

Emotional Disturbance

What is it?

Emotional/Behavioral Disorders are a chronic condition characterized by behaviors that significantly differ from age norms and community standards to such a degree that educational performance is adversely affected. The IDEA defines emotional disturbance as: a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance:

- An inability to learn that cannot be explained by intellectual, sensory, or health factors.
- An inability to build or maintain satisfactory interpersonal relationships with peers and teachers.
- Inappropriate types of behavior or feelings under normal circumstances.
- A general pervasive mood of unhappiness or depression.
- A tendency to develop physical symptoms or fears associated with personal or school problems.

Emotional Disturbance is frequently categorized as externalized (overt outward performance) and internalized (characterized by withdrawing and acting towards the self, including self-harm).

What does it look like in school?

Learning Characteristics: Students with emotional disturbance typically experience significant academic deficits. Many of these students perform below grade level. It is uncertain whether students with emotional disturbance experience academic difficulties because of the lack of motivation or maladaptive behaviors, especially those associated with externalizing disorders. Regardless, these students are at very high risk of poor academic performance. Most learning gaps are because of the interruptions to learning caused by their condition. Regardless of if they exhibit externalizing or internalizing behaviors, they will miss out on instruction and skill practice.

Social Characteristics: One of the most salient characteristics of students with emotional or behavioral disorders is their difficulty building and maintaining satisfactory interpersonal relationships. Many of these children, especially those exhibiting aggressive behavior, often experience rejection by both peers and adults.

Language/Communication Characteristics: Individuals with emotional or behavioral disorders typically use fewer words per sentence, have difficulty staying on topic, and use language that is inappropriate to social conversation.

Challenges Students Face in the Classroom:

Students have difficulty with time management, transition management, over crowded areas, sitting in the classroom, paying attention to content, social skills, and problem solving. To help with some of these difficulties, it is important to be proactive. Students in the classroom need proactive interventions related to management of the physical environment. For example, place the schedule in a prominent location, designate a more challenging task with less difficult ones, Alternate lecture, discussion, and movement types of activities, Adjust the length of activities, Review and discuss the schedule frequently, Inform students in advance of changes in the schedule, and Schedule routine opening and closing activities.

Common Accommodations and Supports within the classroom setting:

- Using graphic organizers and visual aids
- Slowly giving directions and repeating if necessary
- Allowing sufficient time for the student to respond
- Using short sentences
- Repeating important phrases
- Being Patient
- Additional time on assignments
- Frequent checking
- Additional time on assignments
- Additional time on tests
- Breaks
