Readings On Crime And Punishment:

Readings on Crime and Punishment Derek C. Maus, 2000 Briefly traces the life of Dostoyevsky summarizes the plot and characters of Crime and Punishment and offers articles on the novel's critical reception composition and philosophical perspective Altered Reading Jill Robbins, 1999-05-15 How might the ethical philosophy of the renowned French thinker Emmanuel Levinas relate to literature Because his philosophy addresses the very opening of ethical experience it cannot be applied readily as a critical method to literary texts Yet Levinas's work studied as it is with literary sources and quotations demands a literary account With an attitude at once respectful and interrogative closely attentive to Levinas's texts while in dialogue with readings by Derrida Blanchot and Bataille Altered Reading shows how the thread of the literary leads directly to the internal tensions of Levinas's ethical discourse Jill Robbins provides a comprehensive critical account of Levinas's early and mature philosophy as well as later key transitional essays In an invaluable appendix she includes her own translation of an important previously untranslated essay by Bataille on Levinas Altered Reading will interest philosophers literary critics scholars of religion and others drawn to Levinas's work The Social History of Crime and Punishment in America: A-De Wilbur R. Reading the Early Republic Robert A. FERGUSON, Robert A Ferguson, 2009-06-30 Reading the Early Republic focuses attention on the forgotten dynamism of thought in the founding era In every case the documents novels pamphlets sermons journals and slave narratives of the early American nation are richer and more intricate than modern readers have perceived Rebellion slavery and treason the mingled stories of the Revolution still haunt national thought Robert Ferguson shows that the legacy that made the country remains the idea of what it is still trying to become He cuts through the pervading nostalgia about national beginnings to recapture the manic depressive tones of its first expression He also has much to say about the reconfiguration of charity in American life the vital role of the classical ideal in projecting an unthinkable continental republic the first manipulations of the independent American woman and the troubled integration of civic and commercial understandings in the original claims of prosperity as national virtue Reading the Early Republic uses the living textual tradition against history to prove its case The first formative writings are more than sacred artifacts They remain the touchstones of the durable promise and the problems in republican thought
