**Speaking through the Mask** Norma Claire Moruzzi, 2018-09-05 Hannah Arendt was famously resistant to both psychoanalysis and feminism Nonetheless psychoanalytic feminist theory can offer a new interpretive strategy for deconstructing her equally famous opposition between the social and the political Supplementing critical readings of Arendt s most significant texts including The Human Condition On Revolution Rahel Varnhagen The Origins of Totalitarianism Eichmann in Jerusalem and The Life of the Mind with the insights of contemporary psychoanalytic feminist and social theorists Norma Claire Moruzzi reconstitutes the relationship in Arendt s texts between constructed social identity and political agency Moruzzi uses Julia Kristeva s writings on abjection to clarify the textual dynamic in Arendt s work that constructs the social as a natural threat Joan Riviere s and

Mary Ann Doane's work on feminine masquerade amplifies the theoretical possibilities implicit in Arendt's own discussion of the public political mask. In a bold interdisciplinary synthesis, Moruzzi develops the social applications of a concept the mask Arendt had described as limited to the strictly political realm: a new conception of political agency as social masquerade traced through the marginal but emblematic textual figures who themselves enact the politics of social identity. The Mask of Normalcy George Serban, 2017-07-05. Psychologists view well-adjusted behaviour as conformity: the ability to navigate relationships and events within a framework of societal rules and regulations. George Serban argues that a better test is how well an individual is able to navigate adverse situations by handling conformity's ambiguities and incongruities. He uses clinical findings and content analysis to explore the interface between social conformity and nonconformist behaviours. The definition of the normal is itself problematic since society's expectations are sometimes controversial, arbitrary or equivocal. As a result, people who have problems coping with social conformity choose between degrees of nonconformity or hiding under what Serban calls a mask of normalcy. Further complicating matters is that some nonconformist attitudes are now seen as normal, supported by governmental policies tacitly favouring moral relativism. A multicultural society is crisscrossed by shades of controversial values and mores. New social codes of correct conduct blur the distinction between true and false, right and wrong, and social conflict simmers as a result. What society perceives as well-adjusted may even change within a society over time, depending on prevailing social values. Some noticeable variations have been within male/female relationships and sexual morality. Serban ultimately concludes that those who have learned how to manipulate social situations are viewed as well-adjusted. Those who have not are seen as struggling or maladjusted. The Mask of Enlightenment Stanley Rosen, 2004-01-01. This landmark study is a detailed textual and thematic analysis of one of Nietzsche's most important but least understood works. Stanley Rosen argues that in *Zarathustra*, Nietzsche lays the groundwork for philosophical and political revolution, proposing a change in humanity's condition that would be achieved by eliminating the decadent existing race and breeding a new race to take its place. Rosen discusses Nietzsche's systematically duplicitous rhetoric of esoteric messages in *Zarathustra*, and he places the book in the contexts of Greek, Christian, Enlightenment, and postmodernist thought. The Mask of Art Clyde Taylor, 1998-11-22. Taylor exposes the concept of art as a tool of ethnocentricity and radical ideology. He challenges the history of aesthetics as a recent invention of privileged Western consumerism and questions the myth of its ancient Greek origin.
