Masks Transformation And Paradox:

Masks, Transformation, and Paradox A. David Napier, 1986 Masks are found world wide in connection with seasonal festivals rites of passage and curative ceremonies They provide a means of investigating the paradoxical problems that appearances pose in the experience of transitional states In this far reaching work A David Napier studies mask iconography and the role played by masks in the realization of change The masks of preclassical Greece in particular those of the Satyr and the Gorgon provide his starting point A comparison of Greek to Eastern and especially Indian models follows and the book concludes with an examination of the interpretation of Hindu ideas in Bali that demonstrates the importance of ambivalence in mask iconography

The Expressive Use of Masks Across Cultures and Healing Arts Susan Ridley, 2024-04-25 The Expressive Use of Masks Across Cultures and Healing Arts explores the interplay between masks and culture and their therapeutic use in the healing arts such as music art dance movement drama play bibliotherapy and intermodal Each section of the book focuses on a different context including viewing masks through a cultural lens masks at play their role in identity formation persona and alter ego healing the wounds from negative life experiences from the protection of medical masks to helping the healing process and from expressions of grief to celebrating life stories Additionally the importance of cultural sensitivity including the differences between cultural appreciation and appropriation is explored Chapters are written by credentialed therapists to provide unique perspectives on the personal and professional use of masks in the treatment of diverse populations in a variety of settings A range of experiences are explored from undergraduate and graduate students to early professionals and seasoned therapists The reader will be able to adapt and incorporate techniques and directives presented in these chapters Readers are encouraged to explore their own cultural heritage to find their authentic voice as well as learn how to work with clients who have different life experiences Chapter 3 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Masks and Masking Gary Edson, 2015-07-11 For at least 20 000 years masking has been a mark of cultural evolution and an indication of magical religious sophistication in society This book provides a comprehensive understanding of the mask as a powerful cultural phenomenon a means by which

human groupings attempted to communicate their dignity and sense of purpose as well as establish a continuum between the natural and supernatural worlds It addresses the distinctive environments within which masks flourished and analyzes the mask as a manifestation of art ethnology and anthropology

Masks and Human Connections Luísa Magalhães, Cândido Oliveira Martins, 2023-01-31 This interdisciplinary collection explores four distinct perspectives about the mask as object of use for protection identity and disguise In part I contributors address human identities within collective social performance with chapters on performativity and the far right and masked identities in political resistance and communication Part II focuses on the mask as a signifying object with strong representational challenges exploring representations in festivals literature and film Part III investigates the ambiguous use of the mask as a protective and concealing element delving into visual culture and digital social media contexts Finally Part VI draws on the work of Levinas and Deleuze to investigate a philosophical view of the mask that addresses memory and ethics within intersubjective relationships Questioning the contemporary world using communication sociology visual culture and philosophical theory the volume provides a pedagogical and formative perspective on the mask

Mask Improvisation for Actor Training & Performance Sears A. Eldredge, 1996 Because mask improvisation work is relatively new in American theater training this book is designed not only to acquaint readers with the theory of mask improvisation but to instruct them in the techniques of method as well Featuring dozens of improvisational exercises in the innovative spirit of Viola Spolin and supplemented with practical appendices on mask design and construction forms and checklists and other classroom materials this book is an invaluable tool for teacher and student alike as well as compelling reading for anyone interested in acquiring a deeper understanding of masks as agents of transformation creativity and performance

Creating Communities Nourit Melcer-Padon, 2018-05-15 How does historical reality interrelate with fiction And how much are readers themselves involved in the workings of fictional literature With innovative interpretations of various well known texts Nourit Melcer Padon introduces the use of literary masks and illustrates literature s engagement of its readers ethical judgement She promotes a new perception of literary theory and of connections between thinkers such as Iser Castoriadis Sartre Jung and Neumann The book offers a unique view on the role of the community in post existentialist modern cultural reality by emphasizing the importance of ritual practices in literature as a cultural manifestation

Athenian Tragedy in Performance Melinda Powers, 2014-05-01 Foregrounding critical questions about the tension between the study of drama as literature versus the study of performance Melinda Powers investigates the methodological problems that arise in some of the latest research on ancient Greek theatre She examines key issues and debates about the fifth century theatrical space audience chorus performance style costuming properties gesture and mask but instead of presenting a new argument on these topics Powers aims to understand her subject better by exploring the shared historical problems that all scholars confront as they interpret and explain Athenian tragedy A case study of Euripides s *Bacchae* which provides more information about performance than any other extant tragedy

demonstrates possible methods for reconstructing the play's historical performance and also the inevitable challenges inherent in that task from the limited sources and the difficulty of interpreting visual material to the risks of conflating actor with character and extrapolating backward from contemporary theatrical experience As an inquiry into the study of theatre and performance an introduction to historical writing a reference for further reading and a clarification of several general misconceptions about Athenian tragedy and its performance this historiographical analysis will be useful to specialists practitioners and students alike

The Visual in Performance Practice, 2020-04-14 This volume was first published by Inter Disciplinary Press in 2011 Papers from the first global conference of Performance Visual Aspects of Performance Practice 2010 evoke the multi role collaborative sense of a jointly crafted production of new discoveries from theory concept and design to realization reflection and audience reception

Living Lilith M. Kelley Hunter, 2005-07-03 Of increasing interest to astrologers Lilith is the name given to four astronomical points an asteroid a star a dark ghost moon and the better known Black Moon All four Liliths are discussed and differentiated with the aid of numerous case histories and fascinating insights into the lives of public figures A section of suggested interpretations of Lilith's influence through the signs is included

