Mastering E Business

Richard Pettinger

Mastering E Business:

Mastering E-Business Paul Grefen, 2010-07-02 Mastering e Business presents an innovative new teaching framework to help students gain a thorough understanding of the principles of this vital aspect of business and management

Mastering E-Business Infrastructure Veljko Milutinovic, Frédéric Patricelli, 2012-12-06 As a foreword here we publish an email letter of Late Professor Herb Simon Nobel Laureate that he wrote on the occasion of the death of the father of a friend. This letter of condolence more than any other wisdom tells about the essence of the process of scientific creation which is so important for both the specific subject being covered by this book and for the general science. When asked to address an SSGRR conference in Italy prior to his death Professor Herb Simon agreed that these lines be presented to all those who are interested in understanding the real essence of their own scientific struggle. Dear Professor Milutinovic I want to extend my deepest sympathy to you and your family on the death of your father. His career was a very distinguished one and his life spanned a most complex and difficult sequence of epochs in your country's history. Our generation I am just a year younger than he was like all its predecessors leaves many tasks hopefully no more than it inherited for the next generation to take up but even knowing that it must be so does not remove one's sense of loss in the parting. Mastering e-Business Paul

Grefen, 2010-07-02 e Business business collaborations enabled through information and communication technologies is an essential activity for any business organization and constitutes a significant and growing sector. This textbook presents an innovative teaching framework to help students gain a thorough understanding of the principles of this vital aspect of business and management. Casting aside the over complicated and narrow introductions of other textbooks Grefen presents analyzes and explains the principles of e Business with refreshing clarity. The book covers both the business and technology aspects of this topic using a unique framework integrating Business focuses on why a specific e Business scenario exists and how an organization can profit from it. Organization analyzes how organizations and their processes are structured to achieve strategic goals. Architecture explains the high level design of advanced information systems to describe how e Business functions. Technology examines the technological implementation of e Business scenarios using a wide variety of ingredients from IT. Mastering e Business offers a well structured overview of all aspects of e Business and is an essential read for all students and professionals interested in this central aspect of modern global business.
