Commission, 1922 *The Virgin and the Grail* Joseph Goering, 2008-10-01 Some fifty years before Chr tien de Troyes wrote what is probably the first and certainly the most influential story of the Holy Grail images of the Virgin Mary with a simple but radiant bowl called a grail in local dialect appeared in churches in the Spanish Pyrenees In this fascinating book Joseph Goering explores the links between these sacred images and the origins of one of the West s most enduring legends While tracing the early history of the grail Goering looks back to the Pyrenean religious paintings and argues that they were the original inspiration of the grail legend He explains how storytellers in northern France could have learned of these paintings and how the enigmatic grail in the hands of the Virgin came to form the centerpiece of a story about a knight in King Arthur s court Part of the allure of the grail Goering argues was that neither Chr tien nor his audience knew exactly what it represented or why it was so important And out of the attempts to answer those questions the literature of the Holy Grail was born *Public Opinion Polling in Mid-Century British Literature* Megan Faragher, 2021-08-19 Whereas modernist writers

lauded the consecrated realm of subjective interiority mid century writers were engrossed by the materialization of the collective mind An obsession with group thinking was fuelled by the establishment of academic sociology and the ubiquitous infiltration of public opinion research into a bevy of cultural and governmental institutions As authors witnessed the materialization of the once opaque realm of public consciousness for the first time their writings imagined the potentialities of such technologies for the body politic Polling opened new horizons for mass politics Public Opinion Polling in Mid Century British Literature traces this most crucial period of group psychology s evolution the mid century when psychography a term originating in Victorian spiritualism transformed into a scientific praxis The imbrication of British writers within a growing institutionalized public opinion infrastructure bolstered an aesthetic turn towards collectivity and an interest in the political ramifications of meta psychological discourse Examining works by H G Wells Evelyn Waugh Val Gielgud Olaf Stapledon Virginia Woolf Naomi Mitchison Celia Fremlin Cecil Day Lewis and Elizabeth Bowen this book utilizes extensive archival research to trace the embeddedness of writers within public opinion institutions providing a fresh explanation for the new material turn so often associated with interwar writing **National and Regional Trends in Romance Linguistics and**
