which *The Excursion* is shown to be about providing the readers with moral habits and mental constructs by which to learn not simply telling them what to think The book begins with a discussion of the reception of the poem in 1814 considering the responses of Coleridge Hazlitt Francis Jeffrey and Charles Lamb This historicized discussion is then balanced by a reading of the poem at the compositional stage looking at the emergence from the manuscripts of a Wordsworthian dramatic voice The author goes on to argue that the poem's philosophy is performative that is concerned with the way in which moral ideas can best be communicated as much as with the ideas themselves She then shifts her attention to consider how this operates in relation to the reader considering the importance of context in relation to emotional response Later the epitaphic books are reconsidered in the light of Wordsworth's critical writing Bushell argues that the significance of the epitaph for him lies in its values as a poetic form in which the text itself is released from poetic authority Finally the author looks back at *The Prelude* from the perspective of *The Excursion* and shows how the later poem attempts to value the ordinary rather than the poetic mind The conclusion reached is that Wordsworth is not just the egotistical poet of *The Prelude* interested largely in the development of his own imaginative powers but one who goes on to explore the limits of subjectivity and the importance of different kinds of imaginative links between individuals

**The Epistemology of Reading and Interpretation** René van Woudenberg, 2021-09-16 Reading and textual interpretation are ordinary human activities performed inside as well as outside academia but precisely how they function as unique sources of knowledge is not well understood In this book Ren van Woudenberg explores the nature of reading and how it is distinct from perception and attending to testimony which are two widely acknowledged knowledge sources After distinguishing seven accounts of interpretation van Woudenberg discusses the question of whether all reading inevitably involves interpretation and shows that although reading and interpretation often go together they are distinct activities He goes on to argue that both reading and interpretation can be paths to realistically conceived truth and explains the conditions under which we are justified in believing that they do indeed lead us to the truth Along the way he offers clear and novel analyses of reading meaning interpretation and interpretative knowledge