Spontaneity Gemma Corradi Fiumara, 2009-03-25 Psychoanalytic theory frequently explains psychopathology from the perspective of either inadequate early care or as the result of environmental factors In this book the author suggests that poor mental health can be a result of our incapacity to respond to internal and external stimuli and indicates that spontaneity is essential in the development of many aspects of the self It is not what happens to us but how we react to events that forms who we are Spontaneity presents an original approach to issues of agency spontaneity and creativity in psychoanalysis by exploring questions including active internalisation paradox forgiveness responsibility empathy self de creation This book will be essential reading for psychoanalysts psychotherapists philosophers and psychologists It will also prove to be engaging for those interested in psychoanalytic theory and theories of subjectivity

Traces of an Omnivore Paul Shepard, 2006-03 Paul Shepard is one of the most profound and original thinkers of our time. He has helped define the field of human ecology and has played a vital role in the development of what have come to be known as environmental philosophy, ecophilosophy, and deep ecology: new ways of thinking about human-environment interactions that ultimately hold great promise for healing the bonds between humans and the natural world. *Traces of an Omnivore* presents a readable and accessible introduction to this seminal thinker and writer. Throughout his long and distinguished career, Paul Shepard has addressed the most fundamental question of life: Who are we? An oft-repeated theme of his writing is what he sees as the central fact of our existence: that our genetic heritage, formed by three million years of hunting and gathering, remains essentially unchanged. Shepard argues that this, our wild Pleistocene genome, influences everything from human neurology and ontogeny to our pathologies, social structure, myths, and cosmology. While Shepard's writings travel widely across the intellectual landscape, exploring topics as diverse as aesthetics, the bear, hunting, perception, agriculture, human ontogeny, history, animal rights, domestication, postmodern deconstruction, tourism, vegetarianism, the iconography of animals, the Hudson River school of painters, human ecology, theoretical psychology, and metaphysics, the fundamental importance of our genetic makeup is the predominant theme of this collection. As Jack Turner states in an eloquent and enlightening introduction, the essays gathered here address controversy with an intellectual courage uncommon in an age that exults in the relativist, the skeptic, and the cynic. Perused with care, they will reward the reader with a deepened appreciation of what we so casually denigrate as primitive life: the only life we have in the only world we will ever know.

Screening the Face P. Coates, 2012-05-11 Coates presents the face in film as a place where transformations begin, reflecting both the experience of modernity and such influential myths as that of Medusa. This is exemplified by a wide range of European and American films, including Ingmar Bergman's *Persona*. **Scripturalectics** Vincent L. Wimbush, 2017-05-04 In this book, Vincent Wimbush seeks to problematize what we call scriptures: a word first used to refer simply to things written, the registration of basic information. In the modern world, the word came to be associated almost exclusively with the center and power defining sacred texts of world religions. Wimbush argues that this narrowing of the valence of the term was a decisive development for western culture. His purpose is to reconsider the initially broad and politically charged use of the term. Scriptures are excavated not merely as texts to be read but understood as discourse, as mimetic rituals and practices, as ideologically charged orientations to and prescribed behaviors in the world, as structures of relationships and social formations, as forms of communication. Wimbush is naming and constructing a new transdisciplinary critical project which uses the historical and modern experiences of the Black Atlantic as resources for framing categorization and analysis. Using Chinua Achebe's novel *Things Fall Apart* as a touchstone, each chapter offers a close reading and analysis of a representative moment in the formation of the Black Atlantic, regarded as part of a history of modern human consciousness and conscientization. Such a history, Wimbush says, is reflected in the major turns in what he calls scripturalectics: part of the

construction of the modern world defined as efforts to manage or control knowledge and meaning *Solidarity Between Species* Frederic Keck, 2025-05-06 This book examines how the Covid 19 pandemic can be described as a biopolitical crisis taking into account a fact often overlooked by commentators Covid 19 is a zoonosis a disease transmissible between animal species The Sars Cov2 virus causing this respiratory disease circulated in bats before passing to humans under as yet mysterious conditions and it was transmitted from humans to other species notably mink and deer Building on Michel Foucault's revival of the term biopolitics and related notions disciplinary power pastoral power cynegetic power this book traces a set of public health measures taken over the last two centuries to control epidemics It underlines how the need to conserve virus strains in order to identify and anticipate their mutations has given rise to cryopolitics a set of techniques aimed at suspending the living in order to defer death The book then questions the emancipatory scope of this cryopolitics by examining interspecies solidarity built by the warning signals sent by animals to humans about coming threats be they pandemics natural disasters or climate change By blurring the boundaries between the wild and the domestic resulting from the process of domestication the politics of zoonoses relies on sentinels who preserve the memory of signs from the past to prepare living beings for future threats by involving them in a common ideal *The Superhero Costume* Barbara Brownie, Danny M Graydon, 2015-11-19 Costume defines the superhero disguising and distinguishing him or her from the civilian alter ego The often garish garb expresses a hero's otherness and empowers its wearers to seek a primal form of justice This book provides the first interdisciplinary analysis of the superhero costume and investigates wide ranging issues such as identity otherness ritual dress and disguise Analysis focuses on the implications of wearing superhero costume exploring interpretations of the costumed hero and the extent to which the costume defines his or her role Using examples across various media comic books film and television with case studies including The X Men Watchmen real life superheroes such as Phoenix Jones and Pussy Riot and audience activities such as cosplay The Superhero Costume presents new perspectives on the increasingly popular genre A lively and thorough account of superhero fashions throughout history The Superhero Costume will be essential reading for students of visual culture popular culture fashion and cultural studies
