Graham Gauld, 1999 In the 1950s and early 1960s Modena was the center of Italy's sports car and Grand Prix universe. There engineers and artisans crafted cars for Ferrari, Maserati, OSCA, ATS and others every day bringing an unending parade of new surprises to the famous Modena Autodrome for testing. As a young man Graham Gauld traveled to the northern Italian villa several times striking up relationships with famous drivers, engineers and designers who granted him and his camera unprecedented access to their facilities. The result is this remarkable history which documents the fall of Italian carmakers from Grand Prix eminence and their subsequent rise to dominance in international GT racing. All of the photos are from Gauld's private collection and are seen together here for the first time. Populated with fantastic cars, motorsport luminaries and the author's rarefied memories, this splendid photo history is sure to interest all fans of vintage racing and classic Italian machinery. Stuart Codling, 2017-06 The most fun you can have on four wheels. Sports cars are the athletes of the automotive world. Always nimble and quick, often powerful, sports cars fly where other cars lumber and dash where others plod. The definition of a sports car is somewhat fluid and the question 'What was the first sports car?' will often incite a heated debate among enthusiasts. Still, most car fans feel that they know a sports car when they see one and when asked to name a few will rattle off a remarkably similar list of nameplates: Jaguar, Corvette, Triumph, MG, Aston Martin, Ferrari, Lotus, Alfa Romeo, BMW. Pressed harder, more exotic and obscure brands will emerge: DB, Alpine, Bugatti, Lancia. Sports cars have offered road and track excitement for nearly 100 years. The original cars evolved for racing but their appeal and popularity ensured that production versions were soon available for those whose sporting intents never left the boulevard or winding back road. Along the way sports cars became more comfortable, sometimes almost practical and above all handsome.

But never have they been boring The Art of the Classic Sports Car offers enthusiasts a beautifully illustrated review of several decades of high performance cars featuring cars from around the globe all shot in the studio to ensure a handsome and desirable book Each featured car includes a profile discussing the car's place in sports car history along with technical and performance specs as well as a smattering of historical images and period ads *The Story of Maserati* Stuart Codling, 2025-05-08 Discover more than a century of automotive excellence in this photographic celebration of Maserati Since 1914 Maserati has been at the forefront of sport and luxury motoring the famous trident adorning many of the most beautiful cars of the last century In this elegantly designed book in the bestselling Story of Cars series The Story of Maserati gives readers a fascinating look into the people the innovations and of course the cars that have helped define the brand as one of the premier names in Italian carmaking Founded and headquartered in Italy's Emilia Romagna region Maserati has retained a quintessentially Italian quality throughout its history embodied in its unfailingly sumptuous designs Each of the manufacturer's most iconic models is showcased here from the Quattroporte and 3500 GT to the Ghibli and GranTurismo Maserati's long and storied participation in motorsport is also covered here from its time in Formula 1 and touring car series to its re-emergence in Formula E from 2022 Packed with stunning photography and a fascinating text The Story of Maserati charts the history of this exceptional marque in perfectly giftable package **Classic Car** DK, 2023-04-11 From the Chevrolet Bel Air to the Ferrari Testarossa this stunning book showcases the most iconic and important classic cars from every decade since the 1940s Few things ignite such reverence as a classic car With more than 250 iconic models from the 1940s to the early 1990s photographed from every angle this title is a glorious celebration of the stars in the classic car firmament Classic Car brings you the story of more than 20 great marques including household names Bentley Mercedes Ferrari Cadillac and Aston Martin Its lavish photography reveals every detail in close up of models that range from the 1940s giant two-ton Daimler DE36 which ferried royals about in style through to sleek Ferraris from the 1980s capable of smashing the 200mph barrier It puts you in the driving seat of such icons as the Chevrolet Corvette the Ford Thunderbird and the Mercedes 300SL and brings you the designers of these amazing machines and the story of their manufacturers This ultimate guide to classic cars further features A comprehensive catalog that draw out the key features of each important model with detailed profiles and specification Feature pages broaden the scope of the book covering everything from the designers and manufacturers who created them to their evolution over the decades Stunningly shot DPS images add an extra layer of color and flavor to the book Written by award winning author and expert on all aspects of motoring Giles Chapman Editor in Chief of DK's The Car Book which has sold over 550 000 copies worldwide to date Updates will include the key models that have grown in popularity since the last edition Whether you dream of owning one of these super cool cars or you are a collector already Classic Car is set to become a treasured favorite **Encyclopaedia of Classic Cars** Rob de la Rive Box, 1999 The complete encyclopedia of classic sports cars with informative text and over 750 color photographs [Supercar Revolution](#)
