Reading The Fights The Best Writing About The Most Controversial Sport:

Boxing Gerald R. Gems, 2014-03-13 Sports fans have long been fascinated with boxing and the brutal demonstration of physical and psychological conflict. Accounts of the sport appear as far back as the third millennium BC and Greek and Roman sculptors depicted the athletic ideals of the ancient era in the form of boxers. In the present day, boxers such as Muhammad Ali, Joe Frazier, Sugar Ray Robinson, Oscar De La Hoya, Manny Pacquiao, and Floyd Mayweather Jr. are recognized throughout the world. Boxing films continue to resonate with audiences, from the many Rocky movies to *Raging Bull*, *The Fighter*, *Million Dollar Baby*, and *Ali*. In *Boxing: A Concise History of the Sweet Science*, Gerald R. Gems provides a succinct yet wide-ranging treatment of the sport, covering boxing's ancient roots and its evolution, modernization, and global diffusion. The book not only includes a historical account of boxing but also explores such issues as social class, race, ethnic rivalries, religious influences, gender issues, and the growth of female boxing. The current debates over the moral and ethical issues relative to the sport are also discussed. While the primary coverage of the political, social, and cultural impacts of boxing focuses on the United States, Gems' examination encompasses the sport on a global level as well. Covering important issues and events in the history of boxing and featuring numerous photographs, *Boxing: A Concise History of the Sweet Science* will be of interest to boxing fans, historians, scholars, and those wanting to learn more about the sport. [The Courage of Doing Philosophy](#), 2007-01-01 In recent years, the problem of idealization has been one of the central issues discussed in philosophy of science. This volume gathers original essays written by well-known philosophers. The papers address the method of idealization and its applications in science, as well as ontological and epistemological problems that have arisen. Among the questions addressed are: What is the logical form of idealizational statements and how should they be interpreted? Is the possible worlds semantics useful in understanding idealization? What is the relation between idealization and truth? The volume is a celebration of Leszek Nowak's sixtieth birthday. *The Publishers Weekly*, 1987 **The New York Times Book Review**, 1990-04 Presents extended reviews of noteworthy books, short reviews, essays, and articles on topics and trends in publishing, literature, culture, and the arts. Sara Cardace *The Washington Post* In 1999, after a series of adventurous jobs—construction at the South Pole, ranching in Montana, and sailing private yachts around the world—Sheridan found himself in Australia with time to finally indulge a long-dormant obsession: fighting. After training in Bangkok at the legendary Fairtex Gym, Sheridan stepped through the ropes for a professional bout, embarking on an epic journey to discover what only a fighter can know about fear, violence, and most of all, himself. From small-town Iowa to the beaches of Rio, from the
