There are 3 different scopes of ethics. They are:

Meta-Ethics

Normative Ethics

Applied Ethics

Meta-ethics:

Meta-ethics comprises the area of situational ethics and deals with logical questions like 'What do we mean by 'freedom' and 'determinism' etc. It delves into the nature of ethical properties, attitudes, and judgments. Mass Communication Law and Ethics Roy L. Moore, 1994 A survey of 145 mass media law instructors in 1987 found that although two thirds of the respondents devoted 10 percent or less of their courses to ethics they overwhelmingly agreed that ethics should be a significant part of teaching media law Almost half said ethics is a necessary corollary to law but that legal topics should not be dropped to make room A similar percentage said that in class they distinguish between legal boundaries and standards of ethics in determining appropriate media conduct This is the first book to explicitly combine law and ethics rather than separate them as is traditionally done Many journalism and mass communication programs now include ethics in the title for the media law course a recognition that journalism graduates must be grounded in ethics and that a combined course is the most feasible and effective way of accomplishing this goal Sadly most journalism students complete their degrees with limited if any understanding of the symbiotic relationship between media law and ethics Each chapter in this book includes a discussion of the ethical dimensions of that specific legal topic to demonstrate where the law ends and ethics begins Every journalist must establish a personal code of ethics but the standards can best be understood within the context of mass media law The question should not be simply How do I avoid a lawsuit but rather How do I do what is right To help students and professors more easily grasp the concepts of the laws and the ethics surrounding them this volume offers a supplemental student study guide instructor s manual and annual updates **Mass Communication**

Social Media Law and Ethics Jeremy Harris Lipschultz, 2021-07-22 In this new textbook, social media professor Jeremy Lipschultz introduces students to the study of social media law and ethics, integrating legal concepts and ethical theories. The book explores free expression as it applies to students, media industry professionals, content creators, and audience members. Key issues and practices covered include copyright law, data privacy, revenge porn, defamation, government censorship, social media platform rules, and employer policies. Research techniques are also used to suggest future trends in social media law and ethics. Touching on themes and topics of significant contemporary relevance, this accessible textbook can be used in standalone law and ethics courses as well as emerging social media courses that are disrupting traditional public relations, advertising, and journalism curricula. Case studies, discussion questions, and online resources help students engage with the complexities and ambiguities of this future-oriented area of media law, making it an ideal textbook for students of media law, policy, and ethics, mass media, and communication studies.

Media Law and Ethics Roy L. Moore, 2020-07-24 This new edition of the casebook includes extensive excerpts from 25 major decisions by the Supreme Court of the United States in media law or related to media law. The cases are presented in the order in which they are discussed in the third edition of *Media Law and Ethics* by Roy L. Moore and Michael D. Murray, but the casebook is designed to be used as a supplemental text in any media law course. Each case includes a brief overview and has been edited to delete detailed citations and highly technical material. However, every effort has been made to preserve the Court's original language, including its recitation of the facts, its reasoning, and the holding in the case. Most of the cases also include excerpts from the Court's syllabus, a summary prepared by the Court's Reporter of Decisions. A few of the cases include excerpts from concurring and/or dissenting opinions where those opinions illustrate the complexity of the case or were influential in later decisions.
