primary classrooms It s a question that many educators like kindergarten teacher and literacy coach Cathy Mere are starting

to ask Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts but Cathy found that she needed to find other ways to help students gain independence While maintaining guided reading as an important piece of their reading program teachers need to offer students opportunities during the day to develop as readers to learn to choose books to find favorite genres and authors and to talk about their reading In *More Than Guided Reading* Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning not only providing more time for students to discover their reading lives but also shaping instruction to meet the needs of the diverse learners in her classroom By changing the structure of the day Cathy found she was better able to adjust the support she was providing students allowing time for whole class focus lessons conferences and opportunities to share ideas as well as reading from self selected texts using the strategies skills and understandings acquired in reader s workshop The focus lesson is the centerpiece of the workshop It is often tied to a read aloud and connected to learning from the previous day helping to build skills extend thinking and develop independence over time This thoroughly practical text offers numerous sample lessons questions for conferences and ideas for revamping guided reading groups It will help teachers tweak the mix of instructional components in their reading workshops and provoke school wide conversations about the place of guided reading in a complete literacy curriculum

Growing Readers Kathy Collins,2004 Primary grade teachers face an important challenge teaching children how to read while enabling them to build good habits so they fall in love with reading Many teachers find the independent reading workshop to be the component of reading instruction that meets this challenge because it makes it possible to teach the reading skills and strategies children need and guides them toward independence intention and joy as readers In *Growing Readers* Kathy Collins helps teachers plan for independent reading workshops in their own classrooms She describes the structure of the independent reading workshop and other components of a balanced literacy program that work together to ensure young students grow into strong well rounded readers Kathy outlines a sequence of possible units of study for a yearlong curriculum Chapters are devoted to the individual units of study and include a sample curriculum as well as examples of mini lessons and reading conferences There are also four Getting Ready sections that suggest some behind the scenes work teachers can do to prepare for the units Topics explored in these units include print and comprehension strategies reading in genres such as poetry and nonfiction connecting in school reading and out of school reading developing the strategies and habits of lifelong readers A series of planning sheets and management tips are presented throughout to help ensure smooth implementation We want our students to learn to read and we want them to love to read To do this we need to lay a foundation on which children build rich and purposeful reading lives that extend beyond the school day The ideas found in *Growing Readers* create the kind of primary classrooms where that happens
