and wireless networks and are organized in topical sections on network security and applications ad hoc sensor and  
ubiquitous computing as well as peer to peer networks and trust management      Building JavaScript Games Arjan  
Egges,2014-09-30 Building JavaScript Games teaches game programming through a series of engaging arcade style games  
that quickly expand your JavaScript and HTML5 skills JavaScript is in the top ten most used programming languages world  
wide and is the basis for applications that can run in any modern browser on any device from smart phone to tablet to PC  
Especial emphasis is given to touch based interface but all games also run using a regular mouse and keyboard setup The  
four games you ll develop from reading this book are Painter Jewel Jam Penguin Pairs Tick Tick These four games are casual  
arcade style games representing the aim and shoot puzzle maze and platform styles of game play The approach in Building  
JavaScript Games follows the basic structure of a game rather than the syntax of a language From almost the very first  
chapter you are building games to run on your phone or other device and show to your friends Successive projects teach  
about handling player input manipulating game objects designing game worlds managing levels and realism through physics  
All told you ll develop four well designed games making Building JavaScript Games one of the most enjoyable ways there is to  
learn about programming browser based games The final chapters in the book contain a very nice bonus of sorts In them you  
will find excerpts from interviews with two prominent people from the game industry Mark Overmars who is CTO of Tingly  
Games and creator of GameMaker and Peter Vesterbacka the CMO of Rovio Entertainment the creators of the Angry Birds  
franchise Their insight and perspective round off what is already a fun and valuable book      *Technology Implementation
