T. Harris,2013-09-02 This book is a long term history of how the human body has been understood in Europe from the Palaeolithic to the present day focusing on specific moments of change Developing a multi scalar approach to the past and drawing on the work of an interdisciplinary team of experts the authors examine how the body has been treated in life art and death for the last 40 000 years Key case study chapters examine Palaeolithic Neolithic Bronze Age Classical Medieval Early Modern and Modern bodies What emerges is not merely a history of different understandings of the body but a history of the different human bodies that have existed Furthermore the book argues these bodies are not merely the product of historical circumstance but are themselves key elements in shaping the changes that have swept across Europe since the arrival of modern humans *Manufacturers Record* ,1913 Traffic World and Traffic Bulletin ,1918 **Energy Research Abstracts** ,1989 **Marshes** William Burt,2007-01-01 A naturalist captures an intimate photographic study of the marsh habitat and its unique flora and fauna in an exploration of marshes throughout North America and in all seasons of the year **A Great Conspiracy Against Our Race** Peter G. Vellon,2017 Racial history has always been the thorn in America s side with a swath of injustices slavery lynching segregation and many other ills perpetrated against Black people This very history is complicated by and also dependent on what constitutes a white person in this country Many of the European immigrant groups now considered white have also had to struggle with their own racial consciousness In A Great Conspiracy against Our Race Peter Vellon explores how Italian immigrants a once undesirable and swarthy race assimilated into dominant white culture through the influential national and radical Italian language press in New York City Examining the press as a cultural production of the Italian immigrant community this book investigates how this immigrant press constructed race class and identity from 1886 through 1920 Their frequent coverage of racially charged events of the time as well as other topics such as capitalism and religion reveals how these papers constructed a racial identity as Italian American and white A Great Conspiracy against Our Race vividly illustrates how the immigrant press was a

site where socially constructed categories of race color civilization and identity were reworked created contested and negotiated Vellon also uncovers how Italian immigrants filtered societal pressures and redefined the parameters of whiteness constructing their own identity This work is an important contribution to not only Italian American history but America s history of immigration and race Provided by publisher
