Marya Ein Leben Roman:

Marya Joyce Carol Oates, Barbara Henningses, 1996 **Paternity** Nara B. Milanich, 2019-06-10 In this rigorous and beautifully researched volume Milanich considers the tension between social and biological definitions of fatherhood and shows how much we still have to learn about what constitutes a father Andrew Solomon author of *Far from the Tree* Parents Children and the Search for Identity For most of human history the notion that paternity was uncertain appeared to be an immutable law of nature The unknown father provided entertaining plotlines from Shakespeare to the Victorian novelists and lay at the heart of inheritance and child support disputes But in the 1920s new scientific advances promised to solve the mystery of paternity once and for all The stakes were high fatherhood has always been a public relationship as well as a private one It confers not only patrimony and legitimacy but also a name nationality and identity The new science of paternity with methods such as blood typing fingerprinting and facial analysis would bring clarity to the conundrum of fatherhood or so it appeared Suddenly it would be possible to establish family relationships expose adulterous affairs locate errant fathers unravel baby mix ups and discover one's true race and ethnicity Tracing the scientific quest for the father up to the present with the advent of seemingly foolproof DNA analysis Nara Milanich shows that the effort to establish biological truth has not ended the quest for the father Rather scientific certainty has revealed the fundamentally social cultural and political nature of paternity As *Paternity* shows in the age of modern genetics the answer to the question Who's your father remains as complicated as ever *"Escape to Life"* Eckart Goebel, Sigrid Weigel, 2012-05-29 After 1933 New York City gave shelter to many leading German and German Jewish intellectuals Stripped of their German citizenship by the Nazi regime these public figures either stayed in the New York area or moved on to California and other places This compendium adopting the title of a famous volume published by Klaus and Erika Mann in 1939 explores the impact the US and NYC in particular had on these authors as well as the influence they in turn exerted on US intellectual life Moreover it addresses the transformations that took place in the exiled intellectuals thinking when it was translated into another language and addressed to an American audience Among the individuals presented in this volume are such prominent names as T W Adorno H Arendt W Benjamin E Bloch B Brecht S Kracauer the Mann family S Morgenstern and E Panofsky The authors of the essays in this compendium were free to choose the angle biography theory politics or aspect a single work a personal constellation deemed best to illuminate the given intellectual's work Acclaimed NYC photographer Fred Stein a German Jewish refugee from Dresden produced numerous portraits of exiled intellectuals and artists A selection of these compelling portraits is reproduced in this book for the first time Women and Gender in Central and Eastern Europe, Russia, and Eurasia Mary Zirin, Irina Livezeanu, Christine D.
