American Museum come alive through the details Dr Jonaitis provides of their cultural context their traditional uses and their acquisition by collectors Viewers see spoons and bowls that held food eaten by Boas at a potlatch feel the spirit power emanating from a shaman s charm removed from its owner s grave by Lieutenant Emmons sense the sadness behind the display of family crests on a house model carved by Edenshaw Nearly 100 color plates in the book and numerous historical photographs from the Museum s archives recall a bygone era and are a tribute to the stunning artworks of the North Pacific region Dr Jonaitis has written the first book devoted solely to the collection of Northwest Coast Indian art in the American Museum of Natural History As such the book is both an essential work for scholars and a valuable resource for the general reader

The Modern Growth of the Totem Pole on the Northwest Coast Marius Barbeau,1965 **Totem Poles** Jennifer Frantz,2001 Introduces totem poles and how they were made and their importance to Native Americans living along the coast of North America which used them as a means of recording family and tribal history
