Mind Mastery vs Mind Slavery But you may say what do you mean by The Master Mind What is the difference between a Master Mind and any other form of Mind Simply this good readers that the Master Mind is consciously deliberately and voluntarily built up cultivated developed and used whereas the ordinary mind is usually unconsciously built up cultivated and

developed without voluntary effort on its own part but solely by the force and power of impressions from the outside world and is usually employed and used with little or no conscious direction by its own will In short the ordinary mind is a mere creature of circumstances driven hither and thither by the winds of outside forces and lacking the guidance of the hand on the wheel and being without the compass of knowledge while the Master Mind proceeds in the true course mapped out by Intelligence and determined by will with sails set so as to catch the best breeze from the outside world and steered by the master hand at the wheel under the direction of the compass of intelligence The ordinary mind is like a dumb driven animal while the Master Mind is like the strong willed intelligent masterful Man The average man is a very slave to his thoughts and feelings A stream of thought and feeling flows through him moving him hither and thither with little or no voluntary choice on his own part Even those men who have attained a certain degree of mental mastery do but little more than to feebly steer their mental bark by the rudder of a wobbling will they do not realize that Mastery is possible to them Even a well known writer has said We do not voluntarily create our thinking It takes place in us We are more or less passive recipients We cannot change the nature of a thought but we can as it were guide the ship by a moving of the helm It would be truer to say that we can deliberately and voluntarily select and choose the particular wind which is to force our mental boat forward or changing the figure to choose and select the particular stream of thought and feeling which is to be allowed to flow through our mind There are three general conditions of human mentality viz 1 Mental Slavery in which the mind is the slave and servant of outside forces and influences 2 Partial Freedom in which the mind is largely controlled by outside influences while at the same time a limited amount of voluntary control and direction has been acquired and 3 Mental Mastery in which the mental faculties and emotional organism have been brought under the control of the will and judgment and the individual is a master of and not a slave to environment and circumstances The great masses of persons are in the first or the above named classes a comparatively small number have passed into the second class while a still smaller number have passed into the third class and have become the Master Minds of their time and place

Master Minds: Creativity in Picasso's & Husain's Paintings. Part 1 Dr. Harpal Sodhi,2022-07-22 *Master Minds Creativity in Picasso s Husain s Paintings* The book *Master Minds Creativity in Picasso s and Husain s Paintings* is a projection of master minds in the field of art It reveals about the creative works of art that are not just show pieces to adorn rich homes museums and art galleries but to bring awareness about human attitude and cultural heritage The projection of these works of art could lead to international integration and establish an amicable relationship between people of all communities and further form a peaceful global human society This book Part 1 to Part 5 also serves the purpose of academic study for art scholars and art researchers all over the world In the entire book *Master Minds*

Creativity in Picasso's and Husain's Paintings light has been thrown on Picasso's and Husain's life and paintings. There is an analytical study of their works of art. The significant aspects dealt with in their paintings are creativity viewed through linear quality forms, colors, pictorial composition, subject matter, styles, mediums, techniques, similarities and differences in their works of art. I consider myself to be fortunate to avail the opportunity to journey through a significant part of the life and works of these two great artists. Their contribution to the world of art is exemplary for many future generations. Picasso and Husain have proved that the aesthetic artistic trend of thought has no barriers and boundaries. The mind of an artist can reach any part of the universe and create wonders in the form of an art. Picasso's and Husain's immortalized paintings mesmerize the observer when their creative activity springs out in their paintings which speak in a silent language of forms and colors. An exposure to visual art in any form has proved to be a form of communication. Our global human society is divided by languages, customs, religions, economic developments and geographical locations, but the visual language in the form of paintings of artists all over the world have united the global society by their creative activity. When an artist's aesthetic sense is highly developed and his ability to grasp and display is superb, he ultimately becomes a pioneer of a unique technique or style. Picasso's cubism and Husain's allegorical series of paintings in Husainian style are the products of the vigorous experiments with different mediums and techniques. It has been noticed that their works have a glimpse of the existing styles and techniques mingled with an antiquarian approach where the result is absolutely unique and creative. Their works of art are deemed to immortalize their names as the ever shining prominent stars in the sky of the world of art. There are total 226 illustrations in Part 1 to Part 5 of the ebooks that include a unique analytical study of the paintings and the sketches of the artists Pablo Picasso and Maqbool Fida Husain.
