**Ancient Rome on the Silver Screen** Gregory S. Aldrete, Graham Sumner, 2023-05-15 An unparalleled exploration of films set in Ancient Rome from the silent Cleopatra to the modern rendition of Ben Hur No sooner had the dazzling new technology of cinema been invented near the end of the 19th century than filmmakers immediately turned to ancient history for inspiration Nero Cleopatra Caesar and more all found their way to the silver screen and would return again and again in the decades that followed But just how accurate were these depictions of Ancient Rome In Ancient Rome on the Silver Screen Myth versus Reality Gregory S Aldrete and Graham Sumner provide a fascinating examination of 50 films set in Ancient Rome analyzing each for its historical accuracy of plot characters costumes and sets They also divulge insights into the process of making each movie and the challenges the filmmakers faced in bringing the Roman world to vivid cinematic life Beginning with the classics from the dawn of cinema through the great golden age of sword and sandals flicks in the 1950s to the dramatic epics of the modern day Aldrete and Sumner test the authenticity of Hollywood's version of history Featuring remarkable custom made paintings depicting characters as they appeared in film and how they should have appeared if they were historically correct Ancient Rome on the Silver Screen delivers an invaluable perspective of film and history This unique collaboration between professional illustrator and award winning Roman historian offers a deeper understanding of modern cinema and brings Roman history to life **Swords and Cinema** Jeremiah McCall, 2015-01-14 A dive into the authenticity of battle scenes in epic films set in the Greco Roman world

from Stanley Kubrick's *Spartacus* to Ridley Scott's *Gladiator*. The battles and sieges of the Classical world have been a rich source of inspiration to film makers since the beginning of cinema and the sixties and seventies saw the golden age of the swords and sandals epic with films such as *Spartacus*. Ridley Scott's *Gladiator* led a modern revival that has continued with the release of films like *300*, *The Eagle* and *Centurion* and HBO's mini series *Rome*. While Hollywood interpretations of Classical battle continue to spark interest in ancient warfare to casual viewers and serious enthusiasts alike they also spark a host of questions about authenticity. What does Hollywood get right and wrong about weapons organization tactics and the experience of combat? Did the Spartans really fight clad only in their underpants and did the Persians have mysterious silver masked assassins in their armies? This original book discusses the merits of battle scenes in selected movies and along the way gives the reader an interesting overview of ancient battle. It should appeal to the serious student of ancient warfare, movie buffs and everyone in between. Jeremiah McCall impresses us with detail on the motion pictures relevant to ancient history in an honest and informative style. UNRV.com The author has managed to produce a readable informative and credible perspective. His work is entertaining and his conclusions have an authoritative feel to them. Enjoy FIRE Project

**Three Stones Make a Wall** Eric H. Cline, 2018-11-06 From the bestselling author of *1177 B.C.* a comprehensive history of archaeology from its amateur beginnings to the cutting edge science it is today. In 1922 Howard Carter peered into Tutankhamun's tomb for the first time, the only light coming from the candle in his outstretched hand. Urged to tell what he was seeing through the small opening he had cut in the door to the tomb, the Egyptologist famously replied, "I see wonderful things." Carter's fabulous discovery is just one of the many spellbinding stories told in *Three Stones Make a Wall*. Written by Eric Cline, an archaeologist with more than thirty seasons of excavation experience, this book traces the history of archaeology from an amateur pursuit to the cutting edge science it is today by taking the reader on a tour of major archaeological sites and discoveries. Along the way it addresses the questions archaeologists are asked most often: How do you know where to dig? How are excavations actually done? How do you know how old something is? Who gets to keep what is found? Taking readers from the pioneering digs of the eighteenth century to today's exciting new discoveries, *Three Stones Make a Wall* is a lively and essential introduction to the story of archaeology.

**Race** Denise Eileen McCoskey, 2021-03-25 How do different cultures think about race In the modern era racial distinctiveness has been assessed primarily in terms of a person s physical appearance But it was not always so As Denise McCoskey shows the ancient Greeks and Romans did not use skin colour as the basis for categorising ethnic disparity The colour of one s skin lies at the foundation of racial variability today because it was used during the heyday of European exploration and colonialism to construct a hierarchy of civilizations and then justify slavery and other forms of economic exploitation Assumptions about race thus have to take into account factors other than mere physiognomy This is particularly true in relation to the classical world In fifth century Athens racial theory during the Persian Wars produced the categories Greek and Barbarian and set them in brutal opposition to one another a process that could be as intense and destructive as black and white in our own age

Ideas about race in antiquity were therefore completely distinct but as closely bound to political and historical contexts as those that came later This provocative book boldly explores the complex matrices of race and the differing interpretations of ancient and modern across epic tragedy and the novel Ranging from Theocritus to Toni Morrison and from Tacitus and Pliny to Bernal s seminal study *Black Athena* this is a powerful and original new assessment *TV antiquity* Sylvie Magerstädt,2019-03-14 *TV antiquity* explores representations of ancient Greece and Rome throughout television history The first comprehensive overview of the swords and sandals genre on the small screen it argues that these shows offer a distinct perspective on the ancient world The book traces the historic development of fictional representations of antiquity from the staged black and white shows of the 1950s and 1960s to the most recent digital spectacles One of its key insights is that the structure of serial television is at times better suited to exploring the complex mythic and historic plots of antiquity Featuring a range of case studies from popular serials like *I Claudius* 1976 and *Rome* 2005 8 to lesser known works like *The Caesars* 1968 and *The Eagle of the Ninth* 1976 the book illustrates how broader cultural political and economic issues have over time influenced the representation of antiquity on television **The Listener** ,1983 *Divine Programming* Charlotte E. Howell,2020 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly significant to serial dramatic television Utilizing original case studies and interviews *Divine Programming* investigates the development writing producing marketing and positioning of key series including *7th Heaven* *Friday Night Lights* *Rectify* *Supernatural* *Jane the Virgin* *Daredevil* and *Preacher* As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches establishment distancing displacement and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme [Roman legion](#) Several Authors,2015-12-17 [The Warsaw Ghetto in American Art and Culture](#) Samantha Baskind,2018-02-15 On the eve of Passover April 19 1943 Jews in the Warsaw Ghetto staged a now legendary revolt against their Nazi oppressors Since that day the deprivation and despair of life in the ghetto and the dramatic uprising of its inhabitants have captured the American cultural imagination *The Warsaw Ghetto in American Art*

and Culture looks at how this place and its story have been remembered in fine art film television radio theater fiction poetry and comics Samantha Baskind explores seventy years worth of artistic representations of the ghetto and revolt to understand why they became and remain touchstones in the American mind Her study includes iconic works such as Leon Uris s best selling novel Mila 18 Roman Polanski s Academy Award winning film The Pianist and Rod Serling s teleplay In the Presence of Mine Enemies as well as accounts in the American Jewish Yearbook and the New York Times the art of Samuel Bak and Arthur Szyk and the poetry of Yala Korwin and Charles Reznikoff In probing these works Baskind pursues key questions of Jewish identity What links artistic representations of the ghetto to the Jewish diaspora How is art politicized or depoliticized Why have Americans made such a strong cultural claim on the uprising Vibrantly illustrated and vividly told The Warsaw Ghetto in American Art and Culture shows the importance of the ghetto as a site of memory and creative struggle and reveals how this seminal event and locale served as a staging ground for the forging of Jewish American identity *Brief*
