Oxford Handbook of Anglican Studies Mark David Chapman, Sathianathan Clarke, Martyn Percy, 2016 The Anglican Communion is the third largest Christian denomination and claims a membership of some 80 million members in about 164 countries Given that there are only around two hundred countries in the world this makes the churches of the Anglican Communion the most geographically widespread denomination after Roman Catholicism The 44 essays in this volume embrace a wide range of academic disciplines theological historical demography and geography and different aspects of culture and ethics They are united in their discussion of what is effectively a new inter disciplinary subject which we have termed Anglican Studies At the core of this volume is the phenomenon of Anglicanism as this is expressed in different places and in a variety of ways across the world This Handbook covers a far broader set of topics from a wider range of perspectives than has been hitherto attempted in Anglican Studies At the same time it doesn't impose a particular theological or historical agenda The contributions are drawn from across the spectrum of theological views and opinions It shows that the unsettled nature of the polity is part of its own rich history and many will see this as a somewhat lustrous tradition In its comprehensive coverage this volume is a valuable contribution to Anglican Studies and helps formulate a discipline that might perhaps promote dialogue and discussion across the Anglican world **Understanding Children's Spirituality**

Kevin E. Lawson, 2012-03-22 How important is childhood in the spiritual formation of a person How do children experience God in the context of their lives as they grow What does God do in the lives of children to draw them to himself and help them grow into a vital relationship with him How can adults who care about children better support their spiritual growth and direct it toward relationship with God through Jesus Christ These are critical questions that church leaders face as they consider how best to nurture the faith of the children God brings into our lives In this book over two dozen Christian scholars and ministry leaders explore important issues about the spiritual life of children and ways parents church leaders and others who care about children can promote their spiritual formation **Theology, Aesthetics, and Culture** Robert

MacSwain, Taylor Worley, 2012-09-20 British theologian David Brown has published a series of five books on theology and the arts This volume is a collection of responses to this body of work and includes essays by prominent philosophers theologians biblical and literary scholars Together they provide a fresh treatment of theology aesthetics and culture Northern Irish Poetry and Theology G. McConnell, 2014-06-17 Northern Irish Poetry and Theology argues that theology shapes subjectivity language and poetic form and provides original studies of three internationally acclaimed poets Seamus Heaney Michael Longley and Derek Mahon A Concise Companion to Chaucer Corinne Saunders, 2008-04-15 This concise companion provides a succinct introduction to Chaucer's major works the contexts in which he wrote and to medieval thought more generally Opens with a general introductory section discussing London life and politics books and authority manuscripts and readers Subsequent sections focus on Chaucer's major works the dream visions Troilus and Criseyde and The Canterbury Tales Essays highlight the key religious political and intellectual contexts for each major work Also covers important general topics including medieval literary genres dream theory the Church gender and sexuality and reading Chaucer aloud Designed so that each contextual essay can be read alongside one of Chaucer's major works *The Oxford Handbook of Theology and Modern European Thought* Nicholas Adams, George Pattison, Graham Ward, 2013-02-28 Modern European thought describes a wide range of philosophies cultural programmes and political arguments developed in Europe in the period following the French Revolution Throughout this period many of the wide range of modernisms and anti modernisms had a distinctly religious and even theological character not least when religion was subjected to the harshest criticism Yet for all the breadth and complexity of modern European thought and in particular its relations to theology a distinct body of themes and approaches recurred in each generation Moreover many of the issues that took intellectual shape in Europe are now global rather than narrowly European and for good or ill they form part of Europe's bequest to the world from colonialism and the economic theories behind globalisation through to democracy to terrorism This volume attempts to identify and comment on some of the most important of these The thirty chapters are grouped into six thematic parts moving from questions of identity and the self through discussions of the human condition the age of revolution the world both natural and technological and knowledge methodologies concluding with a section looking explicitly at how major theological themes have developed in modern European thought The chapters engage with major thinkers including Kant Hegel Kierkegaard Heidegger Schleiermacher Nietzsche Dostoevsky Barth Rahner Tillich Bonhoeffer Sartre de Beauvoir Wittgenstein and Derrida amongst many others Taken together these new essays provide a rich and reflective overview of the interchange between theology philosophy and critical thought in Europe over the past two hundred years **The Living Church**, 1946 The New Interpreter's® Handbook of Preaching, 2010-11-01 The New Interpreter's Handbook of Preaching is a major reference tool for preaching with articles on every facet of Christian sermon preparation and delivery This resource is both scholarly and practical It focuses on the most distinctive feature and greatest strength of homiletics as a discipline It is

