Charleson,2010-04-14 A haunting meditation on trust hope and love by a woman who adopts and trains a Golden Retriever puppy to become a search and rescue dog People In the wake of the Oklahoma City bombing Susannah Charleson s attention was caught by a newspaper photograph of a canine handler his exhausted face buried in the fur of his search and rescue dog Susannah a dog lover and pilot with search experience herself was so moved by the image that she decided to volunteer with a local canine team plunging herself into an astonishing new world While the team worked long hours for nonexistent pay and often heart wrenching results Charleson discovered the joy of working in partnership with a canine friend and the satisfaction of using their combined skills to help her fellow human beings Once she qualified to train a dog of her own Charleson adopted Puzzle a smart spirited Golden Retriever puppy who exhibited unique aptitudes as a working dog but was a bit less interested in the role of compliant house pet Scent of the Missing is the story of Charleson s adventures with Puzzle as they search for a lost teen an Alzheimer s patient wandering in the cold and signs of the crew amid the debris of the space shuttle Columbia disaster all while unraveling the mystery of the bond between humans and dogs A riveting view of both the human animal bond and the training of search and rescue dogs All dog lovers and people interested in training service dogs should read this book Temple Grandin author of Animals Make Us Human **The Relational Power of God** Eleanor

O'Donnell,2023-01-23 When we find the courage to allow our rebel voice to speak many of us question traditional Christian beliefs about God s power and how it is exercised in the world and in the church We ask What if God is not in omnipotent control of everything What if God s exercise of power is relational and noncoercive instead What if it is the quality rather than the quantity of God s power that really matters This book focuses on the theology of power that emerges when we ask such questions It draws on the social Trinitarian theology of J rgen Moltmann and the process thought of Charles Hartshorne to image God as a Social Trinity in process This vision of God understands the Holy Trinity to be fully relational and thoroughly with us and all creation To think of God and God s power this way ensures freedom for creature and creation and enables a viable response to the problem of evil and suffering It also leads to the conclusion that human relationships in the world and in the church are best modeled on the power sharing solidarity of the Triune God An Exposition with Practical Observations; continued upon the eleventh, twelfth, thirteenth and fourteenth chapters of the Book of Job. Being the summe of XXXV. lectures, etc. [With the text.] Joseph CARYL,1670 **Water and Water-Related Phenomena in the Old**

Testament Wisdom Literature Kivatsi Jonathan Kavusa,2019-10-31 Kivatsi Jonathan Kavusa addresses a gap in the field of ecological readings of the Old Testament exploring the theme of water in the Wisdom books including the often ignored deuterocanonical works Kavusa focuses on both the negative and positive potential of water drawing in particular on four of the Earth Bible principles intrinsic worth interconnectedness voice and purpose Kavusa begins with a summary of the extant studies and literature reviews on water and water related motifs in the Old Testament He then analyses the books of Job Proverbs Ecclesiastes and the Deutero canonical wisdom examining the various references to water as life giving or life

threatening entities and expanding upon the themes of water management and sustainability the intrinsic worth of nature and the unpredictable chaotic state of water This volume concludes with several insights for ecological responsibility and valuable wisdom for an eco theological perspective both in Kavusa s African context and with a more universal application

Basics Designing with Water Axel Lohrer,2017-05-22 Water is a special design element in open space planning and one that lends a decidedly distinguished touch But it is not enough merely to insert water basins and fountains at the appropriate spots in architectural drawings As early as the design stage the planner must begin to think about where the water is going to come from where it is going to drain and how it is going to be cleaned
