coaches who want kids to have fun enjoyable and meaningful youth sporting experiences I highly recommend it John Ballantine president and co founder Kids in the Game The modern day youth sports environment has taken the enjoyment out of athletics for our children Currently 70% of kids drop out of organized sports by the age of thirteen which has given rise to a generation of overweight unhealthy young adults There is a solution John O Sullivan shares the secrets of the coaches and parents who have not only raised elite athletes but have done so by creating an environment that promotes positive core values and teaches life lessons instead of focusing on wins and losses scholarships and professional aspirations Changing the Game gives adults a new paradigm and a game plan for raising happy high performing children and provides a national call to action to return youth sports to our kids Changing the Game is well a game changer It explores in both depth and breadth the youth sports experience its blood sweat and tears Any parent who wants their children to gain the physical psychological emotional and social benefits of what sport has to offer and isn't that every parent better read this book It will make you a better sports parent and it will ensure that your children get all the good stuff and avoid most of the bad stuff from participating in sports James Taylor Ph D author of Positive Pushing How to Raise a Successful and Happy Child **Win The Youth Sports Game** John Yeigh, 2021-11-23 How to Ensure That Your Children Are Given The Opportunity to Succeed at Sports Fifty million parents are hopeful their little superstars are on track to play college sports and win a scholarship but more than forty nine million may end up being disappointed Win The Youth Sports Game is the first title ever to provide an honest reality check for parents a What to Expect When You are Expecting for youth sports Fifty incredibly common adult imposed obstacles are exposed so that parents can help their athletes navigate and overcome these challenges along their own sports journeys Win The Youth Sports Game objectively narrates how ordinary kids can progress survive and thrive within today's 17 billion youth sports industrial complex The fifteen year developmental trek from toddler to collegiate athlete is chronicled while juxtaposing the real life challenges that athletes in all sports must endure and overcome Share this book's table of contents with any sports parent and they'll immediately identify with some of the seemingly outrageous storylines The unfortunate outcome is that more than 75 percent of kids quit sports by age fourteen with over zealous adults being a big contributor The author will donate half of any profits to Project Play's youth sports advocacy programs

Carrying Lawn Chairs Mark Robertson, 2016-08-01 There is an obsession with youth sports in the US and around the world It seems that most parents want to get their kids started in youth sports and other pursuits as early as possible to supposedly give them a leg up on other kids whose parents are also probably starting them at a young age in sports and other activities A major thrust of the book is that young kids should be allowed to have their childhood and be involved in much authentic and natural play That's how they discover who they are and thus are in a better position to meet the demands of the competitive world in their adult years I think that organized youth sports gets in the way of young kids being involved in authentic play and having real fun I say a number of controversial things in the book For example I think it is

dysfunctional for throngs of adults to flock to organized youth sports for very young kids The kids don't want to be there The adults are on edge about how their kids are performing No one seems to be having any fun I realize that many parents and grandparents and others so want to be at these games but again I think it is dysfunctional Unlike most books on problems with youth sports I don't say what can be done to improve organized youth sports for very young kids I am against organized sports for kids under 10 and maybe even 12 I'm not against sports I'm a big sports fan and follow major league sports I have a story about a hockey team that played when they youth were in their teens and they have fond memories of playing and even traveling together but they were older and more able to deal with organized sports and its many demands I talk about winning and many other things related to youth sports and the many shortcomings that I think are a part of organized youth sports especially for the very young I point out that what the young kids really want more than anything is the love of their parents There are many aspects of organized youth sports that get in the way of young kid being made to feel loved by their parents In the second part of the book I talk about other aspects of parenting related to various topics including government education discipline morality excellence drugs technology self esteem teasing comparisons individuality neighborhoods word use and other aspects of society related to raising children This is a book about youth and sports but it is more about the parent child dynamic in today's society and the many perils for young people these days I come to this book not out of any professional expertise but out of observations made from many years being involved in organized youth sports in many roles This book approaches organized youth sports from an angle that may have never been covered in any book Again I'm not for changing youth sports for young kids I'm against organized youth sports for young kids My book is not a how to book for parents I don't consider myself a parental guru My goal is to put ideas out there for parents to run with I come from the point of view that most parents already know a lot about parenting from experience I just want to make a contribution to parenting and improving the lives and increasing the happiness of young people Some may even get upset at some of the ideas I put forth or at the very least disagree And I'm not even guaranteeing I'm right about everything I put forth I just put forth the conclusions that I have made after many years of observation of the youth sports scene and the family and society in general I want my book to improve the lives of families and young people One thing about the written word is that it is interpreted in many ways That is a risk in any book but it can be hoped that the overall message will get through to most readers Thank you Mark Robertson Carrying Lawn Chairs Youth Sports and Other Parental Mindsets **Playing for the Long Run** Steve Locker, 2015-11-21 Playing For The Long Run is an insightful and practical guide for parents who are overwhelmed by the ultra competitive high pressure world of youth sports and looking for a better solution Through the real life voice of experience and expertise Steve Locker gives parents the tools they need to navigate youth sports in a happy healthy manner Inside you'll learn how to take control of your child's sports experience and enable them to grow in confidence self esteem respect and skill all while having fun On Frame: Wys: Exploring the Depths of Parenting in the World of Youth Soccer, an
