The Chicago Pragmatists and American Progressivism Andrew Feffer,2018-10-18 Founded in 1894 at a peak of social and industrial turmoil the Chicago school of pragmatist philosophy is emblematic of the progressive spirit of early twentieth century America The Chicago pragmatists under the leadership of John Dewey pursued a close critique of the modern workplace school and neighborhood which provided a theoretical base for the progressive reform agenda Andrew Feffer here provides a richly textured group portrait of Dewey and his colleagues George Herbert Mead and James Hayden Tufts against the backdrop of Chicago s social history In this nuanced intellectual biography of the Chicago pragmatists Feffer retraces the story of their personal involvement in reform movements and examines how they revised contemporary political rhetoric and social theory in order to reestablish the foundations of democracy in productive and rewarding work Drawing on liberal Christian reformist as well as philosophical idealist traditions the pragmatists advanced a radically humanistic social theory that attacked the regimentation of factory life and demanded the democratization of industry and education Feffer also gives an account of certain elitist and anti democratic assumptions of pragmatist theory he shows in particular how progressive reformers inherited the pragmatists mistrust of the political impulses of the industrial workers they championed **Transactions (of the Goethe Society) Edited by Eugene Oswald** Eugène Oswald,1893 **The**

Morgans Vincent P. Carosso,Rose C. Carosso,1987 The House of Morgan personified economic power in the late 19th early 20th centuries Carosso constructs an in depth account of the evolution operations and management of the Morgan banks at London New York Philadelphia and Paris from the time Junius Spencer Morgan left Boston for London to the death of his son John Pierpont Morgan **Internationalists in European History** Jessica Reinisch,David Brydan,2021-01-28 Representing a crucial intervention in the history of internationalism transnationalism and global history this edited collection examines a variety of international movements organisations and projects developed in Europe or by Europeans over the course of the 20th century Reacting against the old Eurocentricism much of the scholarship in the field has refocussed attention on other parts of the globe This volume attempts to rethink the role played by ideas people and organisations originating or located in

Europe including some of their consequential global impact The chapters cover aspects of internationalism such as the importance of language communication and infrastructures of internationalism ways of grappling with the history of internationalism as a lived experience and the roles of European actors in the formulation of different and often competing models of internationalism It demonstrates that the success and failure of international programmes were dependent on participants ability to communicate across linguistic but also political cultural and economic borders By bringing together commonly disconnected strands of European history and history from below this volume rebalances and significantly advances the field and promotes a deeper understanding of internationalism in its many historical guises The volume is conceived as a way of thinking about internationalism that is relevant not just to scholars of Europe but to international and global history more generally
