Master Mariner Capt James Cook The Peo:

Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America Robin Inglis, 2008-04-02 The Northwest Coast of America ranging from northern California through Oregon Washington and British Columbia all the way up to Alaska was the last temperate coastline to be placed on the world map First visited by Russians in 1741 and thought to contain a navigable passage between the Pacific and the Atlantic it was systematically revealed during an intense period of exploratory and commercial activity from the 1770s to the 1790s Subsequently the imperial ambitions of Russia Spain and Britain and an assumption of manifest destiny by the United States led to further exploration and ensured that the region would become disputed territory before national boundaries were determined in the mid 19th century The Historical Dictionary of the Discovery and Exploration of the Northwest Coast of America tells of the heroic endeavors and remarkable achievements the endless speculation about a northwest passage and the fighting and manipulation for commercial advantage that surrounded this terrain This is done through an introductory essay a detailed chronology an extensive bibliography modern maps and selected historical maps and drawings and over 400 cross referenced dictionary entries Entries cover the native people encountered the scientists and artists who left an invaluable documentary and visual record of people places flora and fauna the numerous voyages taken by men such as Vitus Bering James Cook Juan Francisco de la Bodega y Quadra and George Vancouver overland expeditions like those of Alexander Mackenzie Simon Fraser Meriwether Lewis and William Clark and David Thompson and maritime fur traders including George Dixon Grigori Shelikhov Robert Gray and William Sturgis No other dictionary exists that is dedicated solely to the coverage of this region

How "Natives" Think Marshall Sahlins, 1996-08-14 When Western scholars write about non Western societies do they inevitably perpetuate the myths of European imperialism Can they ever articulate the meanings and logics of non Western peoples Who has the right to speak for whom Questions such as these are among the most hotly debated in contemporary intellectual life In *How Natives Think* Marshall Sahlins addresses these issues head on while building a powerful case for the ability of anthropologists working in the Western tradition to understand other cultures In recent years these questions have arisen in debates over the death and deification of Captain James Cook on Hawaii i Island in 1779 Did the Hawaiians truly receive Cook as a manifestation of their own god Lono Or were they too pragmatic too worldly wise to accept the foreigner as a god Moreover can a non native scholar give voice to a native point of view In his 1992 book *The Apotheosis of Captain Cook* Gananath Obeyesekere used this very issue to attack Sahlins s decades of scholarship on Hawaii Accusing Sahlins of elementary mistakes of fact and logic even of intentional distortion Obeyesekere portrayed Sahlins as accepting a naive ethnocentric idea of superiority of the white man over natives Hawaiian and otherwise Claiming that his own Sri Lankan heritage gave him privileged access to the Polynesian native perspective Obeyesekere contended that Hawaiians were actually pragmatists too rational and sensible to mistake Cook for a god Curiously then as Sahlins shows Obeyesekere turns

eighteenth century Hawaiians into twentieth century modern Europeans living up to the highest Western standards of practical rationality By contrast Western scholars are turned into classic custom bound natives endlessly repeating their ancestral traditions of the White man s superiority by insisting Cook was taken for a god But this inverted ethnocentrism can only be supported as Sahlins demonstrates through wholesale fabrications of Hawaiian ethnography and history not to mention Obeyesekere s sustained misrepresentations of Sahlins s own work And in the end although he claims to be speaking on behalf of the natives Obeyesekere by substituting a home made rationality for Hawaiian culture systematically eliminates the voices of Hawaiian people from their own history How Natives Think goes far beyond specialized debates about the alleged superiority of Western traditions The culmination of Sahlins s ethnohistorical research on Hawaii it is a reaffirmation for understanding difference **New York Supreme Court Papers on Appeal from Order** , Old Sea Wings, Ways, and Words, in the Days of Oak and Hemp Robert Charles Leslie,1890 **The Hawaiian Journal of History** ,2000
