**Making Amulets Christian** Theodore de Bruyn, 2018-01-26 Making Amulets Christian Artefacts Scribes and Contexts examines Greek amulets with Christian elements from late antique Egypt in order to discern the processes whereby a customary practice the writing of incantations on amulets changed in an increasingly Christian context It considers how the formulation of incantations and amulets changed as the Christian church became the prevailing religious institution in Egypt in the last centuries of the Roman empire Theodore de Bruyn investigates what we can learn from incantations and amulets containing Christian elements about the cultural and social location of the people who wrote them He shows how incantations and amulets were indebted to rituals or ritualizing behaviour of Christians This study analyzes different types of amulets and the ways in which they incorporate Christian elements By comparing the formulation and writing of individual amulets that are similar to one another one can observe differences in the culture of the scribes of

these materials It argues for conditioned individuality in the production of amulets On the one hand amulets manifest qualities that reflect the training and culture of the individual writer On the other hand amulets reveal that individual writers were shaped whether consciously or inadvertently by the resources they drew upon by what is called tradition in the field of religious studies

The Roman Empire James W. Eder, 2018-05-01 Covering material from the time of Julius Caesar to the sack of Rome this topically arranged reference set provides substantive entries on people cities government institutions military developments material culture and other topics related to the Roman Empire

The Roman Empire was one of the greatest and most influential forces of the ancient world and many of its achievements endure in one form or another to this day. Because of its geographic breadth, cultural diversity, and overall complexity, it is also one of the most difficult organizations to understand. This book focuses on the Roman Empire from the time of Julius Caesar to the sack of Rome. While most references on the Roman world provide a series of alphabetically arranged entries, this work is organized in broad topical chapters on government and politics, administration, individuals, groups, and organizations, places, events, military developments, and objects and artifacts. Each section provides 20 to 30 substantive entries along with an overview essay. The work also provides a selection of primary source documents and closes with a bibliography of important print and electronic resources. *The Oxford Handbook of Social Relations in the Roman World* Michael Peachin, 2011-01-04

The study of Roman society and social relations blossomed in the 1970s. By now we possess a very large literature on the individuals and groups that constituted the Roman community and the various ways in which members of that community interacted. There simply is, however, no overview that takes into account the multifarious progress that has been made in the past thirty odd years. The purpose of this handbook is twofold. On the one hand, it synthesizes what has heretofore been accomplished in this field. On the other hand, it attempts to configure the examination of Roman social relations in some new ways and thereby indicates directions in which the discipline might now proceed. The book opens with a substantial general introduction that portrays the current state of the field, indicates some avenues for further study, and provides the background necessary for the following chapters. It lays out what is now known about the historical development of Roman society and the essential structures of that community. In a second introductory article, Clifford Ando explains the chronological parameters of the handbook. The main body of the book is divided into the following six sections: 1. Mechanisms of Socialization: primary education, rhetorical education, family, law. 2. Mechanisms of Communication and Interaction. 3. Communal Contexts for Social Interaction. 4. Modes of Interpersonal Relations: friendship, patronage, hospitality, dining, funerals, benefactions, honor. 5. Societies Within the Roman Community: collegia, cults, Judaism, Christianity, the army. and 6. Marginalized Persons: slaves, women, children, prostitutes, actors, and gladiators, bandits. The result is a unique, up-to-date, and comprehensive survey of ancient Roman society. **Christian Origins and Greco-Roman Culture** Stanley E.

Porter, Andrew W. Pitts, 2013. In *Christian Origins and Greco-Roman Culture*, Stanley Porter and Andrew Pitts assemble an international team of scholars whose work has focused on reconstructing the social matrix for earliest Christianity through the use of Greco-Roman materials and literary forms. Each essay moves forward the current understanding of how primitive Christianity situated itself in relation to evolving Hellenistic culture. Some essays focus on configuring the social context for the origins of the Jesus movement and beyond, while others assess the literary relation between early Christian and Greco-Roman texts. **Rethinking the Mediterranean** W. V. Harris, 2006-10-27. In this collection of essays, an international group of renowned scholars attempt to establish the theoretical basis for studying the ancient and medieval history of the

Mediterranean Sea and the lands around it In so doing they range far afield to other Mediterraneans real and imaginary as distant as Brazil and Japan Their work is an essential tool for understanding the Mediterranean pre modern and modern alike It speaks to ancient and medieval historians to archaeologists anthropologists and all historians with environmental interests and not least to classicists Living the End of Antiquity Sabine R. Huebner, Eugenio Garosi, Isabelle Marthot-Santaniello, Matthias Müller, Stefanie Schmidt, Matthias Stern, 2020-05-05 This volume covers the transition period stretching from the reign of Justinian I to the end of the 8th century focusing on the experience of individuals who lived through the last decades of Byzantine rule in Egypt before the arrival of the new Arab rulers The contributions drawing from the wealth of sources we have for Egypt explore phenomena of stability and disruption during the transition from the classical to the postclassical world *Jewish Scribes in the Second-Temple Period* Christine Schams, 1998-11-01 Journal for the Study of the Old Testament Supplement series 291 *The Oxford Handbook of Egyptology* Ian Shaw, Elizabeth Bloxam, 2020 The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from prehistory through to the end of the Roman period Transcending conventional boundaries between archaeological and ancient textual analysis and bringing together 63 chapters that range widely across the various archaeological philological and cultural sub disciplines authored by recognized experts in their respective fields it highlights the extent to which the discipline has diversified and stresses the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant Authoritative yet accessible it is an invaluable resource for scholars students and general readers alike Papyrology And The History Of Early Islamic Egypt Petra A. Sijpesteijn, Lennart Sundelin, 2004 This collection includes editions of previously unpublished Greek Coptic and Arabic documents historical and linguistic studies making use of documentary evidence and literary papyri and an introduction to papyrology and its relevance for the study of early Islamic Egypt **Legal Documents as Sources for the History of Muslim Societies**, 2017-06-06 This volume is a tribute to the work of legal and social historian and Arabist Rudolph Peters University of Amsterdam Presenting case studies from different periods and areas of the Muslim world the book examines the use of legal documents for the study of the history of Muslim societies From examinations of the conceptual status of legal documents to comparative studies of the development of legal formulae and the socio economic or political historical information documents contain the aim is to approach legal documents as specialised texts belonging to a specific social domain while simultaneously connecting them to other historical sources It discusses the daily functioning of legal institutions the reflections of regime changes on legal documentation daily life and the materiality of legal documents Contributors are Maaïke van Berckel Maurits H van den Boogert L on Buskens Khaled Fahmy Aharon Layish Sergio Carro Mart n Brinkley Messick Toru Miura Christian M ller Petra M Sijpesteijn Mathieu Tillier and Amalia Zome o
