Mary's Resolution Dave Lewis, Mary Goode does not want to go to South Sudan she has to More than that her arrival sparks a series of events that will clash with the dark plans of a power hungry politician Mary represents an opportunity to unite a divided community A run down school needs help teachers need jobs and then there is Mary Kuol It is just possible that a strong woman could walk in the footsteps of her dead husband to bring a solution The problem is that Mary is as timid as a mouse and has never been to Africa The journey that Mary undertakes is not just measured in miles but hugs smiles and tears In truth Mary has no idea what she is doing Help will come friendships will grow and surprising things will happen good and bad No one sees what is coming who ever could believe that In a journey that starts in innocence a good Samaritan must to go the extra mile God is good at taking the weak and unlikely to do the most surprising things But this is Africa where nothing is simple or straight forward How will she cope

Gender Complementarity and Christian Personalism Mary Veronica Sabelli,John P. Hittinger,2025 When in the 1970 s Sister Prudence Allen RSM began to investigate philosophical thought on woman the question was considered to be at best a marginal area for philosophical research Rather it was seen as a sociological anthropological psychological or political issue This book confirms that today partly due to Allen s groundbreaking work the complementarity of man and woman is an important and fruitful area of research in philosophy providing an evaluative framework that enriches and challenges many other disciplines No one could have foreseen the centrality of her research for questions of gender theory that are in the third decade of the 21st century in the forefront of public attention In the present volume leading authors in the area of sex gender complementarity reflect upon and further develop various aspects of Allen s research In 14 original scholarly essays some contributors build upon Allen s project of exploring the concept of woman throughout the history of philosophy Others

explore the work of 20th century philosophers most of them Christian Personalists whom Allen credits with significant influence on the development of integral gender complementarity such as Karol Wojtya a John Paul II Jacques Maritain Edith Stein Emmanuel Mounier W Norris Clarke SJ and Bernard Lonergan SJ Still other contributors consider Marian spirituality analogies between Benedictine spirituality and the physiological realities of a woman s body during pregnancy seminary education in the writings of Allen and others and the impact of Allen s work on the real lives of women in families the Church and professional life Upon completing her magisterial three volume work *The Concept of Woman* Allen passed the baton to a new generation of scholars stating The next phases will be developed by those who themselves take the argument further and deeper in their own research writing living and lecturing The present volume takes up the baton carrying Allen s work forward and paying tribute to the lifetime achievement of a great scholar *Veronica H. Zschokke, 1847*
