Perspectives on Teaching and Learning English Literacy in China Jiening Ruan,Cynthia Leung,2012-11-29 This is one of two volumes by the same editors that explore historical philosophical and cultural perspectives on literacy in China This volume focuses on English literacy in China while the other volume is on Chinese literacy In modern day China English has enjoyed an increasingly important status in education but not without challenges The essays in this volume provide a comprehensive cross disciplinary look at changes in English literacy practices and literacy instruction in China from the first English school in the 19th century to recent curriculum reform efforts to modernize English instruction from basic education through higher education Together the essays address a wide array of topics including early childhood English education uses of information technology to teach English and teaching English to Chinese minority students This work is essential reading for those who want to expand their understanding of English literacy education in China

Teaching and Learning English Richard Andrews,2004-11-01 There is increasingly wide agreement amongst teachers researchers inspectors advisers and policy makers that both teaching and research will benefit from the two activities being brought closer together But how can this be achieved Hard pressed practitioners can hardly be expected constantly to review a constant flow of conference papers journals and other publications even if such items were accessible and clearly understood This unique book synthesizes relevant research findings for the professional practitioner and highlights their implications for the quality of teaching and learning Whether you are a teacher looking to improve your practice through applying the latest

thinking in your subject or a researcher searching for a concise review of the literature this book will be a vital acquisition

Teaching and Learning English Literature Ellie Chambers, Marshall Gregory, 2006-03-14 It is scarcely possible to imagine a truly educated person who cannot read well Yet it is not clear how or even if courses in literature actually work How can teachers of English help students in their developmental journey toward becoming skillful readers and educated persons This is the complex question that Chambers and Gregory address in *Teaching and Learning English Literature* The authors consider practical matters such as course design and student assessment but do not shirk larger historical and theoretical issues In a lucid and non polemical fashion and occasionally with welcome humor Chambers and Gregory describe the what why and how of doing literature often demonstrating the techniques they advocate Veteran teachers will find the book rejuvenating a stimulus to examining purposes and methods beginning teachers may well find it indispensable Professor William Monroe University of Houston The transatlantic cooperation of Ellie Chambers and Marshall Gregory has produced an outstanding book that ought to be on the shelves of anyone involved in the teaching of English Literature as well as anyone engaged in the scholarship of teaching and learning in general or in any discipline As they say the teaching of English Literature plays a central role in human beings search for meaning although others in other disciplines may make this claim for theirs too If so they will still learn a great deal from this book anyone looking for no more than a means of satisfying the demands of governments that look for simplistic quality measures and economic relevance let them look elsewhere This is a book for now and for all times Professor Lewis Elton Visiting Professor University of Manchester Honorary Professor University College London This is the third in the series *Teaching and Learning the Humanities in Higher Education* The book is for beginning and experienced teachers of literature in higher education The authors present a comprehensive overview of teaching English literature from setting teaching goals and syllabus planning through to a range of student assessment strategies and methods of course or teacher evaluation and improvement Particular attention is paid to different teaching methods from the traditional classroom to newer collaborative work distance education and uses of electronic technologies All this is set in the context of present day circumstances and agendas to help academics and those in training become more informed and better teachers of their subject The book includes how literature as a discipline is currently understood and constituted what it means to study and learn the subject what good teaching is with fewer resources for teaching larger student numbers an emphasis on user pay principles and vocationalism This is an essential text for teachers of English Literature in universities and colleges worldwide The *Teaching Learning in the Humanities* series edited by Ellie Chambers and Jan Parker is for beginning and experienced lecturers It deals with all aspects of teaching individual arts and humanities subjects in higher education Experienced teachers offer authoritative suggestions on how to become critically reflective about discipline specific practices **Research in Education** ,1970 **Resources in Education** ,1998
