Reading The Thirties Texts And Contexts:

Reading the Thirties Bernard Bergonzi, 1978 Discusses the generation of English writers who emerged in the late 1920s and who came to dominate the following decade W H Auden Stephen Spender C Day Lewis and Louis MacNeice among poets Graham Greene Christopher Isherwood George Orwell and Evelyn Waugh among novelists Dust jacket **The Queer Cultures of 1930s Prose** Charlotte Charteris, 2019-01-04 Offering a radical reassessment of 1930s British literature this volume questions the temporal limits of the literary decade and broadens the scope of queer literary studies to consider literary historical responses to a variety of behaviours encompassed by the term queer in its many senses Whilst it is informed by the history of sexuality in twentieth century Europe it is also profoundly concerned with what Christopher Isherwood termed the market value of the Odd Drawing for its methodology on the work of Raymond Williams it traces the impact of the Great War on the development of language examining the use of ten keywords in the prose of Christopher Isherwood Evelyn Waugh and Patrick Hamilton and that of their respective literary milieux in order to establish how queer lives and modern sub cultural identities were forged collaboratively within the fictional realm By utilizing contemporary perspectives on performativity in conjunction with detailed close readings it repositions these authors as self conscious agents actively producing their own queer masculinities through calculated acts of linguistic transgression **Texts and Contexts** Kenneth Quinn, 2024-08-30 First published in 1979 Texts and Contexts identifies those classics of Roman literature which deserve to survive because of their intrinsic quality and their lasting significance The most important of these texts are placed in the context of the tradition which each represents and which each group of texts taken together constitutes Four main streams of tradition are identified the poet as storyteller narrative poetry and drama the poet as teacher didactic poetry the poet as himself personal poetry and the poetry of social comment and Roman literary prose Each major text is presented in the form of one or more passages of substantial length for analysis in detail and comparison with related works The translations used include leading literary translations since the sixteenth century The result is a history of Roman literature in which the emphasis is laid on the quality of the text discussed rather than on comprehensiveness of treatment and on organic relationships rather than chronology This book is the result of thirty years of teaching experience by the author and his conviction that existing books on the same subject are inadequate and misleading It will be of particular interest to students taking classical literature and translation courses to students of English literature and anyone who is interested in literature even without a knowledge of Latin **The Ethnography of Reading at Thirty** Matthew Rosen, 2023-11-23 This edited volume examines what the classic text The Ethnography of Reading Boyarin ed 1993 and the diverse ethnographies of reading it helped inspire can offer contemporary scholars interested in understanding the place of reading in social life The Ethnography of Reading at Thirty brings together new research and critical reflections from an international and interdisciplinary group of scholars who have kept their ears tuned to the voices in and around the texts they encountered and

constructed in the process of bringing the ethnography of reading into the twenty first century Rather than operating from universalist assumptions about how people interact with and make meaning from written texts each of the present contributors draw in one way or another on the theoretical methodological and creative legacies of The Ethnography of Reading Under the broad umbrella of ethnographic reader studies they collectively explore new relations between texts social imagination and social action

The Oxford English Literary History: Volume 10: 1910-1940: The Modern Movement Chris Baldick,2005-11-10 This exciting new volume provides a freshly inclusive account of literature in England in the period before during and after the First World War Chris Baldick places the modernist achievements of Virginia Woolf T S Eliot and James Joyce within the rich context of non modernist writings across all major genres allowing high literary art to be read against the background of low entertainment Looking well beyond the modernist vanguard Baldick highlights the survival and renewal of realist traditions in these decades of post Victorian disillusionment Ranging widely across psychological novels war poems detective stories satires and children s books The Modern Movement provides a unique survey of the literature of this turbulent time

The Unsung Artistry of George Orwell Loraine Saunders,2016-02-24 In a timely and radically new reappraisal of George Orwell s fiction Loraine Saunders reads Orwell s novels as tales of successful emancipation rather than as chronicles of failure Contending that Orwell s novels have been undervalued as works of art she offers extensive textual analysis to reveal an author who is in far more control of his prose than has been appreciated Persuasively demonstrating that Orwell s novels of the 1930s such as A Clergyman s Daughter and Keep the Aspidistra Flying are no less important as literature than Animal Farm and Nineteen Eighty Four Saunders argues they have been victims of a critical tradition whose practitioners have misunderstood Orwell s narrative style failed to appreciate Orwell s political stance and were predisposed to find little merit in Orwell s novels Saunders devotes significant attention to George Gissing s influence on Orwell particularly with regard to his representations of women She also examines Orwell s socialism in the context of the political climate of the 1930s finding that Orwell in his successful negotiation of the fine balance between art and propaganda had much more in common with Charlie Chaplin than with writers like Stephen Spender or W H Auden As a result of Saunders s detailed and accessible analysis which illuminates how Orwell harmonized allegory with documentary polyphonic voice with monophonic and elegy with comedy Orwell s contributions to the genre of political fiction are finally recognized

Graham Greene's Thrillers and the 1930s Brian Diemert,1996 In Graham Greene s Thrillers and the 1930s Brian Diemert examines the first and most prolific phase of Graham Greene s career demonstrating the close relationship between Greene s fiction and the political economic social and literary contexts of the period Situating Greene alongside other young writers who responded to the worsening political climate of the 1930s by promoting social and political reform Diemert argues that Greene believed literature could not be divorced from its social and political milieu and saw popular forms of writing as the best way to inform a wide audience

Woolf Key Features A clear and informative introduction by Maroula Joannou sets the writers in historical and literary context The essays deal with Modernist texts as well as traditional modes of writing and with neglected and well known writers An important challenge to the ways in which the literature of the 1930s has been traditionally understood which questions the myth of the Auden generation Brings together a range of distinguished contributors all of whom are experienced university teachers who all contribute new research

Edward Thomas Jacek Wiśniewski, 2009 Edward Thomas volunteered when he was 37 years old and a father of three and was killed as an artillery officer during the first hour of the Arras offensive on April 9th 1917 In the two years before his death he wrote the 144 poems which ensured a place for him among the poets of his generation Though all his poems had been written under storm Thomas was not a war poet in the sense that Owen Sassoon or Rosenberg were war poets Before he turned to poetry in December 1914 he had written and published about thirty prose books of different kinds country books and nature studies literary biographies and travel accounts several short stories one autobiographical novel and one autobiographical fragment He was also a reviewer of contemporary poetry literary editor and

anthologist There is a popular notion that Thomas' friendship with the American poet Robert Frost made him a poet; an equally mistaken view places Thomas among the Georgian poets while at the same time it fails to mention the powerful impact of the poetry of William Butler Yeats and Thomas Hardy. Edward Thomas: A Mirror of England surveys the whole of Edward Thomas' achievement not only in verse explaining the ways in which Thomas' poetry continues to appeal to new generations of readers while exerting great influence on new generations of poets. Wi niewski discusses Thomas' place in the English line of 20th century poetry stemming from Thomas Hardy; he sheds new light on the literary friendship between Thomas and Robert Frost; he analyzes his nature books and provides new assessment of his role as critic. Wi niewski argues against those who insist on placing Thomas' poetry in the context of Georgian poetry and in doing so provides new interpretations of well known poems by Thomas. The book fully discusses the role the Great War played in making Thomas a poet and in a final chapter focuses on the best known poems by Thomas. Almost thirty years after Andrew Motion's study *The Poetry of Edward Thomas: A Mirror of England* offers a fresh and timely reappraisal of one of England's major poets. With scholarly thoroughness and lucidity Wi niewski reveals an accessible and complex poet in ways which will bring Edward Thomas once again to whoever is interested in poetry.
