The American Educational History Journal is a peer reviewed national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines The editors of AEHJ encourage communication between scholars from numerous disciplines nationalities institutions and backgrounds Authors come from a variety of disciplines including political science curriculum history philosophy teacher education and educational leadership Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history

Readings in American Educational Thought Andrew J. Milson, Chara Haeussler Bohan, Perry L. Glanzer, J. Wesley Null, 2004-12-01 The writings in this collection on American educational thought represent the many stories individuals and ideas that have shaped American education during the past several centuries This book should serve as a useful primary or supplementary text for any undergraduate or graduate course in the history of American education American educational thought social foundations of education philosophy of education or curriculum theory The editors of this volume hope that readers of this book will come to understand and perhaps develop a desire to participate in the great conversation that is American educational thought

American Educational History William H. Jeynes, 2007-01-18 This is an excellent text in the field of U S educational history The author does a great job of linking past events to the current trends and debates in education I am quite enthusiastic about this book It is well written interesting accessible quite balanced in perspective and comprehensive It includes sections and details that I found fascinating and I think students will too Gina Giuliano University at Albany SUNY This book offers a comprehensive and fair account of an American Educational History The breadth and depth of material presented are vast and compelling Rich Milner Vanderbilt University An up to date contemporary examination of historical trends that have helped shape schools and education in the United States

Key Features Covers education developments and trends beginning with the Colonial experience through the present day placing an emphasis on post World War II issues such as the role of technology the standards movement affirmative action bilingual education undocumented immigrants and school choice Introduces cutting edge controversies in a way that allows students to consider a variety of viewpoints and develop their own thinking skills Examines the educational history of increasingly important groups in U S society including that of African American women Native Americans Latinos and Asian Americans

Intended Audience This core text is designed for undergraduate and graduate courses such as Foundations of Education

Educational History Introduction to Education Philosophy of Education American History Sociology of Education Educational Policy and Educational Reform in the departments of Education History and Sociology **The American Educational Catalogue** ,1919 Mathematics Education Across Time and Place Thomas O'Shea,2016-05-25 What is mathematics and what aspects of it should be taught in schools How and to whom should it be taught and how should its understanding be assessed These questions continue to drive curriculum development school organization teaching methods and research agendas No one today doubts that mathematics should be taught in our schools but this was not always so Mathematics Education Across Time and Place aims to help mathematics teachers teacher educators and anyone else interested in mathematics education appreciate the path this discipline has taken through the ages To understand the historical and social context for schools and the place of mathematics within them we meet a variety of mathematics educators from different times and places Though fictional their lives and social circumstances are based on historical documents and professional sources They range from ancient Greece to modern Zimbabwe from Persia to British Columbia from Islamic Baghdad to revolutionary Paris from Elizabethan England to twentieth century New York and from the rural one room schools of North America to the modern comprehensive secondary school By sharing the teachers lives we come to understand how they developed their love for teaching mathematics and how their work fit into the larger social context of their time A *Bibliography of American Educational History* Frederick M.
