God's looking-glass, and other addresses to the young William Hay, 1902 **You Are the Apple of God's Eye** Rod W. Larkins, 2018-09-18 It's time to awaken your true self You are the apple of God's eye It has been said that the church is suffering an identity crisis Perhaps this is why we have so many Christians sitting in the church not knowing who they are or what their purpose is in life It's as if they have become orphaned unable to discover their godly inheritance It is important to know who we are in Christ and what we have a right to but it is equally important to have a full understanding of our spiritual birthright The true spiritual life is so much more than just being a good person going to church or performing good deeds The true spiritual life is royal Christ did not come to earth to establish a religion He came to awaken royalty There is nothing more exciting than discovering who we are in him We were created to reign We are meant to shine We are destined to be loved and to reflect God's love to the world So get ready You are about to embark on a great journey As you read the pages of this book you will discover that you don't have to wait for heaven to be spiritually alive Life

C. H. Spurgeon of London Charles Haddon Spurgeon,1864 Sermons of the Rev. C. H. Spurgeon Charles Haddon Spurgeon,1869 **Sermons** Charles Haddon Spurgeon,1857 *The Passive Eye* Branka Arsi?,2003 The Passive Eye is a revolutionary and historically rich account of Berkeley's theory of vision In this formidable work the author considers the theory of the embodied subject and its passions in light of a highly dynamic conception of infinity Arsic shows the profound affinities between Berkeley and Spinoza and offers a highly textual reading of Berkeley on the concept of an exhausted subjectivity The author begins by following the Renaissance universe of vision particularly the paradoxical elusive nature of mirrors then shows how this conception of vision was translated into the optical devices and in what way the various ways of

deception could be conceived Reading Berkeley against the backdrop of competing theories in relation to Leibniz Spinoza Newton Malebranche Hume Locke Molyneux and others this book gives a meticulous historic reconstruction of Berkeley s theory This excellent scholarly work presents Berkeley s theory in a new and radical light The book presented in three parts begins by presenting the conceptions of vision prior to Berkeley s intervention In the second part the author moves through a careful study of Descartes theory of vision to arrive at Berkeley The third part addresses the author s version of Berkeley in which the eye and the image become inseparable due to the collapse of the universe of representation The problem of vision becomes not that of representation but of presentation Through an erudite historic reading of Berkeley s theory and astute comparative assessments the author uncovers Berkeley s place as a contemporary theoretician corresponding with such thinkers as Deleuze Lacan Foucault and Derrida
