Defense of Things Bjørnar Olsen, 2010-07-16 In much recent thinking social and cultural realms are thought of as existing prior to or detached from things materiality and landscape It is often assumed for example that things are entirely constructed by social or cultural perceptions and have no existence in and of themselves Bjornar Olsen takes a different position Drawing on a range of theories especially phenomenology and actor network theory Olsen claims that human life is fully mixed up with things and that humanity and human history emerge from such relationships Things moreover possess unique qualities that are inherent in our cohabitation with them qualities that help to facilitate existential security and memory of the past This important work of archaeological theory challenges us to reconsider our ideas about the nature of things past and present demonstrating that objects themselves possess a dynamic presence that we must take into account if we are to understand the world we and they inhabit **Encyclopedia of Historical Archaeology** Charles E. Youth Cultures and Subcultures Sarah Baker, Brady Robards, 2016-02-11 This volume critically examines subculture in a variety of Australian contexts exploring the ways in which the terrain of youth cultures and subcultures has changed over the past two decades and considering whether subculture still works as a viable conceptual framework for studying youth culture Richly illustrated with concrete case studies the book is thematically organised into four sections addressing i theoretical concerns and global debates over the continued usefulness of subculture as a concept ii the important place of belonging in subcultural experience and the ways in which belonging is played out across an array of youth cultures iii the gendered experiences of young men and women and their ways of navigating subcultural participation and iv the ethical and methodological considerations that arise in relation to researching and teaching youth culture and subculture Bringing together the latest interdisciplinary research to combine theoretical considerations with recent empirical studies of subcultural experience Youth Cultures and Subcultures will appeal to scholars and students across the social sciences *All*

Things Arabia, 2020-11-16 By employing the innovative lenses of thing theory and material culture studies this collection brings together essays focused on the role played by Arabia's things from cultural objects to commodities to historical and ethnographic artifacts to imaginary things in creating an Arabian identity over time The Arabian identity that we convey here comprises both a fabulous Arabia that has haunted the European imagination for the past three hundred years and a real Arabia that has had its unique history culture and traditions outside the Orientalized narratives of the West All Things Arabia aims to dispel existing stereotypes and to stimulate new thinking about an area whose patterns of trade and cosmopolitanism have pollinated the world with lasting myths knowledge and things of beauty Contributors include Ileana Baird Marie Claire Bakker Joseph Donica Holly Edwards Yannis Hadjinicolaou Victoria Hightower Jennie MacDonald Kara McKeown Rana Al Ogayyel Ceyda Oskay Chrysavgi Papagianni James Redman Eran Segal Hlya Ya c o lu and William Gerard Zimmerle

Jewish Property After 1945 Jacob Ari Labendz, 2018-10-18 Questions arose after 1945 and have persisted about the ownership of properties which had belonged to Jewish communities before the Second World War to Holocaust victims and survivors and to Jewish expellees from the Middle East and North Africa Studies of these properties have often focused on their symbolic values their places in cultures of memory and identity construction and measures of justice achieved or denied This collection explores contesting conceptions of ownership and property claims advanced in the post war years The authors focus considerably upon how conflicts over these properties both shaped and reflected shifting and competing ideas about Jewish belonging They show their outcomes to have had considerable consequences for the lived experiences of both Jews and non Jews around the world This is because the properties in questions always maintained their worth as material assets just as they could also impart financial liabilities and other responsibilities to their stewards regardless of the morality of their title The unique decision to include studies of European Middle Eastern and North African communities into one volume represents an attempt to achieve a more globally sensitive language for thinking about these histories especially at their points of contact and mutual reference This book was originally published as a special issue of Jewish Culture and History

Historical Archaeology Charles E. Orser, Jr., 2016-08-05 This book provides a short readable introduction to historical archaeology which focuses on modern history in all its fascinating regional cultural and ethnic diversity Accessibly covering key methods and concepts including fundamental theories and principles the history of the field and basic definitions Historical Archaeology also includes a practical look at career prospects for interested readers Orser discusses central topics of archaeological research such as time and space survey and excavation methods and analytical techniques encouraging readers to consider the possible meanings of artifacts Drawing on the author's extensive experience as an historical archaeologist the book's perspective ranges from the local to the global in order to demonstrate the real importance of this subject to our understanding of the world in which we live today The third edition of this popular textbook has been significantly revised and expanded to reflect recent developments and discoveries in this exciting area of study Each chapter

includes updated case studies which demonstrate the research conducted by professional historical archaeologists With its engaging approach to the subject Historical Archaeology continues to be an ideal resource for readers who wish to be introduced to this rapidly expanding global field

Athens on the Frontier Patrick Lee Lucas,2023-03-28 In 1811 architect Benjamin Henry Latrobe spurred American builders into action when he called for them to reject the corrupt Age of Dioclesian or the still more absurd and debased taste of Louis the XIV and to emulate instead the ancient temples of Greece In response people in the antebellum trans Appalachian region embraced the clean lines intricate details and stately symmetry of the Grecian style On newly built public buildings private homes and religious structures references to classical Greek architecture became the preferred ornamentation Several antebellum cities and towns adopted the moniker of Athens styling themselves as centers of culture education and sophistication As the trend grew American citizens understood the name as a link between the Grecian style and the founding principles of democracy signaling a change of taste in service to the larger American cultural ideal In *Athens on the Frontier* Patrick Lee Lucas examines the material culture of Grecian style buildings in antebellum America to help recover nineteenth century regional identities As communities worked to define their built landscape and develop a shared Western identity Lucas s study invites readers to question many of the assumptions Americans have made about divisions and cultural formation in antebellum society

