Mary Of Nemmegen Medieval And Renaissance Texts Vol 5:

Making Magic in Elizabethan England Frank Klaassen, 2019-07-26 This volume presents editions of two fascinating anonymous and untitled manuscripts of magic produced in Elizabethan England the Antiphoner Notebook and the Boxgrove Manual Frank Klaassen uses these texts which he argues are representative of the overwhelming majority of magical practitioners to explain how magic changed during this period and why these developments were crucial to the formation of modern magic The Boxgrove Manual is a work of learned ritual magic that synthesizes material from Henry Cornelius Agrippa the Fourth Book of Occult Philosophy Heptameron and various medieval conjuring works The Antiphoner Notebook concerns the common magic of treasure hunting healing and protection blending medieval conjuring and charm literature with materials drawn from Reginald Scot's famous anti magic work Discoverie of Witchcraft Klaassen painstakingly traces how the scribes who created these two manuscripts adapted and transformed their original sources In so doing he demonstrates the varied and subtle ways in which the Renaissance the Reformation new currents in science the birth of printing and vernacularization changed the practice of magic Illuminating the processes by which two sixteenth century English scribes went about making a book of magic this volume provides insight into the wider intellectual culture surrounding the practice of magic in the early modern period **Subject Index of Modern Books Acquired** British Library, 1974 **The Seventh Window** Wim de Groot, 2005-05-01 1997 was an important year for Sint Janskerk in Gouda as the Museo del Prado in Madrid asked to borrow the cartoon of the King's Window by Dirck Crabeth for the exhibition Felipe II Un principio del Renacimiento Inspired by this event it was decided to compile an anthology about the church's seventh window Based on the many faceted topic an international group of scholars from various disciplines studied the stained glass window in depth as a crucial presentation of Philip II's Netherlandish and English years An important step in current research into an enthralling era in European history of the sixteenth century **Subject Index of the Modern Works Added to the British Museum Library**, 1951 Early Netherlandish Painting at the Crossroads Maryan W. Ainsworth, 2001 The nine papers collected in this publication which comprises the third and latest edition to the symposium volumes by the Metropolitan Museum of Art were first presented in conjunction with the Museum's exhibition of Early Netherlandish painting culled from its own holdings in 1998 The essays by an international roster of leading specialists together uncover the circumstances underlying the creation of works of art and shed new light on their meaning in the context of the growing interdisciplinary activity and burgeoning scholarship in the field The importance of archival research into the socio economic factors that existed in the late fifteenth and early sixteenth centuries is emphasized especially the impact of art markets on the production of paintings as well as sculpture Much new material has surfaced as a result of advances in the technical investigation of works of art underscoring the premise that the clues to the meaning of a work are often found not only in its method of manufacture but also in the specific audience for which it was intended and in the

function that it originally served for that audience Publisher description *General Catalogue of Printed Books* British Museum. Department of Printed Books,1972 **The Oxford History of Literary Translation in English** Roger Ellis,2008-03-20 THE OXFORD HISTORY OF LITERARY TRANSLATION IN ENGLISH General Editors Peter France and Stuart Gillespie This groundbreaking five volume history runs from the Middle Ages to the year 2000 It is a critical history treating translations wherever appropriate as literary works in their own right and reveals the vital part played by translators and translation in shaping the literary culture of the English speaking world both for writers and readers It thus offers new and often challenging perspectives on the history of literature in English As well as examining the translations and their wider impact it explores the processes by which they came into being and were disseminated and provides extensive bibliographical and biographical reference material Volume 1 of The Oxford History of Literary Translation in English originates with what medievalists have long known that virtually everything written in the Middle Ages in English can be regarded one way or another as a translation and that medieval understandings of what constitutes literature were significantly more generous than many modern ones It uses modern as well as medieval understandings of translation to inform its discussions the two understandings have a great deal in common and it aims to situate medieval translation in English as fully as possible in its various cultural contexts this includes in particular the complicated inter relations of translation throughout the period into Latin and for the Middle English period of translation in French Since it also understands the Middle Ages of its title as including the first half of the sixteenth century it studies what has survived of nearly a thousand years of translation activity in England **General Catalogue of Printed Books** British Museum.