rooted in interdisciplinary scholarship and it develops theory geared to practice Its theory arises out of the study of both excellent preaching past and present and actual sermon preparation and composition When theory and practice critique each other it is possible to produce guidelines that assist greater excellence and economy in preaching the gospel Excellence in standards is an area in which homiletics needs to grow and this project will be both a means to encourage and develop it A guiding question throughout will be Will it preach The answers will be offered in the sense that here is something that works well rather than here is something to try Preachers will turn to this resource with the expectation that they will find scholarly treatment of topics brief bibliographies of relevant key books and articles along with practical methodological suggestions for preachers to employ The contributors are homileticians preachers and writers in various disciplines who are committed to the pulpit through practice

Begbie, 2018-08-21 World renowned theologian Jeremy Begbie has been at the forefront of teaching and writing on theology and the arts for more than twenty years Amid current debates and discussions on the topic Begbie emphasizes the role of a biblically grounded creedal orthodoxy as he shows how Christian theology and the arts can enrich each other Throughout the book Begbie demonstrates the power of classic trinitarian faith to bring illumination surprise and delight whenever it engages with the arts

The Writer and the Cross Darren J.N. Middleton, 2022-06-27 Spiritually engaged readers commonly look toward fiction to better understand the depth of a faithful life and Christians are no exception Many followers of Jesus value beautifully written deftly characterized and pulse quickening literary art that seems more satisfying than dry tedious doctrinal textbooks This book surveys 12 pieces of historical fiction that feature notable Christian thinkers They include an illustrated children s book about St Irenaeus of Lyons a novel about Martin Luther s Reformation a screenplay focusing on Dietrich Bonhoeffer and even a story about Pope Francis narrated in popular manga style Rather than arcane literary analyses this book provides thoughtful and sometimes painful interviews with the authors of the covered works Most interviewees are little known or emerging writers Some have published their work with a church or denominational press others with a major publishing empire or popular print on demand platforms Storytellers reflect on their literary choices and the contexts of their writing sharing what modern Christians can learn from historical religious fiction

Christ Across the Disciplines Roger Lundin, 2013-10-03 In *Christ across the Disciplines* a group of distinguished scholars from across the theological spectrum explores the dynamic relationship between the Christian faith and the life of the mind Although the essays in this volume are rooted in a rich understanding of the past they focus primarily on how Christian students teachers and scholars might best meet the challenges of intellectual and cultural life in a global world This book ranges widely over the broad terrain of contemporary academic and cultural life covering such topics as the enormous growth of political

activism in late twentieth century evangelicalism the dynamics of literature and faith in the African American experience the dramatic implications of globalization for those who profess Christ and practice the life of the mind and more The Incarnation Stephen T. Davis, Daniel Kendall, Gerald O'Collins, 2004 This interdisciplinary study follows an international and ecumenical meeting of twenty four scholars held in New York at Easter 2000 the Incarnation Summit After an opening chapter which summarizes and evaluates twelve major questions concerning the Incarnation five chapters are dedicated to the biblical roots of this central Christian doctrine A patristic and medieval section corrects misinterpretations and retrieves for today the significance of the Council of Chalcedon AD 451 and its aftermath as well as clarifying Aquinas enduring metaphysical interpretation of the Incarnation The volume then moves to theological and philosophical debates three scholars take up such systematic issues as belief in the Incarnation the self emptying that it involves and its compatibility with divine timelessness The remaining four essays consider the place of the doctrine of the Incarnation in literature ethics art and preaching There is a fruitful dialogue between experts in a wide range of areas and the international reputation of the participants reflects and guarantees the high quality of this joint work The result is a well researched skilfully argued and at times provocative volume on the central Christian belief the Incarnation of the Son of God **The Body and the Arts**

