**Reading the Pictures of the Apocalypse** Rudolf Steiner, 1993      Journal for Star Wisdom 2016 Robert Powell, 2015-10-01 Journal for Star Wisdom 2016 includes articles of interest concerning star wisdom Astrosophy as well as a guide to the correspondences between stellar configurations during the life of Christ and those of today This guide comprises a complete sidereal ephemeris and aspectarian geocentric and heliocentric for each day throughout the year Published yearly new editions are available beginning in October or November for the coming new year According to Rudolf Steiner every step taken by Christ during his ministry between the baptism in the Jordan and the resurrection was in harmony with and an expression of the cosmos Journal for Star Wisdom is concerned with these heavenly correspondences during the life of Christ It is intended to help provide a foundation for cosmic Christianity the cosmic dimension of Christianity It is this dimension that has been missing from Christianity in its two thousand year history Readers can begin on this path by contemplating the movements of the Sun Moon and planets against the background of the zodiacal constellations sidereal signs today in relation to corresponding stellar events during the life of Christ In this way the possibility is opened for attuning in a living way to the life of Christ in the etheric cosmos This year's journal begins with an article by Robert Powell on the relationship between the galactic center and Christ's miracle of the healing of the man born blind followed by an article by Estelle Isaacson about the life of the man born blind whose name was Celidonius She has also written on the star of Lazarus and reading the starry script Claudia McLaren Lainson's article The Towers We Build relates to the planet Uranus and events of our time against the background of the position of Uranus in 2016 the same as shortly after Christ's Ascension She also honors psychologist and astrophysicist William Bento who died on June 5 2015 with her In Memoriam David Tresemer's article written with Robert Schiappacasse expands on a short contribution from William Bento Brian Gray's article focuses upon the birth of Jesus in terms of a stellar imagination in relation to the three kings on the one hand and the shepherds on the other Nicholas Kollerstrom contributed Position of the Ancient Star Zodiac presenting his research into the original scientific definition of the zodiac The article Specters by Kevin Dann takes a unique approach to The Fall of the Spirits of Darkness the subject of David Tresemer's article The monthly commentaries for 2016 by Claudia McLaren Lainson are supported by monthly astronomical previews by Sally Nursey offering opportunities to observe and experience physically the stellar configurations during 2016 This direct interaction between the human being on Earth and the heavenly beings of the stars develops the capacity to receive their wisdom filled teachings      **Humanity's Last Stand** Nicanor Perlas, 2018 The twenty first century is the age of science and technology It will also be the age when humanity confronts for the first time a challenge that may overwhelm and destroy the human species itself in as little as 12 to 20 years from now This is the challenge of artificial intelligence AI Deployed properly AI will confer tremendous benefits to society It is already doing this Deployed inappropriately or mistakenly AI will undermine human civilization as it is also starting to do and could then lead to

the extinction of humanity Scientists philosophers and engineers call this latter possibility the existential risk of AI The fate of our future is literally in our hands Nicanor Perlas from the preface Although still in its earliest stages artificial intelligence is radically transforming all aspects of society With the immanent emergence of Artificial Super Intelligence ASI and the illusory temptations of transhumanism humankind stands at a crossroads Nicanor Perlas makes an urgent plea in this book It is imperative he says that we take immediate steps to ensure that digitized technology is aligned to human values and priorities Otherwise ASI will kill the essence of our humanity Furthermore if we do not master it now ASI will transform humanity into its own image ultimately it will destroy the human race AI experts have not offered a single cogent solution to this existential threat Rudolf Steiner however not only foresaw these developments but also provided clear alternatives Steiner who developed a contemporary scientific approach to spirituality provided philosophical ontological and social innovations to save humanity from this technological abyss It is the task of the global anthroposophic movement to pioneer this civilization saving work to establish spiritual scientific ideas in mainstream culture that would allow AI to emerge in a healthier societal context Perlas offers an overview of the AI phenomenon together with its related transhuman concepts of perfecting humanity outlining the critical internal and external responses needed to meet them consciously In particular the author addresses the movement connected to the work of Rudolf Steiner indicating its all important tasks to cooperate with progressive individuals and movements including scientists and civil society activists to mobilize its daughter movements for action and ultimately to cooperate with the spiritual powers that have guided and served humanity since the dawn of time This says Perlas is humanity s last stand Failure is not an option

**The Burning Bush** Edward Reaugh Smith,1997 Even more significant for Christianity in the long run than the twentieth century Dead Sea and Nag Hammadi discoveries is the growing North American awareness of Rudolf Steiner s works Virtually unavailable until the end of the twentieth century English translations from the German archives are gradually coming into print Both Steiner and his works have thus far been virtually unknown in traditional theological circles No Bible commentary has yet reflected the remarkable spiritual insights of Anthroposophy Now ten years after first encountering a written comment about Rudolf Steiner Ed Smith combines his own extensive traditional biblical knowledge with his years of concentrated study and

reflection on hundreds of assembled works by Steiner The result is the first Bible commentary in the light of anthroposophic insight This is the first volume of a series of Bible commentary by the author It is based on the anthroposophic understanding given to humanity by Rudolf Steiner during the first quarter of the twentieth century Bible commentaries have always reflected the general line of thinking of their authors However the dramatic newness of anthroposophic thought means that perhaps the usual method of using a Bible commentary is not appropriate here A large part of The Burning Bush is necessarily devoted to laying an anthroposophic or spiritual scientific groundwork A major assumption indulged in most Bible commentaries that one can go directly to portions dealing with given passages of scripture and understand what is being said about them does not fit
