Medieval Dalmatian Episcopal Cities Development And Transformation:

The Medieval Dalmatian Episcopal Cities Joan Dusa, 1991 This fascinating book explores how the nobility in the episcopal cities on the Dalmatian coast during the middle ages removed the church hierarchy from positions as magistrates judges tax collectors and land holders in the process of communal transformation into self government Joan Dusa evaluates in a unique manner how the internal development of the cities and international pressures in the ambitions of the papacy Byzantium Hungary and Venice forced the communes to secularize in defense of their political autonomy Thus Dusa disputes contemporary historiography which attributes the traditions of political freedom found in the medieval Dalmatian cities to the privileged status they enjoyed as untampered Byzantine possessions on the imperial frontier

The Medieval Networks in East Central Europe Balazs Nagy, András Vadas, Felicitas Schmieder, 2018-11-09 Medieval Networks in East Central Europe explores the economic cultural and religious forms of contact between East Central Europe and the surrounding world in the eight to the fifteenth century The sixteen chapters are grouped into four thematic parts the first deals with the problem of the region as a zone between major power centers the second provides case studies on the economic and cultural implications of religious ties the third addresses the problem of trade during the state formation process in the region and the final part looks at the inter and intraregional trade in the Late Middle Ages Supported by an extensive range of images tables and maps Medieval Networks in East Central Europe demonstrates and explores the huge significance and international influence that East Central Europe held during the medieval period and is essential reading for scholars and students wishing to understand the integral role that this region played within the processes of the Global Middle Ages

At Europe's Borders: Medieval Towns in the Romanian Principalities Laurentiu Radvan, 2010-01-28 This ambitious work focuses on the emergence and the development of medieval towns in the two Romanian principalities of South Eastern Europe Wallachia and Moldavia from their earliest days in the 13th century up to the 16th It is the only work of its kind in English but at the same time the first in the field seeking to identify and substantiate common elements between towns in this area of Europe It also covers Poland Hungary and the lands south of the Danube By relying both on various written sources and on archeological finds the author addresses several controversial issues starting from the particulars of urbanization through an analysis of local institutions of urban society and economy and concluding with thorough case studies The result is a book which shows that medieval towns in the Romanian Principalities despite being on the outskirts of Europe were nevertheless part of it

Sample Text **Enrico Dandolo and the Rise of Venice** Thomas F. Madden, 2006-09-29 Winner of the 2005 Otto Grundler Award the International Congress on Medieval Studies Between the eleventh and thirteenth centuries Venice transformed itself from a struggling merchant commune to a powerful maritime empire that would shape events in the Mediterranean for the next four hundred years In this magisterial new book on medieval Venice Thomas F Madden traces the city state s

extraordinary rise through the life of Enrico Dandolo c 1107 1205 who ruled Venice as doge from 1192 until his death The scion of a prosperous merchant family deeply involved in politics religion and diplomacy Dandolo led Venice s forces during the disastrous Fourth Crusade 1201 1204 which set out to conquer Islamic Egypt but instead destroyed Christian Byzantium Yet despite his influence on the course of Venetian history we know little about Dandolo and much of what is known has been distorted by myth The first full length study devoted to Dandolo s life and times Enrico Dandolo and the Rise of Venice corrects the many misconceptions about him that have accumulated over the centuries offering an accurate and incisive assessment of Dandolo s motives abilities and achievements as doge as well as his role and Venice s in the Fourth Crusade Madden also examines the means and methods by which the Dandolo family rose to prominence during the preceding century thus illuminating medieval Venice s singular political social and religious environment Culminating with the crisis precipitated by the failure of the Fourth Crusade Madden s groundbreaking work reveals the extent to which Dandolo and his successors became torn between the anxieties and apprehensions of Venice s citizens and its escalating obligations as a Mediterranean power

The formation of Croatian national identity Alex Bellamy, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then

looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society **Pope Alexander III (1159-81)** Anne J. Duggan, Peter D.

Clarke, 2016-04-22 Alexander III was one of the most important popes of the Middle Ages and his papacy 1159-81 marked a significant watershed in the history of the Western Church and society This book provides a long overdue reassessment of his papacy and his achievements bringing together thirteen essays which review existing scholarship and present the latest research and new perspectives Individual chapters cover topics such as Alexander's many contributions to the law of the Church which had a major impact upon Western society notably on marriage his relations with Byzantium and the extension of papal authority at the peripheries of the West in Spain Northern Europe and the Holy Land But dominant are the major clashes between secular and spiritual authority the confrontation between Henry II of England and Thomas Becket after which Alexander eventually secured the king's co-operation and the pope's eighteen-year conflict with the German emperor Frederick I Both the papacy and the Western Church emerged as stronger institutions from this struggle largely owing to Alexander's leadership and resilience he truly mastered the art of survival **Relics, Prayer, and Politics in Medieval**