Corinne Saunders, 2009-03-26 The Body and the Arts focuses on the dynamic relation between the body and the arts the body as inspiration subject symbol and medium Contributors from a variety of disciplines explore this relation across a range of periods and art forms spanning medicine literature from the classical period to the present and visual and performing arts

Divine Generosity and Human Creativity David Brown, 2017-02-22 Partly in a desire to defend divine freedom and partly because it is seen as the only way of preserving a distinctive voice for theology much contemporary theology has artificially restricted revelation and religious experience effectively cutting off those who find God beyond the walls of the Church Against this tendency David Brown argues for divine generosity and a broader vision of reality that sees God deploying symbols literary visual and sacramental as a means of mediating between the divine world and our own material existence A sustained argument for divine interaction and more specifically the ways in which God speaks in the wider imaginative world this volume calls for a careful listening exercise since symbols are richer and more open in their possibilities than their users often suppose Not only is this true of the imagery of Scripture even inanimate objects like buildings or hostile but creative artists can have important things to say to the believing Christian An ideal introduction that also moves the conversation forward this volume addresses foundations the multivalent power of symbols artists as theologians and meaning in religious architecture **God and Mystery in Words** David Brown, 2008-03-20 In God and Mystery in Words David Brown uses the way in which poetry and drama have in the past opened people to the possibility of religious experience as a launch pad for advocating less wooden approaches to Christian worship today So far from encouraging imagination and exploration hymns and sermons now more commonly merely consolidate belief Again contemporary liturgy in both its music and its ceremonial

fails to take seriously either current dramatic theory or the sociology of ritual Yet this was not always so Imagery and hymns mattered liturgical music encouraged a sense of drama sermons required rhetoric In a characteristically stimulating and inspiringly expansive study that ranges from ancient Greek drama to modern poetry from the meaning of the Logos to the history of vestments David Brown pleads for a much wider focus on the kind of factors that aid experience of God **The Trinity** Stephen T. Davis, Daniel Kendall SJ, Gerald O'Collins SJ, 2002-02-08 This interdisciplinary study is the result of an international and ecumenical meeting of nineteen scholars held in New York at Easter 1998 the Trinity Summit Biblical experts examine the scriptural roots of trinitarian doctrine patristic scholars correct those who continue to misinterpret the trinitarian teaching of the Cappadocians and Augustine and five scholars examine systematic and foundational issues like the viability of social models for the Trinity The volume ends with a study of the Trinity in art and the challenge of preaching the Trinity today The international reputation of the participants reflects and guarantees the high quality of this joint work

The Artistic Vision Alex Sosler, Gary Ball, 2024-07-25 When you look at the world what do you see As an artist your creativity stems from your vision The problem in the modern world is how often one's imagination is fragmented and reduced between worship and work the body and soul the material and the spiritual Written to practicing artists and those who pastor them The Artistic Vision encourages artists who long for a greater sense of purpose and a greater sense of wholeness proposing that seeing the material world as a shadow of spiritual realities will lead them toward an expression that joins faith and practice Drawing from the Oxford Movement and artistic examples like Christina Rossetti and Flannery O'Connor Ball and Sosler present a sacramental way of seeing the world the invisible through the visible the spiritual through the material the divine through creation Interspersed with practical vignettes from artists and pastoral reflection The Artistic Vision helps artists regain an enchanted mysterious and reverent vision of life Artists neither have to check their faith at the studio door nor produce kitschy or easy art By creating with a sacramental vision they are seeing the world charged with the grandeur of God and inviting viewers into that participation