Media and Communication Research Methods Arthur Asa Berger,2018-12-27 This step by step introduction to conducting media and communication research offers practical insights along with Arthur Asa Berger s signature lighthearted style to make discussion of qualitative and quantitative methods easy to comprehend The Fifth Edition of *Media and Communication Research Methods* includes a new chapter on discourse analysis expanded discussion of social media including discussion of the ethics of Facebook experiments and expanded coverage of the research process with new discussion of search strategies and best practices for analyzing research articles Ideal for research students at both the graduate and undergraduate level this proven book is clear concise and accompanied by just the right number of detailed examples useful applications and valuable exercises to help students to understand and master media and communication research

Dress and Society T. F. Martin,R. Weech,2017-01-31 While traditional studies of dress and jewellery have tended to focus purely on reconstruction or descriptions of style chronology and typology the social context of costume is now a major research area in archaeology This refocusing is largely a result of the close relationship between dress and three currently popular topics identity bodies and material culture Not only does dress constitute an important means by which people integrate and segregate to form group identities but interactions between objects and bodies quintessentially illustrated by dress can also form the basis of much wider symbolic systems Consequently archaeological understandings of clothing shed light on some of the fundamental aspects of society hence our intentionally unconditional title *Dress and Society* illustrates the range of current archaeological approaches to dress using a number of case studies drawn from prehistoric to post medieval Europe Individually each chapter makes a strong

contribution in its own field whether through the discussion of new evidence or new approaches to classic material Presenting the eight papers together creates a strong argument for a theoretically informed and integrated approach to dress as a specific category of archaeological evidence emphasising that the study of dress not only draws openly on other disciplines but is also a sub discipline in its own right However rather than delimiting dress to a specialist area of research we seek to promote it as fundamental to any holistic archaeological understanding of past societies

Studies in history and museums Peter E. Rider,1994-01-01 The authors of this volume attempt to describe the relationship between history as a field of study and museums as vehicles for the presentation of historical discourse The development of history museums the way in which exhibits are created the manner in which historians function in a museum setting and the issues connected with the treatment of the history of specific sectors of our population are the themes addressed Published in English

Critical Pedagogy and Global Literature Masood Ashraf Raja,Hillary Stringer,Zach VandeZande,2013-08-13 In one volume this edited collection provides both a theoretical and praxis driven engagement with teaching world literature focusing on various aspects of critical pedagogy Included are nine praxis driven essays by instructors who have taught world literature courses at the university level

History Beyond the Text Sarah Barber,C. M. Peniston-Bird,2009 Sources are the bedrock of history But over the past few years the question of what is a historical source has become an increasingly prominent concern This text opens up the discussion on sources to those beyond the traditional ones

Doing Research in Fashion and Dress Yuniya Kawamura,2020-01-09 Whether you re investigating fashion as a material object an abstract idea a social phenomenon or a commercial system qualitative techniques can further your understanding of almost any research topic *Doing Research in Fashion and Dress* begins by guiding you through a brief history of fashion studies and the debates surrounding it before introducing key qualitative methodological approaches including ethnography semiology and object based research Detailed case studies demonstrate how each methodology is used in practice These case studies include Japanese subcultures fashion photography blogs and semiotic studies of fashion magazine shoots and advertisements This second edition also features a new chapter on internet sources and online ethnography reflecting the adoption of social media tools not only by industry practitioners but also by academics By contextualizing history theory and practice *Doing Research in Fashion and Dress* offers A systematic examination of qualitative research methods in fashion studies in social sciences A practical guide for anyone wishing to conduct fashion research in academia or in the business world An accessible grounding in contemporary fashion studies literature

Elusive Archives Martin Brückner,Sandy Isenstadt,2021-08-27 The essays that comprise *Elusive Archives* raise a common question how do we study material culture when the objects of study are transient evanescent dispersed or subjective Such things resist the taxonomic protocols that institutions such as museums and archives rely on to channel their acquisitions into meaningful collections What holds these disparate things together here are the questions authors ask of them Each essay creates by means of its method a provisional collection of things an elusive

archive Scattered matter then becomes fixed within each author's analytical framework rather than within the walls of an archive's reading room or in cases along a museum corridor This book follows the ways in which objects may be identified gathered arranged conceptualized and even displayed rather than by discovering artifacts in an archive and then asking how they came to be there The authors approach material culture outside the traditional bounds of learning about the past Their essays are varied not only in subject matter but also in narrative format and conceptual reach making the volume accessible and easy to navigate for a quick reference or if read straight through build toward a new way to think about material culture

Southern California and the World Eric J. Heikkila, Rafael Pizarro, 2002-10-30 As underscored by the emergence of the Los Angeles school of contemporary urban studies the Southern California experience its popular culture politics economics spatial structure ethnic diversity technologies and lifestyles has an impact and relevance well beyond its own immediate geographic setting This book explores the parallel and interlinked constructions of identities imaginations and activities in and between Southern California and the world beyond In particular the volume shows how the local and global are interfused with one another making it evident that the connections involve more than a process of globalization Approaching the subject from three perspectives the volume considers how the Southern Californian way of life as reflected through entertainment politics legal institutions technology cultural trends influences the lifestyles of other parts of the world how Southern California as a primary repository of peoples and cultures from throughout the world absorbs and transforms this living diaspora of foreign cultures into something that is uniquely Southern Californian and how Southern California functions as a major nexus within a global network of linked activities and the special roles of Southern California within the context of these global networks The book provides a panoramic and stimulating perspective on the multiplexed connectivities between global phenomena and the Southern California experience
