California Bookwatch Combining literary theory cultural criticism and muckraking Colavito aims to debunk alternative history He does a fair job of presenting his case using a great deal of textual analysis but believers will dismiss it as yet another attempt to suppress the truth while those who haven't been immersed in the literature are likely to be bewildered or indifferent the writing is engaging and the topic intriguing Publishers Weekly Nearly half of all Americans believe in the existence of extraterrestrials and many are also convinced that aliens have visited earth at some point in history Included among such popular beliefs is the notion that so called ancient astronauts visitors from outer space were responsible for historical wonders like the pyramids In *The Cult of Alien Gods* author Jason Colavito reveals for the first time that the entire genre of ancient astronaut books is based upon fictional horror stories whose author once wrote that he never wished to mislead anyone In this entertaining and informative book Colavito traces the origins of the belief in ancient extraterrestrial visitors to the work of horror writer H P Lovecraft 1890-1937 This amazing tale takes the reader through fifty years of pop culture and pseudoscience highlighting such influential figures and developments as Erich von Däniken *Chariots of the Gods* Graham Hancock *Fingerprints of the Gods* Zecharia Sitchin *Twelfth Planet* and the Raelian Revolution The astounding and improbable connections among these various characters are revealed along with the disturbing consequences of Lovecraft's little joke for modern science and public knowledge Beyond documenting Lovecraft's influence on ancient astronaut theories and Raelian cloning efforts Colavito also argues that the appeal of such modern myths is a troubling sign in an age when science is having its greatest success He suggests that at the dawn of the 21st century Western society is witnessing a deep seated erosion of Enlightenment values that are the basis of the modern world Jason Colavito is a freelance writer and editor who has written for *Skeptic* magazine among other publications *Horror Literature through History* Matt

This reference work covers the supernatural and speculative fiction published by Arkham House Publishers Inc. of Sauk City, Wisconsin. In 1937, promising Wisconsin writer August Derleth decided to publish a collection of the stories of his recently deceased friend H. P. Lovecraft. After two years of failed attempts, Derleth and another Lovecraft fan, Donald Wandrei, published the collection themselves under the name of Arkham. In the years that followed, Arkham House published the works of many of the foremost American and British writers of weird fiction, including Basil Copper, Lord Dunsany, Robert E. Howard, and Robert Bloch. Arkham published Ray Bradbury's first book, *Dark Carnival*, in 1947. The work begins with a history of the house and biography of August Derleth; it also includes a chapter on H. P. Lovecraft's connection to Arkham. The main body of the text consists of chronologically listed descriptions and current values of the more than 230 titles published by Arkham House and its two imprints, Mycroft Moran and Stanton Lee. These entries detail editions, reprints, special points, restoration care, buying, and selling, investment, and future trends. Other features include alphabetical indexes of titles and authors, lists of scarcity and value, ranking a list of annual stock lists and catalogs, and a bibliography of reference literature. The book is illustrated throughout with dust jacket reproductions and photographs. **Arkham House** August Derleth, 1959. *Discovering*
