Dowd, 2010-09-20 Among the many important tools feminist legal theorists have given scholars is that of anti essentialism all women are not created equal and privilege varies greatly by circumstances particularly that of race and class Yet at the same time feminist

legal theory tends to view men through an essentialist lens in which men are created equal The study of masculinities inspired by feminist theory to explore the construction of manhood and masculinity questions the real circumstances of men not in order to deny men's privilege but to explore in particular how privilege is constructed and what price is paid for it In this groundbreaking work feminist legal theorist Nancy E Dowd exhorts readers to apply the anti essentialist model so dominant in feminist jurisprudence to the study of masculinities She demonstrates how men's treatment by the law and society in general varies by race economic position sexuality and other factors She applies these insights to both boys and men examining how masculinities analysis exposes both privilege and subordination She examines men's experience of fatherhood and sexual abuse and boys experience in the contexts of education and juvenile justice Ultimately Dowd calls for a more inclusive feminist theory which by acknowledging the study of masculinities can broaden our understanding of privilege and subordination

Gendered Peace Donna Pankhurst, 2012-07-26 This volume contributes to the growing literature on women conflict and peacebuilding by focusing on the moments after a peace accord or some other official ending of a conflict often denoted as post conflict or post war Such moments often herald great hope for holding to account those who committed grave wrongs during the conflict and for a better life in the future For many women both of these hopes are often very quickly shattered in starkly different ways to the hopes of men Such periods are often characterized by violence and insecurities and the official ending of a war often fails to bring freedom from sexual violence for many women Within such a context efforts on the part of women and those made on their behalf to hold to account those who commit crimes against them and to access their rights are difficult to make are often dangerous and are also often deployed with little effect Gendered Peace explores international contexts and a variety of

local ones in which such struggles take place and evaluates their progress The volume highlights the surprising success in the development of international legal advances for women but contrasts this with the actual experience of women in cases from Sierra Leone Rwanda South Africa Afghanistan Bangladesh East Timor Peru Central America and the Balkans
