Wilson, 2015-06-15 During the five full years of his presidency 1964-1968 Lyndon Johnson initiated a breathtaking array of domestic policies and programs including such landmarks as the Civil Rights Act

Head Start Food Stamps Medicare and Medicaid the Immigration Reform Act the Water Quality Act the Voting Rights Act Social Security reform and Fair Housing These and other Great Society programs reformed the federal government reshaped intergovernmental relations extended the federal government's role into new public policy arenas and redefined federally protected rights of individuals to engage in the public sphere Indeed to a remarkable but largely unnoticed degree Johnson's domestic agenda continues to shape and influence current debates on major issues such as immigration health care higher education funding voting rights and clean water even though many of his specific policies and programs have been modified or in some cases dismantled since his presidency LBJ's Neglected Legacy examines the domestic policy achievements of one of America's most effective albeit controversial leaders Leading contributors from the fields of history public administration economics environmental engineering sociology and urban planning examine twelve of LBJ's key domestic accomplishments in the areas of citizenship and immigration social and economic policy science and technology and public management Their findings illustrate the enduring legacy of Johnson's determination and skill in taking advantage of overwhelming political support in the early years of his presidency to push through an extremely ambitious and innovative legislative agenda and emphasize the extraordinary range and extent of LBJ's influence on American public policy and administration **The Law Times Reports**, 1876 *Legendary Locals of Foxborough* Jeffrey Peterson, 2014 The story of a community is best told through the stories of its people And *Legendary Locals of Foxborough* by veteran journalist Jeffrey Peterson aspires to do just that Relying heavily on newspaper files and Foxborough Historic Commission archives Peterson introduces readers not only to the movers and shakers who made headlines over the past two centuries but also to scores of common folks with decidedly uncommon stories E P Carpenter 19th century industrialist and visionary E H and B B Bristol brothers whose Foxboro Company ushered in decades of unprecedented prosperity outsized personalities like Betty Friedmann Al Truax and Herb Seltsam lanky Gene Conley Boston Red Sox pitcher and Boston Celtics center Alex and Sonja Spier who fled postwar Europe to establish a local real estate empire beloved Deerfield Academy headmaster Frank Boyden and renowned educators John Ahern Mabelle Burrill and Steve Massey Images and biographical text on these and other remarkable residents provide a delightful retrospective documenting the rich and spirited community of Foxborough *Mega-event Cities: Urban Legacies of Global Sports Events* Valerie Viehoff, Gavin Poynter, 2016-03-02 Mega events represent an important moment in the life of a city providing a useful lens through which we may analyse their cultural social political and economic development In the wake of the International Olympic Committee's IOC's concerns about gigantism and wider public concerns about rising costs it was imperative in the 21st to demonstrate the long term benefits that arose for the city and nations from hosting premier sporting events London 2012 was the first to integrate the concept of legacy from the moment a bid to host the Olympic and Paralympic Games was being considered London proposed an ambitious programme of urban renewal for East London Subsequent host city bids have adopted the legacy narrative and as this book demonstrates aligned this to major schemes of

urban development and renewal Bringing together scholars practitioners and policy makers this book focuses upon the legacies sought by cities that host major sports events It analyses how governments the IOC and others define and measure legacy It also focuses upon the challenges and opportunities facing future host cities of mega events looking at their aspirations and the intended impact upon their domestic and international development It questions what the global shift in geographical location of mega events means for sports development and the business of sport what the attractions are for cities seeking to harness the hosting of a mega event and whether there may be longer term consequences for the bidding and hosting major sporting events in the wake of the widespread social unrest that accompanied the preparations in Brazil for hosting the FIFA World Cup 2014 and the summer Olympics 2016 and in Turkey where there was significant opposition to bid for the 2020 summer Olympiad The Lancaster Law Review ,1902 **Social Perspective** Richard U'Ren,2011-01-01 Social Perspective explores the impact of social factors on individual health a topic often overlooked in the practice of psychiatry psychology and medicine Richard U Ren synthesizes viewpoints and information usually dispersed among many disciplines to show how social roles political economic conditions and the social stratification system all contribute to individual well being or disorder U Ren investigates how access to income education and social affiliations buffers individuals against stress and facilitates coping He demonstrates that those who lack access to such resources suffer the poorest health and the greatest mental distress a problem that has only grown more challenging with rising inequality Adding a new dimension to understandings of mental health mental illness and psychological distress Social Perspective offers clinicians a concise account of society's impact on the individual *Assembling Enclosure* Ronan O'Donnell,2015-11-16 The landscape history of North East England has not been studied as much as other parts of the country This book begins to fill this gap by utilizing Actor Network Theory ANT to re-assess the familiar topics of enclosure and improvement It reveals the contribution of local actors including landowners tenants and the landscape itself to these processes In so doing it transforms our understanding of the way in which the landscape of Northumberland was created during the eighteenth and nineteenth centuries and carries wider implications for how we might approach enclosure in other parts of the country **Princeton Alumni Weekly** ,2006 *Reports of Cases Ruled and Adjudged in the Several Courts of the United States, and of Pennsylvania* Alexander James Dallas,1905 *A United Kingdom?* John Mohan,2014-04-23 The human geography of the UK is currently being reshaped by a number of forces such as globalisation transition in the organisations of production the changing character of state intervention and changing relationships with Europe A consideration of the impacts of these forces on economic social and political landscapes is therefore an urgent task At the same time enduring institutional features of the British economy and polity are also having important influences on socio-economic processes The result is a complex mosaic of uneven development which belies the notion of simplistic regional contrasts Rather than simply mapping spatial inequality *A United Kingdom* charts the processes underpinning uneven development at a range of scales and for a

number of key topics The book draws upon and synthesises the latest contemporary research findings and places emphasis on the interrelated nature of economic social and political geographies It treats the human geographies of the UK in a coherent and integrated way and asks whether contemporary processes of change are tending towards the reduction of socio spatial divisions or their reproduction in new forms

**Classic Farm Tractors** Randy Leffingwell,1996-04-08 The farm tractor brought the Industrial Revolution to the farm It lifted the burden from the horse power to horsepower and brought mechanized power into the hands of all farmers This book tells the fascinating story of the development of the farm tractor with more than 250 color photos of tractors from across the United States
