Loos Adolf:

Adolf Loos Roberto Schezen, Adolf Loos, Joseph Rosa, 1996 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed He is emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth Loos's masterful astylistic architecture is captured in this volume by the esteemed photographer Roberto Schezen in over one hundred exceptional photographs Starting with the refurbishment of his own apartment in 1903 twenty of Loos's most significant buildings are beautifully displayed Villa Karma the Kärntner Bar the Goldman his commentary on architecture's position between art and function plus subtle recollections of both the classic and the vernacular All these ploys were to subvert typical architectural expectations Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions From the Hardcover edition **Adolf Loos, Theory and Works** Benedetto Gravagnuolo, 1982

Adolf Loos Panayotis Tournikiotis, 1994 Viennese architect Adolf Loos was one of the most important pioneers of the European Modern Movement Born in 1870 he was an early opponent of the decorative trends of Art Nouveau believing instead that architecture devoid of ornament represented pure and lucid thought His rationalist design theories were put into practice in the Kärntner Bar Vienna 1907 Steiner House Vienna 1920 and Villa Müller Prague 1930 Surprisingly there is no other monograph on Loos in English currently available Adolf Loos joins Adalberto Libera and Albert Kahn in Princeton Architectural Press's historical monographs series and presents this great modernist's complete works through numerous illustrations *Ornament and Crime* Adolf Loos, 2019-05-30 Revolutionary essays on design aesthetics and materialism from one of the great masters of modern architecture Adolf Loos the great Viennese pioneer of modern architecture was a hater of the fake the fussy and the lavishly decorated and a lover of stripped down clean simplicity He was also a writer of effervescent caustic wit as shown in this selection of essays on all aspects of design and aesthetics from cities to glassware furniture to footwear architectural training to why the lack of ornament is a sign of intellectual power Translated by Shaun Whiteside With an epilogue by Joseph Masheck **Adolf Loos** Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay *Ornament and Crime* equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos's masterful astylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession

Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value. Far from being the anti-architect of the modern era, Masheck's Loos is an unruly yet integrally canonical artist-architect. He believed in culture, comfort, intimacy, and privacy and advocated the evolution of artful architecture. This is a brilliantly written revisionist reading of a perennially popular architect.

Adolf Loos August Sarnitz, 2016 With his passion for smooth surfaces, fine lines, and spatial plans, Adolf Loos was a prophet of 20th-century architecture. This essential introduction explores his rejection of ornamental forms and his radical pursuit of stark, bold, and beautiful design.

Fashioning Vienna Janet Stewart, 2013-06-17 This book seeks to extend our understanding of Adolf Loos and his role in the struggle to define the nature of modernity in Vienna at the turn of the nineteenth century.

Adolf Loos Roberto Schezen, Kenneth Frampton, Joseph Rosa, 2009-06-16 Adolf Loos not only was part of the first wave of modern architecture but also served as an important source of inspiration for all architects who followed. He is emblematic of the turn-of-the-century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth. Loos's masterful astyle architecture is captured in this volume by the esteemed photographer Roberto Schezen in over one hundred exceptional photographs. Starting with the refurbishment of his own apartment in 1903, twenty of Loos's most significant buildings are beautifully displayed: Villa Karma, the Krntner Bar, the Goldman. His commentary on architecture's position between art and function, plus subtle recollections of both the classic and the vernacular. All these plays were to subvert typical architectural expectations. Joseph Rosa's accompanying descriptions comprehensively discuss each building from the circumstances surrounding the realization of the projects to the use of Loos's architectural conventions.

Adolf Loos Alessandra Coppa, 2013 Isolated from the architectural climate of his day and at odds with the principles of the Vienna Secession, Austrian-born Adolf Loos, with his Neo-Rationalist constructions and the reform of architectural language which opposed the ornament in favour of pure utility, laid the very foundations for the Modern Movement. And yet for Loos, the architect's trade was none other than a revival of the skills of both the craftsman and the mason, supported by a profound sensitivity for chromatic and spatial aspects in the belief that the rooms in a house stimulated states of mind in the person who inhabited them. This was Loos's theory of *Raumstimmungen*, which he developed in his writings. It is hardly surprising that his most famous project, which remained an unrealised icon, repropose the image of an immense black granite Doric column presented in 1922 for the competition for the Chicago Tribune newspaper headquarters. By transforming a column into a habitable building, Loos's project broke away from the form of the skyscraper of modern American history and suggested the idea of architecture inspired by Antiquity. A new Antiquity that would make way for an unstoppable tendency from the curved line to geometry, from form to function, and all based on the awareness that the true modern style must represent the end of all styles and the rebellion against ornament, i.e. houses wearing a wig and bloomers.

Adolf Loos Claire Loos, 2011 Lively snapshot vignettes featuring Adolf Loos between 1929-1933 reveal the personality that helped shape modern architecture in Vienna and Czechoslovakia

The Private Adolf Loos Claire Beck Loos, 2020 Lively snapshot-like vignettes form an intimate literary portrait of the infamously eccentric and influential modern architect Adolf Loos. Written by Loos's third wife, the photographer Claire Beck (1904-1942), these often humorous short episodes reveal Loos's temperament and philosophy during the last years of his life (1928-1933). His irreverent personality and attitudes about post-Imperial Viennese society, the role of the craftsman, and the organic beauty of raw materials are brought to light. Included in *The Private Adolf Loos* are Claire's photographs of Loos collected in museums, as well as informal snapshots of the two of them showing the whimsy and theatricality of this relationship between two artistic personalities: one as infamous as he was well-regarded, and one a youthful accomplice and budding photographer who would also become Loos's intermediary, secretary, and proxy. With this bricolage of short tales and its dark conclusion at the brink of death's door, Claire shows herself to be one of Loos's great champions and memorialists despite his shortcomings and debilitations. This is not a book just about architecture but rather a love story about the Modern Revolution that provides a woman's insight into one of its most radical personalities set amid the fascinating cultural backdrop of 1920s and 1930s interwar Europe.
