Maryland Claudia Kousoulas, Ellen Letourneau, 2022-04-25 Montgomery County's Agricultural Reserve created in 1980 was a history making decision that is a model for land preservation Montgomery County's earliest residents Native Americans developed agricultural communities and used the shores of the Potomac as a trading spot European settlers farmed tobacco eventually collapsing the County's economy until the Quaker community returned fertility to the land The C O Canal was the nation's first significant infrastructure project and helped create links to national and international markets In the 20th century the Marriott chain developed contemporary industrialized food that signaled a changing world The Agricultural Reserve was intended to preserve the county's rural past in the face of rapid change Along with farming it also preserved history and foodways Claudia Kousoulas and Ellen Letourneau tell this agricultural history through food and recipes The Rise of the Urban South Lawrence H. Larsen, 2014-07-15 Operating under an outmoded system of urban development and faced by the vicissitudes of the Civil War and Reconstruction southerners in the nineteenth century built a network of cities that met the needs of their society In this pioneering exploration of that intricate story Lawrence H Larsen shows that in the antebellum period southern entrepreneurs built cities in layers to facilitate the movement of cotton First came the colonial cities followed by those of the piedmont the New West the Gulf Coast and the interior By the Civil War cotton could move by a combination of road rail and river through a network of cities for example from Jackson to Memphis to New Orleans to Europe In the Gilded Age building on past practices the South continued to make urban gains Men like Henry Grady of Atlanta and Henry Watterson of Louisville used broader regional objectives to promote their own cities Grady successfully sold Atlanta one of the most southern of cities demographically as a city with a northern outlook Watterson tied Louisville to national goals in railroad building The New South movement did not succeed in bringing the region to parity with the rest of the nation yet the South continued to rise along older lines By 1900 far from being a failure in terms of the general course of American development the South had created an urban system suited to its needs while avoiding the promotional frenzy that characterized the building of cities in the North Based upon federal and local sources this book will become the standard work on nineteenth century southern urbanization a subject too long unexplored **The First American Political Conventions** Stan M. Haynes, 2014-01-10 For almost two centuries Americans have relied upon political conventions to provide the nation with new leadership The modern convention a four day carefully choreographed prime time television event designed to portray the party and its candidate in the most favorable light continues many of the traditions and rules developed during the first conventions in the mid 19th century This study analyzes the birth of the convention process in the 1830s and follows its development over 40 years chronicling each of the presidential elections between 1832 and 1872 the leading candidates and an analysis of the key issues and memorable speeches and events on the convention floor Other topics include back room deal making dark horse candidacies meeting halls parades rallies and other accompanying hoopla This volume reveals the origins of a quintessentially American spectacle and sheds new light on an understudied aspect of

the nation's political past *The Papers of Jefferson Davis* Jefferson Davis, 1971-11-01 Much of Jefferson Davis' life and career has been obscured in controversy and misinterpretation. This full, carefully annotated edition will make it possible for scholars to reassess the man who served as President of the Confederacy and who in the aftermath of war became the symbolic leader of the South. For almost a decade a dedicated team of scholars has been collecting and documenting Davis' papers and correspondence for this multi-volume work. The first volume includes not only Davis' private and public correspondence but also the important letters and documents addressed to and concerning him. Two autobiographical accounts, a detailed genealogy of the Davis family, and a complete bibliography are also included. This volume covers Davis' early years in Mississippi and Kentucky, his career at West Point, his first military assignments, and his tragic marriage to Sarah Knox Taylor. Together, the letters and documents unfold a human story of the first thirty-two years of a long life that later became filled with turbulence and controversy.

Baltimore Revisited P. Nicole King, Kate Drabinski, Joshua Clark Davis, 2019-08-09 Nicknamed both Mobtown and Charm City and located on the border of the North and South, Baltimore is a city of contradictions. From media depictions in *The Wire* to the real-life trial of police officers for the murder of Freddie Gray, Baltimore has become a quintessential example of a struggling American city. Yet the truth about Baltimore is far more complicated and more fascinating. To help untangle these apparent paradoxes, the editors of *Baltimore Revisited* have assembled a collection of over thirty experts from inside and outside academia. Together, they reveal that Baltimore has been ground zero for a slew of neoliberal policies, a place where inequality has increased as corporate interests have eagerly privatized public goods and services to maximize profits. But they also uncover how community members resist and reveal a long tradition of Baltimoreans who have fought for social justice. The essays in this collection take readers on a tour through the city's diverse neighborhoods, from the Lumbee Indian community in East Baltimore to the crusade for environmental justice in South Baltimore. *Baltimore Revisited* examines the city's past, reflects upon the city's present, and envisions the city's future.