Venetia Thomas E. A. Dale, 1997 Against a historical backdrop of relic theft and propaganda campaigns waged by two cities vying for patriarchal authority in medieval Venetia Thomas Dale shows how Romanesque mural painting shaped sacred space and institutional identity His focus is on the late twelfth-century murals in the crypt of Aquileia Cathedral The crypt which contains the relics of Aquileia's founding bishop Saint Hermagoras has a historical significance rooted in a legend identifying the saint as a direct disciple of Saint Mark the Evangelist On this basis the Carolingians promoted the city's status as patriarchal see of Venetia a claim that prompted Venice to steal Mark's relics from Alexandria Egypt and appropriate Aquileia's history This book the first English language study of the crypt explores how the paintings complement the relics of Hermagoras in their distinct devotional and political roles Hermagoras's intercessory power is activated by his orant image displayed over the central aisle within a larger hierarchy of apostles martyrs and bishops The surrounding hagiographic cycle justifies in legalistic fashion Aquileia's patriarchal title and the consecration of the city as locus sanctus of Venetia by the blood of its martyrs The iconic images in the eastern lunettes present the Virgin's compassio as a pictorial model for the vicarious experience of Christ's Passion Finally a fictive curtain over the socle presents allegories of spiritual warfare in the form of exempla from crusades pilgrimage and the epic poem Psychomachia which Dale analyzes as a gloss on the main program **Encyclopedia of Monasticism** William M. Johnston, 2013-12-04 The two-volume Encyclopedia of Monasticism describes the monastic traditions of both Christianity and Buddhism with more than 600 entries on important monastic figures of all periods and places surveys of countries and localities and topical essays covering a wide range of issues e.g. art behavior economics liturgy politics theology and scholarship Coverage encompasses not only geography and history

worldwide but also the contemporary dilemmas of monastic life Recent upheavals in certain countries are highlighted Korea Russia Sri Lanka etc Topical essays subtitled Christian Perspectives and Buddhist Perspectives explore in imaginative fashion comparisons and contrasts between Christian and Buddhist monasticism Encyclopedia of Monasticism also includes more than 500 color and black and white illustrations covering all aspects of monastic life art and architecture Byzantium, Its Neighbours and Its Cultures Danijel Dzino, Ken Parry, 2014-01-01 Byzantium was one of the longest lasting empires in history Throughout the millennium of its existence the empire showed its capability to change and develop under very different historical circumstances This remarkable resilience would have been impossible to achieve without the formation of a lasting imperial culture and a strong imperial ideological infrastructure Imperial culture and ideology required among other things to sort out who was insider and who was outsider and develop ways to define and describe ones neighbours and interact with them There is an indefinite number of possibilities for the exploration of relationships between Byzantium and its neighbours The essays in this collection focus on several interconnected clusters of topics and shared research interests such as the place of neighbours in the context of the empire and imperial ideology the transfer of knowledge with neighbours the Byzantine perception of their neighbours and the political relationship and or the conflict with neighbours When Ethnicity Did Not Matter in the Balkans John V. A. Fine, Jr., 2010-02-05 This is history as it should be written In When Ethnicity Did Not Matter in the Balkans a logical advancement on his earlier studies Fine has successfully tackled a fascinating historical question one having broad political implications for our own times Fine s approach is to demonstrate how ideas of identity and self identity were invented and evolved in medieval and early modern times At the same time this book can be read as a critique of twentieth century historiography and this makes Fine s contribution even more valuable This book is an original much needed contribution to the field of Balkan studies Steve Rapp Associate Professor of Caucasian Byzantine and Eurasian History and Director Program in World History and Cultures Department of History Georgia State University Atlanta When Ethnicity Did Not Matter in the Balkans is a study of the people who lived in what is now Croatia during the Middle Ages roughly 600 1500 and the early modern period 1500 1800 and how they identified themselves and were identified by others John V A Fine Jr advances the discussion of identity by asking such questions as Did most some or any of the population of that territory see itself as Croatian If some did not to what other communities did they consider themselves to belong Were the labels attached to a given person or population fixed or could they change And were some people members of several different communities at a given moment And if there were competing identities which identities held sway in which particular regions In When Ethnicity Did Not Matter in the Balkans Fine investigates the identity labels and their meaning employed by and about the medieval and early modern population of the lands that make up present day Croatia Religion local residence and narrow family or broader clan all played important parts in past and present identities Fine however concentrates chiefly on broader secular names that reflect attachment to a city region tribe or clan a labeled

people or state The result is a magisterial analysis showing us the complexity of pre national identity in Croatia Dalmatia and Slavonia There can be no question that the medieval and early modern periods were pre national times but Fine has taken a further step by demonstrating that the medieval and early modern eras in this region were also pre ethnic so far as local identities are concerned The back projection of twentieth century forms of identity into the pre modern past by patriotic and nationalist historians has been brought to light Though this back projection is not always misleading it can be Fine is fully cognizant of the danger and has risen to the occasion to combat it while frequently remarking in the text that his findings for the Balkans have parallels elsewhere John V A Fine Jr is Professor of History at the University of Michigan
