Changing Self-Destructive Habits Matthew D. Selekman,Mark

Beyebach,2014-09-25 For the first time in one volume self harm substance abuse eating disordered behavior gambling and Internet and cyber sex abuse five crippling self destructive behaviors are given a common conceptual framework to help with therapeutic intervention Matthew Selekman and Mark Beyebach two internationally recognized therapists know first hand that therapists see clients who have problems with several of these habits in varying contexts They maintain an optimistic positive solution focused approach while carefully addressing problems and risks The difficulties of change the risk of slips and relapses and the ups and downs of therapeutic processes are widely acknowledged and addressed Readers will find useful hands on therapeutic strategies and techniques that they can use in both individual and conjoint sessions during couple family and one on one therapy Detailed case examples provide windows to therapeutic processes and the complexities in these cases Clinical interventions are put in a wider research context while research is reviewed and used to extract key implications of empirical findings This allows for a flexible and open therapeutic approach that therapists can use to integrate techniques and procedures from a variety of approaches and intervention programs *Handbook of Family Therapy Training and Supervision* Howard A. Liddle,Douglas C. Breunlin,Richard C. Schwartz,1988-06-17 Over the last three decades family therapy has revolutionized the mental health field changing the way human problems are conceived and therapy is conducted In concert with the dynamic growth of family therapy the field of family therapy training and supervision has also expanded enormously yielding many new ideas and skills Yet until now few books have been devoted to it and no single volume has attempted to relate the full breadth of this growing field in terms of its conceptual and theoretical expansion as well as its practical application HANDBOOK OF FAMILY THERAPY TRAINING AND SUPERVISION fills this need by presenting a truly comprehensive view of this dynamic area To accomplish this broad yet in depth scope editors Liddle Breunlin and Schwartz have assembled 30 highly acclaimed authorities to author chapters in their respective areas of expertise For further clarification the editors have included segues that introduce and analyze each of the book s four major sections providing the reader with an overview of the section highlights of themes that run through it and discussion of the issues raised in a way that ties the chapters together The book opens with a presentation of the unique and innovative approaches to training and supervision that have evolved in each separate school of family therapy Offering a panoramic view of the entire field of family therapy these seven chapters allow for fascinating comparisons among the different schools

regarding the process by which ideas about therapy evolve into training techniques and philosophies Section II follows with an explication of the pragmatics of family therapy supervision Helping family therapy trainers avoid and anticipate the common mistakes involved with supervision the skills described in this section create an atmosphere conducive to learning and maintaining a working trainer trainee relationship and finally for training of supervisors Practical guidelines for using live and video supervision are included Section III features family therapy trainers in such diverse fields as psychiatry psychology family medicine social work nursing free standing and academic family therapy programs who describe the problems and advantages they encounter teaching these new ideas within their idiosyncratic contexts The book closes with a section that includes reflections on the field by such innovative and respected leaders as Cloe Madanes and Jay Haley Among topics covered are perspectives and recommendations for researchers evaluating family therapy practical advice for incorporating a cultural perspective into training programs feedback on the experience of live supervision from trainees perspectives An appendix follows that provides over 400 references organized by subject for easy reference Given the level and scope of this extraordinary text FAMILY THERAPY TRAINING AND SUPERVISION is an invaluable resource for anyone interested in teaching learning or simply appreciating family therapy

Strength-Based Clinical Supervision John Wade, John C Wade, Janice Jones, 2014-08-27 Through the frame of positive psychology Wade and Jones solidify a next step in conceptualization and practice of supervision This expansive view of historical narrative literary and theoretical approaches is a significant addition to the supervision literature Carol Falender PhD University of California Los Angeles For many of us in mental health fields our training in supervision occurred on the job We mirrored the examples of positive supervision we experienced or tried to avoid the pitfalls we associated with negative supervision experiences But being a competent and proficient supervisor is far more than emulation or avoidance of past experience It is a vital aspect of our jobs and requires a pedagogical approach steeped in best practices and evidence Strength Based Clinical Supervision offers a comprehensive approach to providing sound clinical supervision and should be part of any training program for clinicians who will one day supervise mentor or instruct anyone entering the field of mental health services Carrie Fleider MSW LISW S Assistant Director for Training Counseling and Consultation Services The Ohio State University As evidenced by the recent proliferation of books about positive psychology there is a growing realization about the importance of focusing on an individual's strengths Yet there has been little written about positive psychology that applies this approach to training and supervision To fill this void Strengths Based Clinical Supervision combines the principles of positive psychology with research on effective supervision and training from various disciplines along with the characteristics of effective clinical supervisors Designed for use with courses on clinical supervision in psychology counseling social work the book is also an ideal resource for supervisors of Master's and Doctoral level trainees as well as licensed professionals It emphasizes practical applications and provides examples of questions and prompts to be used in supervision sessions Chapters feature practical

applications of key concepts as well as discussion questions to encourage retention of the material Key Features Integrates the basic principles of positive psychology with those of effective supervision and training Emphasizes practical applications of positive psychology to clinical supervision across multiple disciplines Includes examples of questions and prompts to be used in actual supervision sessions
