## **Mass Media And Drug Prevention:**

**Mass Media and Drug Prevention** William D. Crano, Michael Burgoon, Stuart Oskamp, 2001-11-01 This book tells the story of the mass media's potential in the war against drug abuse. It is based on scientific evidence on the use of media in health promotion and disease prevention. Past approaches, successes and failures alike are included to help enlighten future programs of research and practice. Advice about the logical steps that must be taken to help alleviate the crisis of drug abuse is featured throughout. The book will appeal to social scientists interested in persuasion and the media. Each chapter offers information to help the conscientious practitioner maximize persuasive effects of a mass mediated presentation. Mass Media James B. Martin, 2002 Mass media has become an integral part of the human experience. News travels around the world in a split second affecting people in other countries in untold ways. Although being on top of the news may be good at least for news junkies, mass media also transmits values or the lack thereof, condenses complex events and thoughts to simplified sound bites and often ignores the essence of an event or story. The selective bibliography gathers the books and magazine literature over the previous ten years while providing access through author title and subject indexes.

**Persuasive Communication and Drug Abuse Prevention** Lewis Donohew, Howard E. Sypher, William J. Bukoski, 1991 First Published in 1991. Routledge is an imprint of Taylor & Francis, an information company. **Mass Media and Drug Prevention** Michael Burgoon, Claremont Symposium on Applied Social Psychology, 2002 **Mass Media Effects Research** Raymond W. Preiss, 2007 Publisher description The Role of the Media in Promoting and Reducing Tobacco Use Ronald M. Davis, 2008 **Drugs and Popular Culture in the Age of New Media** Paul Manning, 2013-10-08 This book examines the history of popular drug cultures and mediated drug education and the ways in which new media including social networking and video file sharing sites transform the symbolic framework in which drugs and drug culture are represented. Tracing the emergence of formal drug regulation in both the US and the United Kingdom from the late nineteenth century, it argues that mass communication technologies were intimately connected to these control regimes from the very beginning. Manning includes original archive research revealing official fears about the use of such mass communication technologies in Britain. The second half of the book assesses on-line popular drug culture considering the impact the problematic attempts by drug agencies in the US and the United Kingdom to harness new media and the implications of the emergence of many thousands of unofficial drug-related sites. *Influences of the Mass Media* Roger Haney, 2024-10-09 Useful to both professional persuaders and students of media effects, this book presents theories and empirical research on methods of social influence including advertising, agenda setting, propaganda, public relations and public communication campaigns. The reader first learns how source credibility affects persuasion and the theories that account for persuasion effects followed by research on the third person effect, the belief that others are affected by persuasion attempts but not ourselves. A chapter on the effects of advertising follows including effects on children and research on subliminal messages. The third chapter presents theories

and research on the notion of agenda setting and the finding that while the media may not be overly effective in persuasion it is effective in getting the audience to believe issues covered by the media are the most important facing society The final chapter covers the history of propaganda the development of public relations and the effectiveness of government campaigns such as the Smokey the Bear campaign and various health campaigns The Handbook of Mental Health Communication

Marco C. Yzer, Jason T. Siegel, 2025-04-18 The first book of its kind to offer a transdisciplinary exploration of mass communication approaches to mental health In the Handbook of Mental Health Communication a panel of leading scholars from multiple disciplines presents a comprehensive overview of theory and research at the intersection of mass communication and mental health With timely and authoritative coverage of the impact of message based mental health promotion this unique volume places mental health communication in the context of socio cultural causes of mental illness synthesizing public health psychopathology and mass communication scholarship into a single volume Throughout the Handbook nearly one hundred contributing authors emphasize that understanding communication effects on mental health outcomes begins with recognizing how people across the spectrum of mental illness process relevant information about their own mental health Fully integrated chapters collectively translate biased information attention interpretation and memory in mental health illness to real world implications of mental illness symptomatology and across the spectrum of mental health issues and disorders Providing a clear evidence based picture of what mental health promotion should look like The Handbook of Mental Health Communication is an invaluable resource for advanced undergraduate and graduate students scholars researchers lecturers and all health communication practitioners Alcohol and the Media Marjatta

Montonen, 1996 This text discusses alcohol problems the images presented in the media It suggests that whilst alcohol advertising is not a negligible influence on the abuse of alcohol it would be wrong to assume that restricting it would reduce the level of alcohol consumption or alcohol related problems **Encyclopedia of Children, Adolescents, and the Media** Jeffrey Jensen Arnett, 2007 Publisher Description **Role of the Media in Drug Abuse Prevention and Education** United States.
